FOUR MEN WERE KILLED

FATAL EXPLOSION

Four Men Dead and Six Others Were Injured

NEW YORK, Oct. 9.—Four men were killed and six injured today by an explosion of dynamite 60 feet under ground in a shaft under Central park, where they were working on the Aqueduct for the Catskill water system.

The dead men were all Italian laborers. Michael Kearney, foreman of the gang, and John Ward, a workman, may die.

Kearney and J. W. Martin, the night superintendent of the work were arrested on charges of criminal negligence.

The shaft where the explosion occurred is being sunk by the Bravo Construction company of Pittsburg at 66th street. It is being drilled and blasted through solid rock and is about 16 feet in diameter.

A new sift of ten men had barely started work this morning when a drill in charge of John Paulino struck some explosives. With a terrific roar tons of rock shot into the air, Paulino and the nearest workmen were blown to pieces and two others were crushed to death by falling stone.

Ten charges were touched off Saturday night and it is believed that some of these failed to explode and caused the disaster when the drill struck it this morning.

TO REFORMATORY

Young Man Charged With Larceny

Arthur Marchildon, a young man who resides in South Lowell, was arrested yesterday by Capt. Brosnan, Inspector Lallamme and Inspector McCloughry on a warrant charging him with the larceny of a horse, carriage and harness, the property of Joseph Tessier, who conducts a livery stable in Hall street. The horse, it is alleged, is worth $110, the carriage is valued at $90 and the harness at $10.

When the young man was arraigned before Judge Hadley in police court he entered a plea of guilty and after being found guilty was sentenced to the Massachusetts reformatory at Concord.

Marchildon is 19 years of age and a hostler by trade. Friday afternoon he called at Mr. Tessier's stable and said he was anxious to secure a horse and carriage. He said he might be able to return with the rig that night but that if he didn't he would bring it around early Saturday morning.

When Saturday morning came Marchildon failed to put in an appearance. Tessier thinking that the young man might have been unavoidably detained thought little of the matter until Saturday night and still the boy did not put in an appearance. Sunday morning the matter was reported to the police and they succeeded in clearing up the mystery but not until they had gone to considerable trouble.

It was learned that Marchildon went to Wilmington Saturday morning and swapped the good horse for an old nag which was worth about $6 and then went to North Woburn where they exchanged Mr. Tessier's good carriage for an old caravan. The horness which was on the horse had blinders on it but the young man evidently thinking that he could better the looks of the harness, cut the blinders off the bridle.

Tessier Again a Victim

Friday was certainly Mr. Tessier's unlucky day for a man called at his stable for a horse and carryall. The outfit was turned over to the man, but the stranger like in the case of the boy failed to put in an appearance at the time he said he would and Saturday the matter was reported to the police.

This morning the police received information to the effect that an unknown person had put up a horse at Peabody's stable in Warren street Friday night and had not yet called for it.

Mr. Tessier was notified and he went to Peabody's stable where he recognized the outfit as belonging to him. The man who "borrowed" the horse and carriage has not yet been located.

McNAMARA CASE

125 Men Called, From Whom a Jury Will be Selected

LOS ANGELES, Cal., Oct. 9.—One hundred and twenty-five citizens of Los Angeles, from whom 12 may be called upon to pass on the guilt or innocence of John J. and James B. McNamara on the Los Angeles Times dynamiting case, gathered today in the new courtroom of Judge Walter Bordwell.

The men constituted the first venire to be summoned as jurors in the McNamara trial, which is set to begin Wednesday. They were called to enable the court to excuse those who for ordinary reasons may be unable to act.

The names of the veniremen were kept secret when drawn and the calling of each juror was attended by a hasty scratching of pencils as representatives of opposing counsel in the coming trial jotted the names down for reference.

THE McNAMARAS

SKETCH OF THE TWO MEN UNDER TRIAL

LOS ANGELES, Cal., Oct. 9.—Sitting in a corridor just outside his cell in the county jail, John J. McNamara, secretary-treasurer of the International Association of Bridge and Structural Iron Workers, briefly sketched what he termed the uneventful lives of himself and his brother, James B. McNamara.

"I was born in Cincinnati, December 23, 1876," he said, "and I am the oldest of six children living, although there were ten children originally. I attended the common schools in Cincinnati until I was twelve years old and then took a three-year-course in a business college.

"Nothing of any importance happened to me until the panic began in 1892, when I turned my hand to anything and everything to keep the pot boiling, as they say.

"I did my first bridgework at Cincinnati in 1898, joining the union the next year. Between 1898 and 1904, I visited various sections of the middle west, following my trade and working on steel bridges, viaducts and similar structures.

"I have held all of the offices in local unions, particularly in those of Cleveland, and have attended all the conventions of the International association since 1902. I was elected second vice-president at the convention at Kansas City in 1903 and was chosen secretary-treasurer at Toronto in 1904. I have held that office ever since.

"The last building I worked on was the Rockefeller structure in Cleveland. I left that job to go to Toronto, and it was held open for me if I wanted to go back, but I didn't, as I had been made secretary-treasurer and had my time fully taken up with the duties of that office.

"The offices of the international association were in New York when I was first elected. Later, for sentimental reasons, I was instrumental in having them moved to Cleveland. Two years after the offices were removed there, another change was made to Indianapolis, for the reason that so many labor organizations had their international headquarters there.

"I never planned my life far ahead. The work of an ironworker probably precludes such planning, for such a man does not know when he leaves home in the morning that he will return at night. It probably tends towards fatalism.

"I wanted to learn of the organization in which I held office, particularly the legal end of it, and so I attended the Indianapolis College of Law and was admitted to practice in 1903.

"There is little else about my life except my arrest. I am an inveterate reader, and always have been, of books treating with economics and industrial matters."

James B. McNamara, who sat quietly by while his brother talked, also was born in Cincinnati. His birthday was June 2, 1882. He attended the common schools and then learned the printer's trade, which he has followed almost continuously ever since, working in job offices in Chicago, Cleveland, Cincinnati and other cities.

"Unlike me," said John J. McNamara, "my brother has never been especially active in trades union affairs."

COLUMBUS DAY PARADE

Plans Are Completed for the Great Celebration

There will be a special meeting of Lowell Council, No. 72, Knights of Columbus, at their council chamber, Tuesday, Oct. 10, 1911, at 8 p. m. The meeting is called for the purpose of developing enthusiasm for the celebration of Columbus day.

Rev. W. George Mullin, who has recently been appointed chaplain of the council, will deliver an address after the business meeting.

It is expected that a large attendance of members will be present.

The Columbus day committee held a special meeting Sunday afternoon and encouraging reports were heard from the various sub-committees.

The parade will be the feature of the morning's celebration and it is expected that there will be four divisions, comprising a military, a civic and a Holy Name society division, with the Knights of Columbus making the fourth.

The route of parade is as follows: Formation on South common at 10 a. m. sharp; march from Highland to Locke street, to Gorham, to Central, to Merrimack square, to Bridge, countermarch at Sixth street, to Merrimack to Moody, to Aiken, to Merrimack, to be reviewed at city hall by the chief marshal and staff.

The chief marshal and staff will be mounted and they request each organization to detail at least one mounted aide to serve on his staff. The uniform will consist of frock coats, silk hat, gauntlets and leggings. Each aide will be furnished a sash.

The Holy Name societies of the different churches are requested to form in a preliminary parade with the Knights of Columbus and march from city hall square to St. Peter's church. Holy Name societies and members of the Knights of Columbus should be at city hall by 8 o'clock. The American band will escort the societies to the church. A solemn high mass will be celebrated at St. Peter's church at 3.45 and Rev. James Quinn of San Antonio, Texas, a former Lowell man, will deliver the sermon. In connection with the celebration of mass, Rev. Fr. Burns will conduct the singing of the sanctuary choir.

The singing of school children will be a pleasant feature. At least 1000 school children will participate. The grounds at city hall will be wired off and the children will be admitted by ticket through the Moody street entrance. Frederick O. Blunt and Wm. F. Thornton have this arrangement in charge.

Plans for the banquet which will be held at Associate hall at 7 o'clock p. m. were discussed and from present indications it promises to be a memorable event. The speakers include Gov. Foss, Congressman Ames, Mayor Meehan, Joseph Smith and Rev. Matthew C. Gleason, chaplain of the U. S. navy. James E. O'Donnell, esq., was chosen chairman of the reception committee.

Chief Marshal Thomas B. Delaney will announce later his staff and list of aides.

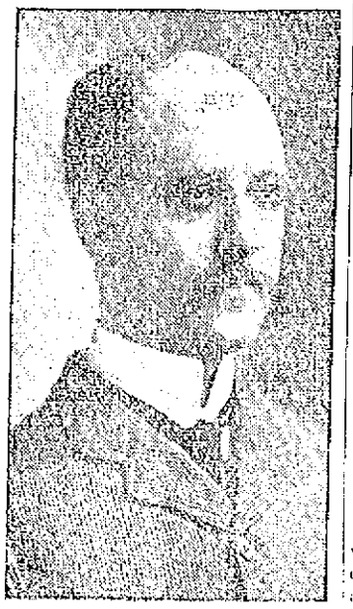

Any information which may be decided by societies participating in the parade will be cheerfully furnished by calling the K. of C. quarters. Communications were received from all the mills and factories notifying the officers that they would suspend operations on that day. The committee appointed to interview the merchants in regard to closing and decorating reported that the stores would close and most of them would decorate their buildings.

DR. SIMPSON RESIGNS

Gives Up His Position at the Lowell Hospital

The resignation of Dr. Charles E. Simpson as superintendent of the Lowell hospital, and the resignation of Mrs. Simpson, as matron, will be considered at the next meeting of the trustees of the Lowell Hospital association. The trustees will meet next Wednesday.

Dr. Simpson has been connected with

DR. CHARLES E. SIMPSON

the Lowell hospital for twenty-five years. Asked today if he had resigned to accept another position, similar or otherwise, Dr. Simpson said that he had not. He said that his position of state inspector of factories took up a great deal of his time and he decided to devote the rest of his time to general practice. It was stated today that Dr. Forster H. Smith and Mrs. Smith are candidates for the positions to be vacated by Dr. Simpson and Mrs. Simpson.

FOR NEW CHARTER

Two Ward Meetings on Tonight

The voters of ward three who are in favor of the new city charter will hold a meeting this evening at the board of trade rooms to discuss the proposition and make arrangements for a canvass of that ward in its behalf. The voters of ward nine will also meet tonight at Hamilton hall, Odd Fellows building, for a similar purpose. Both meetings will be held at 8 o'clock.

BOARD OF TRADE

Fall Meeting of Directors Wednesday Evening

The directors of the board of trade will meet on Wednesday evening at 6 o'clock at the New American hotel for a supper and business meeting, at which plans for the winter's work will be laid out.

The board of trade year book is out today and will be sent to the members or may be had by them by calling at the secretary's office. The book is one of the best both in appearance and in contents ever produced by the organization and is replete with interesting information regarding Lowell and is profusely illustrated. Copies will be sent to all the leading business and commercial organizations of the country.

JOHN H. MURPHY

TO BE TOASTMASTER AT K. OF C. BANQUET

At the banquet which will be the crowning feature of the local Columbus day celebration Thursday evening, the toastmaster will be Mr. John H. Murphy, the well known secretary of the Lowell board of trade, and a capable young man. Mr. Murphy for several years has filled the office of lecturer of the local council of the Knights of Columbus with great credit, and is at present secretary of the council's Columbus day committee.

The banquet promises to be a brilliant affair in every particular, and the attendance will be very large of knights and their ladies. The principal speaker, Rev. Fr. Gleeson, is famed far and wide for his eloquence, for at the state council, K. of C., banquet he brought his auditors to their feet after a most eloquent address.

POWER!

YOUR CHOICE

It is our experience that people prefer the sort of power which saves trouble rather than causes trouble.

For instance, in recent months, we have been called upon to replace 11 engines with motors.

In most of these cases, the discarded engine represents a considerable financial loss to its owner.

The best way to choose your power is not to experiment, but to investigate.

Mr. Gallagher tackled his new job today and his place is being filled, temporarily, by Louis N. Fanenf. Supt. Conley of the Chelmsford Street hospital said today that he would name Mr. Mahoney to succeed Mr. Gallagher.

THE CITY COUNCIL

To Act on Death of Messenger Pattee

Mayor Meehan has called special meetings of both branches of the city council for tonight to take action on the death of City Messenger Pattee. The mayor has addressed the following communication to the city council:

Lowell, Mass., Oct. 9, 1911.

To the City Council of the City of Lowell.

Gentlemen—I desire to call your attention to the death of Joseph E. Pattee, which occurred Sunday, Oct. 8th, 1911. Mr. Pattee has been city messenger for many years and has proved himself to be an honest, capable and courteous public servant.

Trusting you will take suitable action upon his death, I remain respectfully yours,

John F. Meehan, Mayor.

KILLED BY FREIGHT

Suit Against Boston & Maine in Superior Court

The case of Adda P. Upson, administratrix of the estate of the late Louis M. Upson of East Pepperell vs. the Boston & Maine railroad, which was opened in the superior court before Judge King on Friday and which took the entire session today, was resumed, the plaintiff's side presenting several witnesses. Louis M. Upson was assistant station agent at East Pepperell at the time of his death and among his duties was the work of taking the numbers of the freight cars in the East Pepperell yard. The plaintiff alleges that on the ninth day of February, 1909, while engaged in the work of taking the numbers of the cars, her husband was struck and killed by a freight running along a side track, through the negligence of the defendant company. Roland H. Sherman of Coakley & Sherman appears for the plaintiff, and Messrs. Trull & Wier of this city for the defendant.

STATE OFFICER CAREY

Inspector Arthur F. Roach of the state police has been removed from Lowell by order of Chief Jephanus H. Whitney. Mr. Roach has been here two years and during that time has maintained a residence in Worcester. He will be succeeded by Jeremiah Carey of Lawrence.

JEREMIAH CAREY, State Inspector

Mr. Carey is a native of Lawrence and has been connected with the state police for five years as building inspector. From his experience as inspector of buildings he is well qualified to fill the new position.

He is intimately acquainted with every detail of mill construction and also understands fully the operation of mill machinery, so that when he enters the mill he can tell at a glance just what is going on and if things are just as they should be. The changes in the inspecting force are being made for the purpose of reducing the size of the different districts, in order that the inspectors will not have so much territory to cover. They will therefore be able to do better work than they have done in the past. It is understoodd that Mr. Roach goes to Worcester.

CITY MESSENGER DEAD

Joseph E. Pattee Passed Away After a Long Illness

City Messenger Joseph E. Pattee is dead. He died yesterday at his home in Dutton street after a long and painful illness that he bore with remarkable fortitude. He was aged 58 years, 8 months and 14 days.

Mr. Pattee was one of the most popular city officials in Lowell. His genial, kindly manner won him many friends and a great many people will be pained to hear of his death. He made an ideal city messenger and he has been much missed at city hall.

THE LATE JOSEPH E. PATTEE.

He suffered cancer and the trouble was well developed before he started in to do battle with it. He did not know, of course, that it was cancer, but when he found out what it was he took it as philosophically as possible and, by advice of physicians, underwent an operation.

The operation was performed in Boston and was of such a serious nature that the doctors said Mr. Pattee would not have survived it but for the fact that his was a wonderful constitution. Mr. Pattee came home from the hospital several weeks ago and was a great sufferer up to the time of his death. He went to city hall two or three times after he returned from the hospital, but was unable to remain for any length of time.

Joseph E. Pattee was born at Thornton, N. H., and came to Lowell about 30 years ago. He was a friend to man and if all the cheering encouraging words he spoke to his fellowman could be repaid him now in death, he would have a eulogy unequalled in its eloquence. If the kindly sentiments he expressed in life could be converted into flowers for his grave, he would rest beneath a floral memorial loftier than the cover on city hall. Let us hope that after his day of sorrow and of pain

"The weary sun hath made a golden set,
And, by the bright track of his fiery car,
Gives signal of a goodly day tomorrow."

Mr. Pattee was a republican in politics. He became a candidate for representative in 1896, and was elected for the terms of 1897-98. As a legislator, he made many lasting friendships. About 11 years ago he was elected messenger at city hall. He remained at city hall until the development of his illness compelled him to relinquish his duties, though his successor was not named.

Mr. Pattee was a member of the Master Mechanics, the Martin Luthers and the Owls. He leaves a wife and one son, Birg Pattee, living in Lowell.

HOW SOCIETY WOMAN WARDS OFF WRINKLES

"Wrinkles are not strangers to me, but when I acquire such disfigurements I know how to lose them in a hurry." A well-known society matron confided this to me. I had wondered how she, with her strenuous social duties and late hours, could so completely ward off the usual marks of care and dissipation.

"I don't wear wrinkles in public, nor those horrid rings beneath the eyes," she continued, "since I've learned what plain, ordinary saxolite will do. When any of those hateful marks appear, I scrub to the drug store for an ounce of powdered saxolite and a half pint of witch hazel. I mix the two, bathe my face in the solution, and—that's the whole secret. I've never tried anything that works so miraculously. My chin is inclined to double; this trouble, too. I keep in check in the same way."—Emily Dean in Town Talk.

TARIFF BIG ISSUE

Governor Foss Says Their Must be Revision Downward

Governor Eugene N. Foss, in an interview with a representative of the New York World, published in that paper yesterday, stated that the main issue of the campaign this year will be revision of the tariff downward, "so as to reduce the cost of living to our own people and stimulate international trade."

That and his own record as governor, he says, will be the issues. He expects a big fight, but says he is going to win.

Blames Republicans

"Since 1907 there has been a continuous unrest. It has been due entirely to the republican party. Such downward revision as the democrats, with the help of progressive republicans, were able to get through congress the president vetoed. He vetoed the wool bill which gave partial relief from the extortion of a schedule he himself had declared indefensible. The present unrest and discontent is due solely to the republican party, which is controlled by corporate interests enjoying unrighteous protection.

"Our first duty is to revise the tariff, and if that is done properly there will not be so much occasion to litigate against the trusts. Take off unfair protection and competition will be restored. Force competition. That is the thing to do, better than anything else."

Competition Wanted

"Then, Governor, you do not believe that combinations are necessary to continue development?"

"Not at all; we want competition. It gives every man a fair chance. Competition is essential to progress; combination hampers it. Every time competition is restrained you are helping to create a monopoly, and if you have monopolies they will always control the government because the government can't control monopolies."

"Then you don't believe in the government fixing the prices of any commodities?"

"No; I do not believe in the government controlling prices. I believe in free and open competition, and the best ——— to get that is to do away with the unrighteous protection some of the trusts enjoy."

Fair Trader, Not a Free Trader

"What degree of protection do you advocate?"

"I believe in fair protection for American industries, protection based on the difference in cost of production only. I am a fair trader. I don't want anyone to think I am a free trader. I am not. I believe in reasonable and suitable protection which carries with it a large measure of reciprocity. I believe this country ought to recognize that other nations can furnish us some things to better advantage than we can produce them ourselves. It is to our advantage to buy of other nations, and in that way to put them in a position to buy of us rather for us to attempt to manufacture things in this country we are entirely unfitted to do. I believe in protection and in a system of reciprocity carefully adjusted within the lines of protection."

"You were greatly in favor of Canadian reciprocity?"

"Yes, I always have been, but I was not astonished to see Mr. Taft's reciprocity pact fall through. In my message to the legislature I said that the federal government should take steps looking toward better trade relations with our neighbor Canada, and that, as a proof of our earnestness, we should reduce our duties to a level with those of Canada and then seek further reciprocal trade relations not only with her, but with other countries, as the wisest and most efficient methods of securing wider markets for our products, and, of course, a reduction in the cost of living.

Not Handled Right

"One fault with the reciprocity pact that Canada has just turned down was that it was not based on the right lines. It was not found to be a failure. Mr. Taft did not approach the subject rightly, and his speech about Canada having come to the parting of the ways was unfortunate. Canada saw some sinister motive in our reaching out to her alone. She analyzed the proposition. She asked 'Where does England come in in this bill?' Her relations to England we ought to have recognized. Indeed, we cannot get in closer relations to Canada until we do recognize England. England has kept an open market for the states and the English market has been worth more to this country than all the protective tariffs we have ever had.

"The United States have been too selfish in their relations with the world. We are losing our trade with Germany and have lost most of our trade with South America. All our shipping is gone—practically all of it. We are responsible for all the high tariffs all over the world—responsible for every one of them—and other nations are doing to us what we have done to them. We have got to change this policy and revise our tariff downward so as to reduce the cost of living to our own people and stimulate international trade."

The Massachusetts Campaign

"Is that going to be the main issue here this fall?"

"Yes; although, of course, my record as governor will be an issue. It is purely a fight for the governorship; there are no congressmen up for election. The question is whether I am to be re-elected and backed up by a democratic council, democratic administrative officers and a democratic legislature. After all, the one great fundamental question not only in this state but in every state in the Union and the nation itself is whether the special interests or the people shall run the government.

"Of course the republicans are going to give us a big fight. Murray Crane is here to take command of their forces. Of course he will make a gumshoe campaign and try to frighten the people and make them believe everything is going to pieces. They will pour money into Massachusetts till the last ballot is cast. If they are defeated their whole machine—the model stand-pat machine of the country—will go to smash.

"Senator Lodge's re-election to the senate was secured in such a manner that he has lost all influence here. He is a discredited man in his own state. The policies he stands for are just as discredited. It will be a fight without quarter, because if Massachusetts—the stronghold of stand-pat republicanism and high protection—goes democratic this time think what the effect will be on the progressive movement all through the country.

"I am going to the people on my record, and I am going to place the blame for present conditions squarely where it belongs—on the heads of the republicans. I am going to win"

A JOLLY SURPRISE

Tendered Popular Belvidere Young Man

About thirty-five friends of Wm. J. Marren, the well known amateur comedian, gathered at the home of George F. O'Meara in Harrison street last night to bid him success on a long journey he is to take on the sea of matrimony. Mr. Wm. C. Harrington on the part of those present, in a few well chosen remarks, presented Mr. Marren a beautiful dining room set. Although wholly taken by surprise, Mr. Marren expressed his thanks and after a few pointed remarks to a few of those present, others will undoubtedly take the journey in the near future. Refreshments were served during the evening and the following musical program given: Piano solo, Henry Curry; songs by Frank McCartin, John Rogers, John Frawley; recitations by John H. Clark and Ed. Leonard; mandolin solos by William King and Walter Flaherty; parodies by William Marren. The feature of the musical program was a recitation by John A. Finnegan, leading man of the John Payne stock company, entitled "All the world is a stage." Henry Curry was the accompanist of the evening.

Quick Action Obtained

NOVEL TEST MADE WITH NEW PRODUCT.

Some interesting experiments took place at the Hall & Lyon drug store, Monday morning. At this store specialists are explaining to the public the purpose of the tonic "Tona Vita" now being introduced in Lowell.

The strain of living among modern conditions has produced nervous debility in a big percentage of the population in the larger towns of today. This fact has been recognized by the medical profession, both here and abroad, and some time ago a tonic was introduced in Europe to combat the disease. The medicine proved highly successful and a company has been formed to put a similar preparation in the American market.

The experiments were made to show the immediate effect of "Tona Vita" as the medicine is called, upon cases of nervous debility. The principal symptoms of debility, as explained by the specialists, are as follows: A continual dull, tired feeling, lack of ambition, irregular appetite, poor digestion, nervousness, mental depression and poor memory. One of the chief characteristics of a sufferer from nervous debility is a gloomy mental attitude and extreme timidity. The victim is constantly under the impression that some calamity is about to occur.

From among the callers the specialists selected twenty or so and after questioning them closely as to their symptoms gave them the correct amount of the medicine to be taken at a single dose. About five minutes later these people were questioned as to the effect of the medicine and all stated that relief had been almost immediate.

Some of the replies were remarkable. One elderly woman said: "I have been dead on my feet for ten years past. This is the first drop of medicine I have taken that has helped me at all. I felt like a different person two minutes after taking it."

A man about 30 said: "I am a bank clerk and my health has been poor for about two years. I have not known what is the matter with me exactly, but I have been little good to myself or anybody else as I just dragged myself around.

"I don't know whether this medicine will make me feel like myself for good, but this one dose has helped me more than all the stuff I have taken. It seemed to take right hold and put new life in me."

The specialists will be at the Hall & Lyons Drug Store, from 9 a. m. to 8 p. m. A free trial will be given to those who desire it. The nature of the tonic will be explained to all callers.

A SPECTACULAR FIRE

Destroyed Farm House in Lakeview Gardens

A spectacular fire, which illuminated the skies for miles around, broke out in an unoccupied and partly finished two-story wooden frame house in Lakeview gardens, near Lakeview park, shortly after seven o'clock Saturday night. When the fire was discovered the flames were breaking out through the roof and side of the house and before assistance could arrive the building was practically doomed. Every effort was made to save some portion of the building, but the flames spread faster than the men could work and it was only a short time before the building was reduced to ashes.

The cause of the fire is not known.

The first that anyone knew of the blaze, even those residing in the immediate vicinity, was when the shrieks of the siren whistle at the Beaver Brook mills in Collinsville were heard. One of the night employes saw the reflection in the sky and immediately sounded the whistle which attracted hundreds to the scene. A large number of residents of the town were attracted to the scene of the fire and a detachment of the Navy Yard fire company also responded. The fire had gained such headway that no attempt was made to stay the destruction of the building. The firemen with their chemicals kept the blaze from getting to the thickest of underbrush about the place.

The owner of the property is not definitely known other than that a Mr. Hall, living on Gorham street, this city, was the owner of the property.

It was learned that the owner has had the house under construction for the past three months and was attending to its erection himself during his spare time, which was mostly on Saturdays.

THE SWEDISH CHURCH

Close of 30th Anniversary Celebration

The closing exercises commemorative of the 30th anniversary of the Swedish Congregational church took place yesterday with three largely attended services.

Present at these services were four of the 15 original members of the church, Mr. and Mrs. Edward Anderson, Mrs. Alfred Swanson and Mrs. Carl Palm. Rev. Mr. Holmblad, now of Minneapolis, the first pastor of the church, was one of the principal speakers.

At the morning service the music was given by the male quartet of the Swedish M. E. church, the same which sang at the 10th anniversary of the Congregational church, 20 years ago. The quartet was made up of Messrs. Emil Widen, C. F. Pihl, Nels Dellgren and R. H. Anderson. There was preaching by Rev. Mr. Holmblad and Rev. A. P. Nelson, the latter of Wisconsin.

Special services were held at 3.30 o'clock in the afternoon. Rev. N. E. Johnson of Providence, R. I., was the principal speaker while music was furnished by the male quartet. At the conclusion of the services coffee was served in the vestry by the Ladies' Aid society of the church.

The banner crowd attended the evening services which were presided over by Rev. John Elmen, pastor of the church. Several addresses were made by former pastors and the chorus choir gave a musical program.

HOLY NAME SOCIETY

To Take Part in Columbus Day Parade

St. Michael's Holy Name society at its regular meeting last night voted to parade on Columbus day, Oct. 12. It will be necessary for the members to meet in the basement of the church on Thursday morning at 7 o'clock in order to be able to meet the other Holy Name societies at Monument square and proceed to St. Peter's church. President White announced that mass will be celebrated at St. Peter's church on Columbus day at 8.15. After mass the members will proceed to the South common and take part in the civic parade of the day. The membership committee will get to work in order that St. Michael's Holy Name society will live up to its past record in turning out in large numbers. John J. McCann was elected as aide to the chief marshal, representing St. Michael's Holy Name society.

The new miniature gas are light for house lighting. Call and see it at the Thompson Hardware Co.

AUTO IS WRECKED

Railroad Train Cut the Big Car in Two and Women Were Injured

BOSTON, Oct. 8.—Smashing through a wooden fence at the foot of Cumberland street, an automobile containing three women, at 7.15 last night plunged over a 12-foot embankment onto the tracks of the New York, New Haven & Hartford railroad before a moving train.

The women were hurled 10 yards from the wrecked automobile on the outbound express tracks a fraction of a second before a local thundered by on the first track, shearing the rear parts of the tonneau from the machine. Only one of the three women was severely injured.

Mrs. Frank Kenney of 1 Wellington street, wife of the soap manufacturer and proprietor of a Columbus avenue grocery store, was operating the car and escaped with lacerations of the hands and limbs and possibly a broken rib.

Miss Louise Marston was seriously shaken up and her right leg was lacerated and contused. The most seriously injured is Miss Katherine Sutherland of the Opera Chambers. She is at the City hospital in a semi-conscious condition, suffering from concussion of the brain and painful contusions on her hips. The surgeons fear a fracture of the skull.

The Back Bay police had been notified that the lights in the vicinity of Cumberland street were very dim but a few minutes before the accident occurred.

Made Mistake in Street

Mrs. Kenny thought she was turning into West Newton street, and threw on the high speed and cut out the muffler to climb the rise to the bridge across the New York, New Haven & Hartford railroad tracks. She turned her head to address her companions in the tonneau just as the automobile struck the wooden fence and crashed through the rotted boards as easily as if they were of pasteboard.

N. B. Whitcomb of 17 Cumberland street saw the automobile speed up as it swung in from Huntington avenue, and tried to intercept it. He said:

"I noticed the headlights were out just as the rear of the exhaust made me realize how fast the machine was going. I yelled, 'Hey! hey!' but the automobile flashed by me and I ran after it shouting. I was so excited I couldn't think of anything else to say. The street lights were dim, and I know the lady running the car couldn't possibly see the fence until it would be too late to stop.

Was Fearful Crash

"There was a sound like tearing cloth, only louder, and the machine went through the fence, leaving a big place like a doorway.

"I heard the women shriek and there was a fearful crash. An instant later a train rumbled past, and I heard a second crash. The train stopped and the train crew came running back with lanterns. A crowd was coming down all directions and men were jumping down from the broken place in the fence to the tracks to get the women. The automobile had been carried over the first track by its momentum and landed on the second track from the embankment. The women had been thrown across the next track and lay unconscious. We thought at first they must be dead. If the fence had been stout enough to stop the machine, it was going so fast that the women would have been thrown over or against it and surely killed."

Whitcomb with E. B. Hall and Thomas Lyte of 31 Cumberland street and B. Van Oot of 21 Cumberland street lifted the unconscious women up over the embankment and through the broken fence by means of a step ladder. In the meanwhile Leland Crosby, a traffic manager for the telephone company, had telephoned for police ambulances from Whitcomb's home, and in a few minutes Miss Marston and Miss Sutherland were on the way to the City hospital. Mrs Kenney refused to go to the hospital and called for her husband in a hysterical manner.

Mrs. Kenney Taken Home

Dr. Powers of Massachusetts avenue found she was not dangerously injured and permitted her to be taken home in an automobile brought by Mr. Kenney from the Hotel Plaza.

Mrs. Kenney has been operating an automobile for six years, her husband told a reporter last night, and is considered a careful driver. She had taken her companions for a little spin, and they had gone around by Falmouth street to call for a friend. The friend happened to be out and thus escaped participating in the accident.

"I thought I was turning down West Newton street," said Mrs. Kenney, "and didn't see the fence until I was almost on top of it. I managed to swing around a little, and we seemed to go through the fence sideways. I saw the train coming as we shot through the air in front of it; then there was a crash when the machine struck, and I knew no more until they were picking me up."

Traffic Held Up

Traffic on the New Haven railroad was held up for some time by the wrecked automobile. Pieces of fence and chunks of glass from the windshield were scattered about the landscape near the end of Cumberland street. A wrecking train hoisted the tangled mass left of what had been an automobile onto a flat car and it was hauled away about 9 o'clock.

The railroad men said it was a miracle that the accident had occurred at a moment when one of the fast expresses did not happen to be racing along one of the two middle tracks. If the machine had gone over the embankment a moment later it would have smashed through the roof of one of the passenger coaches of the local train, killing the three automobilists and very likely derailing and wrecking the train.

It is said by residents on Cumberland street that automobiles frequently come down there at high speed, and because of the poor lighting fail to see the fence until almost too late to stop.

It is not alone the convenience, or the freshness, or the crispness, or the unusual food-value, or the digestibility, or the cleanliness, or the price, that has made Uneeda Biscuit the National Soda Cracker.

It is the remarkable combination of all of these things.

If everyone, everywhere, knew how good they are, everyone, everywhere, would eat them—every day.

Sold by grocers in every city and town—Bought by people of all classes.

SAILED 200 MILES

Balloonists Made Trip in Eight Hours

PITTSFIELD, Oct. 8.—Wind-blown through the night under the beams of a full moon, two Massachusetts aeronauts, Jay R. Benton of Boston and William Van Sicet of this city, in the little balloon Boston, sailed down across Massachusetts, over Connecticut into New York, and thence across that state well into New Jersey yesterday morning, landing at Lakewood, N. J., shortly after 8 o'clock, having covered the 200 miles from Pittsfield in eight hours.

The trip was the longest ever made in the balloon Boston, which is of but 30,000 cubic feet capacity, and the most extensive trip made in or from New England the present year.

The aeronauts cut away from the Aero park at just midnight, and, rising to 2000 feet, found a favorable south current and floated away in the moonlight over the frost-tipped peaks of the Berkshires. Down over Lenox and then into Connecticut the balloon was driven before a light breeze which gradually swung the aeronauts to the west and into New York state. Soon the reflected moonlight sent up the gleam of water beneath, and the Hudson was seen stretching away to the south like a silver ribbon.

"Picked Up" by Steamer

Directly over the river an Albany-New York steamer sent its searchlight streaming into the heavens and "picked up" the balloon. For 20 minutes the powerful light was kept focussed on the aeronauts, which enabled them to read their instruments and exchange salutes with the ship pilot below. Yonkers was passed to the south as the Boston crossed the river and soon the lights of upper New York and then the Great White Way broke on the horizon as the balloon drifted farther southward.

Passing directly over Paterson, N. J., and then sailing down the New Jersey side of the Hudson, the airmen were treated to a magnificent panoramic view of the metropolis, the waters of the Hudson, the East river, the sound, and the far-reaching Atlantic gleaming like a silvered mirror, while the sky scrapers of the city cast deep shadows in the glare of the thousands of arc lights.

Climb 6000 Feet in Air

As the dawn broke and the sun came up, the Boston gradually mounted higher into the air until at 6000 feet a new current of wind was found which changed the path of the balloon to the eastward. It was but a short distance to the ocean, and with Long Branch showing up in the near distance the aeronauts valved their craft toward earth and came down easily in the middle of a wide road leading into the village of Sileam, just outside Lakewood.

Throughout the trip the mercury in the thermometer registered from 28 to 46 degrees, but traveling always with the wind and at the same velocity no discomfort was felt by the men in the basket. The balloon was packed up and sent to town in a farmer's wagon, and the Massachusetts men went to New York on their way back to Boston.

CONSPIRACY CHARGED

Pinkerton Detectives Are Accused by a Wealthy Canadian

MONTREAL, Oct. 9.—Because of the prominence of the persons involved and the unusual if not sensational nature of the testimony disclosed the keenest interest has been taken in Canada in the suit for $.500,000 which David Russell has been pressing all week with vigor against the Pinkerton Detective Agency, charging that the Pinkertons were in a conspiracy to put him in an American insane asylum, and, this failing, to locke him in a Canadian sanitarium. According to Russell, the scheme was to get him out of the way because he had threatened to sue the Pinkerton agency, believing that its officials had deprived him while in its employ.

Prominent People Named

In his efforts to prove this conspiracy Russell has produced evidence in which the names of many well known Canadian railroad and financial men and American lawyers and alienists have figured. Sir Donald Mann, president of the Canadian Northern and one of Canada's big railroad builders, has been mentioned by Russell as in some way connected with the case. J. N. Greenshields, well known in Canada, is being sued by Russell for $1,250,000 as the result of a land deal in Northwest Canada, and Russell swore on the stand that it was his belief that the conspiracy was conceived because of the land suit and he suspected that Greenshields was behind the plot. This Mr. Greenshields denied most positively.

In order to get him out of the way, Russell charges that men in his employ deserted him and that an attempt was made to induce members of his family to become parties to the scheme to have him declared insane.

Deputy Supt.

George Dougherty, then superintendent of the Pinkerton agency in New York, and now a deputy police commissioner, has been directly implicated by Russell. Serious charges have been made against Dr. T. R. Roddick, one of the best known of Montreal physicians, former dean of the McGill medical faculty, and ex-member of parliament from the St. Antoine division, Montreal. Two of Russell's witnesses have been Dr. Cocles F. MacDonald and Dr. William B. Pritchard, who were of the group of alienists employed by District Attorney Jerome in the Thaw trial. In substance their testimony was that they were informed that Russell was insane, but when they were acquainted with the particulars as to the manner in which his examination was to be conducted in a room in the Hotel Manhattan, New York city, they would have nothing to do with it.

There has been a great array of legal talent and the trial has excited much interest here and in England, to which reports of it have been cabled. Russell is represented by Donald Macmaster, who came from England for the trial, and T. Chase Casgrain and George A. Campbell. The Pinkertons have Aime Geoffrion and K. R. Macpherson. W. R. Shaughnessy, son of Sir Thomas Shaughnessy of the Canadian Pacific, also represented the Pinkertons in certain phases of the investigation.

Back of the present litigation there is a story that several years ago Sir Donald Mann and Sir William Mackenzie, Mann's associate in railroad building, were partners with Russell in a Canadian land deal. Greenshields is also said to have had something to do with the deal. Russell fell out with his associates or they with him, and as a result suits were threatened.

The total amount involved is said to have been $1,800,000, and Sir Donald Mann and Sir William Mackenzie, rather than get mixed up in court proceedings, paid Russell about $600,000. As to the participation of Mann and Mackenzie in the land deal there has been only a hint at the trial, but it is on record that Russell has a land suit for $1,250,000 against Greenshields.

Russell has been one of Canada's picturesque figures. He is now about 42, and 20 years ago he was a shipping clerk at St. John, N. B., at a salary of $15 a week. His fortune is now estimated at between $10,000,000 and $15,000,000. He has been a promoter essentially, but he also has acquired a good deal of his wealth in land and other forms of speculation.

HOW TO TREAT PIMPLES

It is truly remarkable how Cadum, the new remedy, causes pimples to disappear. Bad cases are frequently relieved in a week, and often in even less time. Cadum causes pimples to dry up and fall off, leaving the skin soft and smooth. Pimples are a disease of the skin, and not caused by bad blood, as many people suppose. Cadum acts upon these annoying and disfiguring blemishes because it can be applied direct to the trouble. Its remarkable soothing, antiseptic and healing powers relieve the itching at once. Cadum is just as efficacious in other skin troubles, such as blackheads, blotches, rash, eruptions, eczema, chafings, etc. 50c and 25c. Sold by all druggists.

PROPRIETOR GRADY

Entertained Clerks at the Outlet Store

Last week among the business changes in this city was that of the Outlet Dining Parlors. Mr. J. W. Grady, the new proprietor, took possession last week and Saturday evening after his business had been completed the place was turned into a royal festive quarter and Mr. Grady gave a send off to his employees and his colorful friends, and one of the best collations that could be prepared was bountifully spread and justice was done to the good things placed

J. W. GRADY.

before them, and if that first banquet is any criterion, Mr. Grady's success may be said to be assured for he certainly did provide a palatable spread. After all had partaken, chairs were pulled back and cigars lighted and an impromptu concert had been arranged and song and story and a social hour was pleasantly spent. Mr. Grady has a very popular and attractive establishment, even in its present condition, but if he carries out his intended changes there will be nothing this side of Boston that will come anywhere near it. He intends to utilize every inch of floor space, and later he intends to build an additional dining rooms, having already either leased or got consent of the owners of the property, and the results of his efforts may show an additional building of not less than five stories, where there will be a series of private dining rooms which will be beautifully arranged and where meals will be served. Everything is to be under the general supervision of Mr. Grady. He has a very worthy and able assistant manager in the person of Mr. John F. Powers, who hails from Boston and is a top notcher in dispensing carbonated drinks. Cleanliness, comfort and prompt attention are Mr. Grady's stronghold. Everything is kept scrupulously clean at all times. In the manufacture of his ice creams none but pure fruit flavors from the best quality of fruit will be used. With this skilled corps of assistants patrons will be served in the best possible manner. Mr. Grady has no limit of confidence and energy and with his ambition and desire to succeed it seems that he cannot but succeed.

The following people will have charge of this popular restaurant:

Miss Elizabeth Ready, candy table; Miss Mary Curry, first cashier; Miss Anna Donoghue, ice cream parlor; Miss Agnes Walsh, waitress; Miss May McCoy, first candy clerk; Marion G. Ready, bookkeeper for Mr. Grady; Miss Margaret Ready, second cashier; Miss Ollie Biscornet, tea room; E. Bederd, first cigar clerk; Edward Coulan, ice cream deliverer; Benjamin Brady, first helper; Walter Crompton, ice cream maker.

MAN SHOT HIMSELF

He Was Found Near His Parents' Graves

HOLYOKE, Oct. 9.—Alphonse Wespieser, aged 40, of 520 South Summer street, shot himself just under the left temple while seated at the graves of his parents in Calvary cemetery shortly after 5 o'clock yesterday afternoon, dying at 9 o'clock at City hospital as the result of his wound. He used a 32 calibre revolver.

The suicide is believed to have been due to despondency. Wespieser was discharged last Friday afternoon from a local mill, where he had been employed for some time. According to persons residing with Wespieser at the boarding house at 520 South Summer street he apparently slept as usual on Saturday night and showed no indication of suicidal purpose.

He left the boarding house at 3 o'clock yesterday afternoon and evidently went directly to the cemetery, climbed over a railing that surrounds the graves of his parents and seating himself pulled the trigger of a revolver.

Mr. and Mrs. Dennis Damon of 756 High street heard the shot and after a search discovered the body. The police were notified, and Sergeant William Blackmer was sent with the hospital ambulance. Dr. John C. Shine attended the wounded man and said at once that the wound was fatal.

Wespieser was unmarried and leaves two sisters, Catherine of Easthampton and Mrs. A. Grunwald of Springfield, and three brothers, Antone of Williamsett, Alfred of New Bedford and Charles of Lawrence.

OBSERVATORY BURNS

The Blaze Seen for 10 Miles or More

MELROSE, Oct. 9.- The burning of the observatory on Mt. Hood here, between 7 and 8 last evening, made a very spectacular blaze that was seen by residents on elevated ground in towns and cities for 10 or more miles around.

The observatory was a skeleton affair on a stout stone base, built for the benefit of the general public in the midst of a wooded area about seven years ago by John F. C. Slayton, ex-alderman in this city, who owns the territory on which the structure stood. It afforded one of the finest views to be had within many miles of Boston, being about 40 feet in height and standing on an elevation of more than 200 feet above sea level.

The police theory of the cause of the fire is that somebody dropped a lighted match or cigarette during the afternoon somewhere in the vicinity, and that the resulting fire smoldered for hours in the dry leaves and grass and finally reached the observatory itself.

A young man who visited the tower about 4 o'clock says, however, that there was a considerable quantity of hay on the steps and landings of the structure, which several boys were throwing about, and that about 20 feet away a fire was burning on a rock.

Quite a number of persons found their way with lanterns to the top of the hill to watch the fire, and the auto chemical from the house of Hose 3 went up, but was unable to accomplish any good when it reached there. The observatory cost about $1000.

The hill gets its name from Wendell Phillips Hood, a Grand Army veteran, now of Peabody, who formerly owned the property and who had an observatory there, which was replaced by the Slayton structure.

PURITY STRENGTH PERFECTION

A STRONG OPPOSITION

To the Reorganization of the American Tobacco Company

NEW YORK, Oct. 9.—Every branch of the tobacco industry will be represented in the opposition which the American Tobacco Co must face this week in striving to gain the approval of the United States circuit court for its plans of reorganization. After several delays the tobacco trust attorneys expected to submit their plan to the court this afternoon and the position of the independents will not be fully revealed until they find just what they must face.

The cigarette manufacturers are the latest recruits to the opposition which the independents say includes also the cigar manufacturers, leaf dealers, cigar box manufacturers and the organizations of the union and the non-union cigarmakers. Until the reorganization matter came definitely before the court the independents seemed uncertain of their position. They did not know just how much voice the circuit court judges would allow them in settling the question.

"We realize that it will not be enough merely to attack the plan proposed," said John W. Sterling, leader of the independent cigarette men. "We must be able to suggest something that is workable in its place. Whatever is done now, I understand, it will be under the protection of the court so that if a mistake is made we shall have legalized monopoly with no chance of relief, which will make matters worse than they are."

NEW SKIN ABSORBER IN GREAT DEMAND

(National Drug Review)

Since the discovery that mercolized wax possesses remarkable absorbent powers when applied to the skin, the demand for it as a complexion renewer has been tremendous. Druggists in every section report sales as far exceeding those of anything similar they have ever had on their shelves.

The mercolide in the wax, according to Prof. Hoffman, gently absorbs the devitalized cuticle, in minute particles, so that the user gradually loses her old, worn-out complexion, the more youthful under-skin taking its place. Cutaneous eruptions, blotches, moth patches, tan and freckles are of course removed at the same time. As mercolized wax is entirely harmless, and easy to use, women all over the country are purchasing and using it to quickly rejuvenate their complexions. The wax is applied to face, neck or hands the same as cold cream, allowed to remain over night, then washed off with warm water.

WORK RESUMED

IN THE FALL RIVER IRON WORKS MILLS

FALL RIVER, Oct. 9.—After a shut down of nine weeks, caused by a curtailment policy, 6000 employes of the Fall River Iron Works seven mills resumed work today. The works are controlled by M. C. D. Borden of New York, the largest manufacturer of print cloths in the world. Officials of the company state that the plant will run continuously until further notice. Resumption of work is expected to increase the amount of active machinery at the American Printing Co.'s works which are also controlled by Mr. Borden.

THE LOSS IS $8000

Music Hall Building in West Medway Burned

WEST MEDWAY, Oct. 9.—This town met with a serious loss yesterday morning when the Music Hall building, a three-story structure, was gutted by a fire that for a time threatened the whole section of the town. The building contained the postoffice, two stories, the headquarters of the local organizations of the I. O. O. F., the Rebekahs and the Grange, and a large amusement hall.

The sounding of a double alarm at 6.20 yesterday morning woke the entire population. Postmaster Woodman, one of the first to arrive at the scene, opened the postoffice and rescued the mail. The local fire department soon arrived, but seeing that the fire threatened the neighboring buildings, the chief sent in a call for the Medway department.

For nearly an hour seven streams of water were poured into the building, and gradually the progress of the blaze was checked. The loss is estimated at $8000 and is partially covered by insurance.

The King's Daughters

The morning service at the First Baptist church yesterday was devoted to the interest of the work of the King's Daughters. A quartet from the church rendered three selections and in the absence of a speaker who was assigned to address the members, Rev. Mr. Cummings spoke about the aims and accomplishments of the society. The pastor also began a series of talks to the children, the plan being each Sunday morning to devote five or ten minutes to the younger people.

The Sunday school is getting into regular swing again, having an attendance of 335.

Miss Ida Wilson has been engaged as contralto in the choir and will begin service next Sunday.

BEER WAS SEIZED

RAIDERS MET OPPOSITION AT A CHRISTENING PARTY

BALDWINSVILLE, Oct. 9.—Constables Robert M. Auringer of Baldwinsville and Thomas F. Sullivan of Otter River, assisted by Elisha Brown and George T. Lovewell of the Liquor committee and William E. Keeper, raided the home and meat market of Ignacy Mickiewicz on Fisher street yesterday afternoon, where a christening with about 50 people in attendance was in progress.

After removing two kegs of beer and two quarts of whisky from the house, one of the women in the party appeared outside with a meat cleaver and attempted to knock the bung out of one keg, while another woman, armed with an ax, started to knock the head out of the other, it is claimed.

The officers decided to get more aid in order to properly handle the situation, and secured Alanson R. Paine, Geo. A. Carkin and Arthur Bickford of Baldwinsville and also telephoned Chief Shay of Gardner, who responded with Officers Moran, Burns and Wuxlax.

When the Gardner officers arrived the raiders all entered the building together and after a scrimmage, in which the furniture was broken, a stove knocked over and dishes broken, what was left of the wet goods was seized and two members of the christening party, whom the officers say took a leading part in the mixup, were arrested and taken to the Gardner lockup.

STRUCK BY CAR

BOSTON MAN IS NOT EXPECTED TO LIVE

HOLYOKE, Oct. 9.—William Joyce, said to be a Boston magazine employe, is at City hospital with a fractured skull and other injuries, from which he may not recover, as the result of being struck by an electric car on Dwight street at midnight.

Joyce boarded a car, an open one, from the wrong side and before he could climb under the bar a car on the other track struck him and knocked him to the ground.

Joyce was visiting in Holyoke and the authorities have been able to learn but little about him.

HEAD-ON COLLISION

One Engineer Reported to be Missing

ROCHESTER, N. H., Oct. 9.—A head-on collision between two freight trains on the Worcester, Nashua & Portland division of the Boston & Maine railroad took place between this city and Epping today. No one was injured but it was reported after the wreck that the engineer of one of the trains was missing.

Both locomotives were practically demolished in the crash and both trains were tied up. The cause of the accident will be determined by an official investigation.

BIG CARNIVAL

WAS OPENED IN CAMBRIDGE THIS MORNING

CAMBRIDGE, Oct. 9.—This city today began the most eventful industrial and commercial week in its history. The Cambridge Industrial carnival was ushered in with clear weather and a smiling sun and indications point to a successful affair. The city is gayly decorated in honor of the occasion and among the attractions arranged are band concerts, vaudeville and an old time fair.

When Nerves Need Fixing

"THERE'S A REASON"

LOOK BACK TO THE CAUSE, for one can never get well until the cause of sickness is removed.

Perhaps it's the drug, caffeine, grown in coffee.

That thing which makes the heart of the coffee drinker flutter and fail; also slowly breaks down the nerves in many people (not all).

If you are one of the many affected by coffee, and really want to get well, suppose you leave off the drink which has caused the trouble, and take on well-made

POSTUM

for the morning beverage. In a few days you may discover why—

"THERE'S A REASON"

WORRY
A Sure Starter for Ill Health

Useless worrying (a form of nervousness) is indirectly the result (through the nerves) of improper feeding. A furniture man of Memphis says:

"About a year ago I was afflicted with nervous spells, would worry so over trivial things.

"I went to consult one of the best physicians in Memphis and he asked, among many questions, if I drank coffee.

"His advice was: 'Go to some provision store and get a box of Postum, drink it in place of coffee and as you are directed to your cook to a great extent try and get out in the open air as much as possible.' I followed his instructions regarding the Postum.

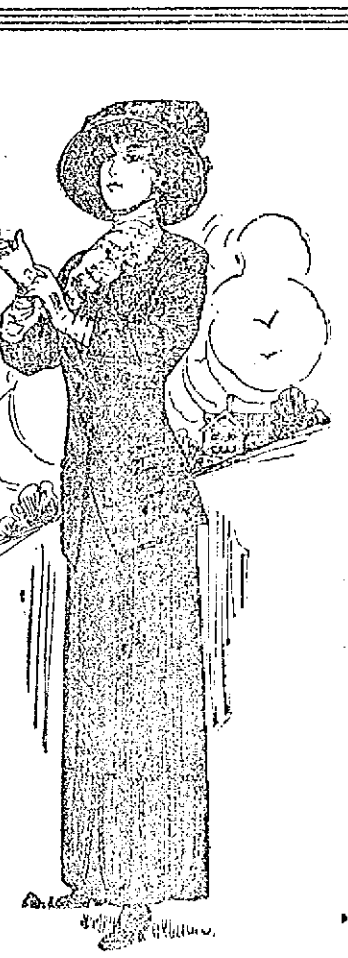

"At that time my weight was 142 and I was taking all kinds of drugs and medicines to brace me up but all failed. Today I weigh 165 and all of my old troubles are gone, and all the credit is due to having followed this wise physician's advice and cut off the coffee and using Postum in its place.

"I now consider my health perfect and that it is all due to my having used Postum in place of coffee." Name given by Postum Co., Battle Creek, Mich.

There's a reason for quitting the drug-drink coffee, and there's a reason for drinking Postum. Trial ten days proves them all.

NUMBER OF OFFENDERS

Made Their Appearance in Police Court Today

Lowell is fast losing its reputation as a spotless town for there was a large attendance of offenders in police court this morning. Besides persons who were in for more serious offenses there were 17 drunken offenders. There were 33 arrested for drunkenness from Saturday afternoon up to early this morning, but of that number Probation Officer Slattery released 16.

Stole Pair of Shoes

Joseph Rancour pleaded guilty to a complaint charging him with the larceny of a pair of shoes and one dollar in money, the property of Elzear Vezina, and was sentenced to four months in jail. According to the testimony offered Vezina was under the influence of liquor on the 27th of September and while lying on his door steps in Lakeview avenue, Rancour stole the shoes which were on his feet and a dollar bill out of his pocket.

He reported the matter to the police and stated that he suspected Rancour. Yesterday Rancour was arrested for drunkenness by Patrolman Breault and Vezina was called to the police station to see if he could identify the shoes. When Vezina saw the shoes he claimed they were his and when asked why he was so positive he mentioned a peculiar number which was on the lining inside and when the shoes were examined the number he mentioned was there.

Threatened His Wife

Mrs. Alice Boisvert, a pretty young woman, the bride of but five weeks, had her husband, George, before the court this morning on a complaint charging him with having threatened her. She told a very pitiful story and after Judge Hadley had listened to her he found the husband guilty and ordered him to furnish bonds in the sum of $100 to keep the peace for six months.

Mrs. Boisvert said she was married five weeks ago and that a week ago Saturday she found her husband going to Providence with another woman. She followed him to the depot and just as he was about to board the train she grabbed him by the coat and pleaded with him not to leave her. He told her to take her hands off his clothing or he would strike her and when she refused to do so he struck her and said he would kill her, she testified.

Continued For a Month

The case of Peter Frazer, charged with neglecting three of his minor children, was continued for a month in order to see if he would do better.

Disturbing the Peace

Joseph Picanso and Frank Silva were charged with drunkenness and disturbing the peace and after being found guilty each was ordered to pay a fine of $10. Patrolman Garrity testified that while he was passing through Elm street about 9 o'clock last night his attention was attracted to a crowd which had gathered in the street and, upon making an investigation he found the defendants striking blows at each other. He placed them under arrest and sent them to the police station.

Denied Being Drunk

Jacob Smith was charged with being drunk, but he denied the allegation, claiming that he had had but one drink of whiskey and that quantity would not make him drunk. Patrolman O'Brien testified to having arrested the defendant in Williams street about 4 o'clock yesterday afternoon. The arresting officer said that Smith was staggering drunk and Inspector Grady of the liquor squad corroborated his testimony.

Had Many Names

When James Rooney was arrested for drunkenness yesterday he gave the name of Sweeney. This morning before the opening of court he said his true name is Rooney. He pleaded guilty to having been drunk and a fine of $6 was imposed.

Raised a Rumpus

Maurice O'Connell was raising a rumpus at his home yesterday and his wife sent for Patrolman Considine and the latter placed the man under arrest. In court this morning O'Connell was charged with being drunk and after he had entered a plea of guilty he was sentenced to three months in jail.

Sunday Drunks

John A. Sullivan, Alexander Morin, Joseph Thibodeau and Eugene Flaherty, Sunday drunks, were found guilty and each ordered to pay a fine of $5.

Other Drunks

John J. Mahoney, Michael F. O'Neil, Henry L. Noyes and Edward Clark, second offenders, were fined $8 each.

Joseph Buckley's condition was such that Judge Hadley decided a little vacation would benefit him and accordingly he sentenced Barkley to ten days in jail.

John Joseph and Maxziani pleaded guilty to being drunk. Fines of $3 were imposed in each case.

CATHOLIC CHURCHES

An Addition to be Made to Grotto on Orphanage Grounds

The Catholic people of this city will soon have what is seen in many cities in Canada, and what is seldom seen in this country, and that is a calvary, which is soon to be erected on top of the grotto of Our Lady of Lourdes on the grounds of the French-American orphanage in Pawtucket street.

The work on this special piece will be started in a couple of weeks and it is expected will be finished by the early part of spring. It will be constructed of cement and according to plans will be an artistic monument.

The cement to be used in the entire construction of this calvary was donated by a parishioner as a token to the Blessed Virgin for a favor obtained recently through her intercession.

The grotto is now about 40 feet high, and the calvary will be built over it and will be 15 feet in height. A cement stair will run from the ground to the top, where statues of Christ on a cross, the Virgin, Mary Magdelene and St. John will be placed. At each step of the stair will be placed a station of the cross, these stations to be of a very artistic design. The first station has been given by a parishioner, and many others have signified their intention of donating the other stations.

The shrine is the scene of many large gatherings, for every afternoon of the week as well as Sundays, hundreds of people may be seen kneeling in prayer in the pews opposite the grotto.

This calvary will be a great improvement to the place and there is no doubt that the news of its construction will be well received by all the Catholics of the city, as the place is opened to all.

Sacred Heart Holy Name

Yesterday was quarterly communion day for the men's Holy Name society of the Sacred Heart church. At a mass celebrated at 7.30, Fully 300 men assisted and received holy communion. After their thanksgiving they repaired to their quarters in the new school where a plentiful and appetizing breakfast was served. Cigars were afterwards enjoyed while several members of the society were called upon to display their entertaining talent in the form of a musical and literary program. The principal feature of this was a carefully prepared and thought-provoking paper on the "History of the Textile Industry" by Mr. James Maguire. While the lecturer dealt chiefly with the past progress of this industry he also outlined the advances which the near future must bring and pointed out the grand opportunities which await those who are equipped with a scientific knowledge of textile work. He counselled the younger element among his audience to consider this excellent field of endeavor when choosing their life's work. Throughout the program Broderick's orchestra interspersed sweet music.

At the executive meeting over which the vice president, Mr. Thomas Green, presided, reports were received and accepted from the various standing committees. That in charge of the Holy Name reunion table reported great progress and announced a minstrel show and sociable for Hallowe'en. It was unanimously voted to accept the invitation of the Knights of Columbus to participate in the Columbus day parade and a committee was appointed to make all necessary arrangements.

The meeting was adjourned until Tuesday evening, October 10th at 7.30 The same evening the Holy Rosary, the Children of Mary, and the Holy Angels sodalities will also meet in the new school to further plans for the parish reunion to be held Thanksgiving week. On Friday evening next the members of the Sacred Heart table will assemble for the same purpose.

St. Peter's Church

Rev. W. George Mullin was the celebrant of the parish mass at St. Peter's church and Rev. Daniel J. Heffernan preached a most instructive sermon on the gospel of the day. Before the sermon, Rev. Fr. Heffernan in announcing the solemn high mass for Columbus day, spoke briefly on the significance of the occasion, and what it meant to Catholics. He wanted to see every Catholic man in the parish Holy Name society in line on that day, for mankind in general even at this late day, he said, should honor the memory of the great Columbus, for his daring exploits in discovering this western world. The reverend gentleman referred to the fact of the day being set apart as a legal holiday in Massachusetts and exhorted the members of the Knights of Columbus and the Holy Name society to turn out to a man and assist in making the day's celebration a creditable one.

The Holy Name society met last evening and discussed the plans for the parade. It is confidently expected that the representation from the organization will be very large. Rev. John F. Burns, spiritual director is in charge of the arrangements, assisted by President Lyons and the other officers.

The special sermon at St. Peter's Columbus day will be very impressive and a feature will be the musical program. The regular choir will be augmented, while the vested choir will also assist. Rev. James H. Quinn, O. M. I., who is to deliver the sermon, is an eloquent pulpit orator, who is well known in Lowell. He is a brother of Justice Joseph F. Quinn of the superior court.

Immaculate Conception Church

At the Immaculate Conception church next Sunday, the full arrangements for the opening of the church will be announced from the pulpit. The church which is now a beautiful temple will be reopened on Sunday, Oct. 20, and a distinguished clergyman has been engaged to preach the sermon on this special occasion.

A great deal of satisfaction is being felt by the parishioners of the Immaculate Conception church over the recent changes of the Sunday school. Now the children who attend the public schools are being taught by the sisters, and this change was very much approved by the mothers of these little ones.

CROWD OF 40,000

Expected at New York-Athletics Game

NEW YORK, Oct. 9.—Special policemen are standing guard today at the offices of the National League baseball club and turned away thousands of seekers of tickets for the championship series beginning next Saturday. Within the offices, Secretary Gray and half a dozen assistants waded feverishly through the flood of orders. The tickets, it is said, will be distributed tomorrow and Wednesday. Five thousand persons, it is estimated, have been turned away from the office. In each case the ticket-seeker was told to mail his order with a certified check or money order accompanying it. No money has been taken in at the headquarters nor will there be until Thursday when the advance sale of remaining seats begins. Secretary Gray said today that he thought about 40,000 persons would squeeze into the new stadium at the Polo grounds next Saturday. The men are in tip top condition, he said.

MILK LAW VIOLATION

Is the Charge Against a Dracut Milk Dealer

The case of Frank L. Peabody, a milk dealer of Dracut, charged with having violated the milk laws by selling water to milk, which was heard Saturday morning in police court was resumed before Judge Hadley this morning at the conclusion of the disposition of routine matters.

The case is one of the most important relative to alleged violations of the milk law that has been brought to the attention of the local court for a long time. The government's contention appears to be that Mr. Peabody, after receiving the samples of milk from the collector of the milk inspection department forced the corks and seals out of the bottles and substituted a higher grade of milk and that he had Chemist Bennett of the high school analyze it and that the samples were different from those analyzed by Milk Inspector Master. In order to prove its contention the government brought an apparatus into court and showed that it was possible to remove the cork and seal and recork and reseal the bottle.

Fred Stowell, a driver for Mr. Peabody, who was on the stand when court adjourned Saturday, was recalled when the case was resumed shortly after 11 o'clock this morning.

In answer to questions asked by counsel for the defense the witness said that the samples of milk were taken from his wagon between 4 and 4.30 o'clock. It was dark at the time, he said, and he placed the samples in a little box in the cart. When he got back to Mr. Peabody's barn he put the samples in an ice chest.

"I have not touched the samples since then," said witness, "neither have I seen them. I was present when the milk was put in the cooler in the barn in the morning." The witness then explained the method of mixing the milk in the cooler.

On the morning in question witness said twenty-three cans of milk were put in the cooler and he took five cans out of the bottom and put them through the top. He said that the milk remained in the cooler about 15 minutes.

In conclusion the witness said he never saw any water added to the milk.

Thomas Legasse

Thomas Legasse, a milkman, said he filled and washed his bottles in Mr. Peabody's place. Witness purchases his milk from another dealer and takes it to Mr. Peabody's place and uses the latter's mixer. He pays Mr. Peabody for the use of the stable and apparatus. He never saw Mr. Stowell add water to the milk.

Oscar Bornais, who works for Mr. Legasse said that his work consisted of going into the country to get the milk for his employer. Never saw water put in the milk at Mr. Peabody's.

Rosario Vezina, who was in the employ of Mr. Peabody, said his duties consisted of collecting milk in Dracut and taking it to Peabody's barn. Witness never saw any water added to the milk.

Mr. Bennett Testifies

William W. Bennett, teacher of chemistry at the Lowell high school was called. Witness took a four years' course at Harvard university and made a specialty of chemistry. He said that Mr. Peabody called on him with samples of milk and he analyzed three of the samples on September 25. He analyzed three other samples on Oct. 2. Two samples he did not analyze because he said Inspector Master had told him that the object of sending was all right.

Mr. Bennett then went on to testify as to his method of making the analysis. He used the refractory test for the purpose of finding presence or absence of water.

He then told the result of the analyses.

He said he found no water in the milk and thought it was a good average milk.

He said that he found traces of sodium carbonate in all the samples, and when questioned said that sodium carbonate might be used for washing bottles.

On cross examination witness was questioned relative to the state of the corks in the bottles and the manner in which they were sealed and said he could not swear that if a sealed bottle was placed in boiling water that it would be possible to blow the cork out of the head of the bottle.

With the permission of the court Inspector Master brought forth a tripod for stand on which he placed a can containing water. Then by using a gasoline torch to get the water to a certain high temperature a sealed bottle was placed in the water and the flame again directed against the can and in a short time the wax around the edge of the bottle started to melt and the cork started to leave the bottle. Two experiments were made and then the bottles were recorked and sealed by a slight pressure of the thumbs.

John A. Osgood testified that he is a member of the board of health and that at a certain recent meeting said he had not been in the milk room five or six times in a year.

Agent Bates and Inspector O'Hare of the board of health were to be called as witnesses but when it was admitted that they would testify to substantially the same as did Mr. Osgood, they were excused.

The testimony was concluded shortly before one o'clock and arguments started. In the afternoon session the defendant was found guilty and a fine of $50 was imposed. He appealed.

Barbour Prefers Jail to Paying a Fine

BOSTON, Oct. 9.—"I will go to jail before I will pay a fine," said William Barbour of New York, one of the directors of the United Shoe Machinery Co. shortly after pleading not guilty in the circuit court today to an indictment similar to that returned against his co-directors charging violations of the anti-trust law. Mr. Barbour furnished the $10,000 bail.

MATRIMONIAL

The marriage of Mr. Henri Boissonneault and Miss Eva Goulet was performed this morning at St. Jean Baptiste church. The ceremony took place at a nuptial mass celebrated at 7 o'clock by Rev. Fr. Amyot, O. M. I., and the attendance in church was very large. The young couple were attended by Messrs. Moise Boissonneault and Joseph Goulet.

GEOFFROY—GAGNON

Mr. Maxime Geoffroy and Miss Flora Gagnon were united in the bonds of matrimony this morning, the ceremony being performed at St. Joseph's church. The officiating clergyman was Rev. Fr. Desmarais, O. M. I., and the knot was tied at a nuptial mass celebrated at 7 o'clock. The witnesses were Messrs. Maxime Geoffroy and Francois Gagnon.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1910 was

15,976

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before me, January 2, 1911. J. JOSEPH HENNESSY, Notary Public.

Considerable interest centers in the visit to this city of the son of the great novelist, Charles Dickens, who visited our city in 1841. Lowell has grown rapidly since then, and we assume the son will be more favorably impressed with the Lowell of today than was his father with the younger city.

If Senator Stephenson were a democrat we should hear a great hullabaloo from the republican press over the fact that he spent $107,973 for campaign expenses, mostly for beer and whiskey. After all, if United States senators debauch the electorate in this way we do not see where the advantage of their popular election would come.

GREAT FEAT OF WIRELESS

A great victory for wireless telegraphy was scored when a message was sent from San Francisco to Japan, a distance of 6000 miles. This exceeds the wildest assumption ever dreamed of for the possibilities of Marconi's discovery. In the near future we shall be able not only to send an electric message around the world but through the world. It was considered a wonderful feat when America spoke to Europe without wires, but this wireless conversation between Frisco and Japan doubles the distance and is the greatest victory yet for the wireless.

UNDERTAKER, MORTICIAN OR MORTUIST

The annual convention of Embalmers at Syracuse, N. Y., recently started a movement to call the undertakers "morticians" instead of their present title. What has happened to bring the "undertakers" into disrepute, or we may ask when did it become necessary to have anybody "mortice" the dead? This is the meaning the word, judging from its form, would convey just as "optician" means one skilled in the science of opties. Surely it would not be correct to speak of a "mortician" as one skilled in the science of death or of dying. If the learned professors who favored the change considered the derivative customs of the English language, they would suggest "mortuist" or "mortuary" instead of "mortician."

GIVE US PURE DRINKING WATER

The people of Lowell have had their patience sorely tried by the quality of the city water during the last four or five months. The city water supply had been reputed as of first class quality until something happened to make it the worst water we have ever had. What that something is there has been no satisfactory explanation, and it seems that there is no attempt to provide a remedy. The water board, it seems, is depending upon the winter weather to purify the supply, although what this result will be there is no certainty. The people of Lowell have had a great deal of damage done to their laundered clothes, many garments having been spoiled completely by the muddy and rusty water. What effect the drinking of this rust and mud will have upon the public health can never be really known, but it certainly must be very injurious.

Those who have meters in their homes will find their water bills very much higher this season on account of the large amount that must be run off to get rid of even a part of the rust and mud. That is, however, one of the least important impositions upon the public. In view of the millions of dollars that have been invested in the water works is it not fair to ask why the department does not make some effort to give the city better water than is supplied at the present time? It is reported that the wells ran short on account of the drought. How long will it take to meet this emergency assuming that it is true? Does the water board suppose the people of Lowell are satisfied to go on drinking this impure stuff indefinitely, or does it imagine that the people want to wait until the new reservoir be built? The situation calls for prompt and definite action with a view to giving the city pure water. There has been enough money expended to provide a thoroughly pure and abundant supply that will be permanent, not periodical. We want a water supply that will be good in summer as well as in winter, and it is about time the water board set about giving it to us without further delay.

THE WAR

The Italian flag now floats over Tripoli, and the province hereafter will be governed by Italy instead of by the unspeakable Turk. There is reason to believe that in conquering Tripoli, Italy did not seek any wanton destruction of life and poverty. No friend of humanity will sympathize with Turkey in the blow thus inflicted upon her by Italy. She has long deserved a castigation even worse than this. When she massacred the Armenians and the Albanians and many defenceless peoples the appeals of the civilized world were in vain. It is only a just retribution now that her appeals to England and other powers for intervention are in vain.

Italy did not enter into the war without provocation. For years the Italians in Tripoli have been abused and even persecuted by the Mohammedans in control. It would be a good thing if some of the other powers now proceeded to capture additional territory, and thus drive Turkey out of Europe for all time. Turkey has been the stumbling block of European civilization for centuries, and it is time that she were driven back into Asia.

It is quite likely that in the near future the European powers will redistribute the territory in the north of Africa so that each may have a more liberal portion than at present. The colonization and development of northern Africa will receive greater attention from the European powers in the near future than it has done in the immediate past. The present war between Italy and Turkey has created fresh interest in Africa, and the powers will eagerly watch every opportunity for taking a slice of Turkey's territory after the example set by Italy.

Austria and Germany are not pleased with the manner in which Italy has set out to grab territory in North Africa. Germany wanted to do a little grabbing in that region quite recently but was promptly estopped by France. If Germany interferes there will be others. England will have something to say also, and hence it is not likely that any intervention will come except from a concert of the great powers.

The local hunters who haven't started in already are preparing for their annual visits to Maine and other places where the game abound. A party of Lowell men went to New Brunswick last week.

It is strange to see the number of gray squirrels that roam around the Lowell cemetery in Lawrence street. Yesterday I was walking by the burying ground, when down a tree came a gray squirrel of the finest specimen. The little creature placed itself right opposite me on the other side of the fence and, looking me straight in the eyes, seemed to dare me with its looks. I stood there for some time watching the cute little animal, thinking how cruel it must be to injure it, and during my thoughts the squirrel kept nibbling at acorns found here and there on the lawn. After a while the squirrel hopped away to a nearby pool of water and after quenching its thirst, it climbed up a tree and disappeared with a chirp as though bidding me goodby.

CITY RESTAURANTS

The restaurants are run all wrong.
They all are, everywhere!
Wherever you go, you're sure to find
The same old bill of fare,
While, heaven knows, the wretch who must
Each day his meals repeat
At restaurants forever yearns
For something new to eat!

That bill of fare! How well we know
Its steaks, its chops, its fish!
To casual diners, it might seem,
It's all that man could wish;
But seen, alas! day after day,
How soon its offerings pall,
Until—poor wretch!—you find you have
No appetite at all.

The table-girl, resignedly,
Stands at your side, and waits
For you to choose, where all repels
And naught desire creates.
In all the columns you run through,
There's nothing to awake
Your interest, and so you say:
"Oh, bring a fat-edge steak!"

Some day I'll start a restaurant,
And run it just my way.
I'll have six novelties put on
The bill of fare each day;
And people then will only have
To tell the waiter which—
Which they will do with joy and glee,
And I shall soon be rich!

What's the use?
It only makes you sad, and sore, and glum and mad.
What's the use? There's no excuse."

EDITORIAL COMMENT

Brockton Enterprise: Newspapermen of the New England states have promised, at a banquet held by the committee on publicity of the Boston chamber of commerce, to co-operate in the development of New England. It was interesting to have them take this ground, even though in most cases it would scarcely seem necessary. If there is any body of men who can be trusted to work for the development of their town or city or state or country it is the men who make the newspapers. They know perfectly well that with the growth of the place in which they may be interested their own business is pretty sure to grow, so they have a selfish as well as sentimental interest in boosting their parts of the world. Sometimes some experts at the game can direct newspaper publicity towards a channel in which it may have greater effectiveness than might otherwise be the case, but it is hard to improve upon the enthusiasm for and honest desire to help his own locality which is ever present with any newspaper man worth his salt.

THE CARDINAL AND THE RECALL

Springfield Republican: The utterances of the venerable Cardinal Gibbons in regard to the popular election of senators, the referendum and the recall of judges were only what might be expected. No one questions his staunch Americanism, but it is inevitable that on issues where there is room for an honest difference of opinion among serious students of our national affairs, the weight of his influence should cast on the conservative side. The great church of which he is an honored prelate represents authority imposed upon the masses by a wonderfully compact and well-organized hierarchy. There is no place in the Roman Catholic church for the popular election or the recall of cardinals, or for the referendum of papal bulls to a popular vote. It would be extraordinary indeed if one who so long made part of this superb organization should be in sympathy with such radical measures.

THE MAYORS IN CONFERENCE

Atlanta Georgian: Atlanta is entertaining this week an organization that is second to none as a constructive force in American life.

The meeting of the American League of Municipalities, bringing together as it does the heads of the principal cities of the United States, is indeed a notable gathering to which Atlanta takes pride in extending the offices of hospitality.

It has been said that the one conspicuous failure of our government has been in the conduct of our cities. Whatever degree of truth this statement contained in the past, it is fast vanishing now and the "House of Mayors" is in the front rank of the influences that are bringing about the change.

STEPHENSON'S BOODLE

Johnstown Democrat: Senator Isaac Stephenson and all his former campaign managers, in their testimony before the senatorial committee investigating the charge that a large part of the $107,793 which Stephenson spent to secure his election was corruptly used, assert that every time Stephenson put money out it was always with the caution, "Keep within the law." All of which may be true. But isn't the fact that Stephenson paid out $107,793 to secure a senatorial job worth much less than half that amount in itself a serious indictment against the man? For why should he willingly part with such a large sum of money unless he had some ulterior motive? And since Senator Stephenson's record shows that he has served none but the System since his election is it not a reasonable assumption that in spending a good-sized fortune to secure his election he had in view lending aid to a legislative program that would insure special favors for business interests, in which he was vitally concerned?

MR. I. L. SHOWEM GOES SHOPPING WITH HIS WIFE

SCENE FROM "OVER NIGHT" AT THE LOWELL OPERA HOUSE

LOWELL OPERA HOUSE

"Over Night," the reigning comedy success which has just finished a two months' run at the Shubert, will be the attraction at the Opera House, tonight, Tuesday and Wednesday. From first to last, "Over Night" is brimful and running over with fun. It is fun of the natural, easy, simple and laughable kind, and it comes at the most unexpected moment. Running all through the piece are ludicrous situations, which appeal at once to an audience while the company is so strong both in individual work and "team work" as to make the most of every bit of comedy and of every situation.

"A GIRL OF THE MOUNTAINS"

At the Opera House on Thursday, Oct. 12, O. E. Wee, offers Lem B. Parker's new version of his four act society drama, "A Girl of The Mountains," a play with plenty of thrills and a good love story. "A Girl of the Mountains," his best play, has a good acting company presenting it, and is well staged. Popular prices will prevail for both matinee and night.

"NAUGHTY MARIETTA"

The new comic opera entitled "Naughty Marietta" which will be seen here at the Opera House for an engagement of two performances, Saturday, Oct. 14, direct from its six months' run at the New York Theatre, New York, was declared by critics to be the best light opera on the New York stage last season. The opera will be presented by Oscar Hammerstein whose name is a guarantee of the best that money and brains can provide.

"THE SPENDTHRIFT"

Among the recommendations made for souvenirs during the long run of "The Spendthrift" in New York were handkerchiefs. Frederic Thompson, the producer of this big drama received a number of letters on this subject and in each the writer pointed out that dainty bits of lace would be very acceptable to the fair patrons of the theatre. "The Spendthrift" is just full of thrills and tears.

KEITH'S LOWELL THEATRE

And the mystery that reigned over Babylon is the mystery that is reigning yet, for thanks to the unlimited possibilities of vaudeville the public of Lowell this week is enabled to witness a stage delusion quite as mystifying as was the original Babylonian mystery of the handwriting on the wall at Belshazzar's feast. This great act which is the headliner at Keith's this week is called "Menetekel" which gives the Babylonian suggestion and consists of a little ink covered tennis ball that writes all over a perpendicular blackboard at the behest of the audience with no visible propelling power. Cook and Lorenz, the millionaire tramps present and act that bubbles over with wit and humor. Les Marquardes are just from the Follies-Bergeres with their sensational dance act that has been the New York hit. Bud and Nellie Helm are two of the cleverest kiddos in comedy playlet. Dare Brothers are well vaudeville. Carolyn Franklyn-William Wilson and Co. present a delightful comedy playlet. Dare Brothers are well named, for they are the most daring of all latter day acrobats. Radient Rodie Furman is a most sprightly talking and singing comedienne. The box office is open every day from 9.30 a. m. to 9.30 p. m. and seats may be ordered in advance by telephone, 28.

HATHAWAY THEATRE

The many friends and admirers of popular Jack Chagnon, the well known actor, will turn out in large numbers at the Hathaway this week to welcome him back, for he makes his reappearance today in the leading role in "Texas," a most interesting comedy drama of western life. Mr. Chagnon played here some few years ago with the original Huntington-DeDeyn stock company at the Academy with such favorites as Messrs. Huntington and DeDeyn, Frederick Burt, Isabelle Fletcher, Mabelle Estelle and Dan Sullivan. He comes here from St. Louis, where he recently closed a most successful season in summer stock. Mr. Chagnon is an educated and talented actor, possessed of a most agreeable stage presence. "Texas" is being presented under the personal direction of Mr. Donald Meek, who will also be seen in a good comedy role, while the other members of the company will be seen to good advantage. "Texas" is quite similar in theme to that great novel, "The Virginian." It will be adequately costumed and elaborately staged, great attention and care having been given to the scenery and accessories. The public is reminded that on account of Thursday being a holiday the advance demand for seats for the performances on that day has opened briskly and those who intend to witness a holiday performance should secure their seats at once. Seats are now on sale for all of this week's performances and may be ordered by telephone, 811.

Next week the Donald Meek stock company will present that great story of the battle of capital and labor, "The Lost Paradise."

MERRIMACK SQUARE THEATRE

Once more the management of the Merrimack Square theatre displays rare judgment in selecting the bill for the coming week. It is well balanced in every particular, the principal asset a program, more especially a vaudeville program, must possess to give general satisfaction. There will be sufficient comedy to meet the demands of those who are partial to it, there will be an intensely interesting dramatic offering and the musical repertoire for the week should win favor. Then there's the photo-plays that contribute their share in the success of the presentation.

The Wilton brothers, who are to be featured this week, are said to be in a class by themselves as comedy bar artists. One of the brothers goes through some of the funniest stunts on the bars ever seen, while the other brother accomplishes feats that are not duplicated by anyone. The fact that these performers have played at all of the biggest and best vaudeville houses in the country, should be assurance enough that their act is first class. And while you are pondering on this particular fact don't fail to remember the very reasonable prices asked at the Merrimack Square theatre.

In the "Watches of the Night," a one-act play that has had much success in various parts of the east, will be given by Our Stock Company Mr. Kendal Weston, whose endeavors in all of his offerings of the past have been those of a finished artist, will receive the assistance of two new members this week. Miss Constance Jackson, who has played with several well-known actresses and actors in this country, will take the place of Miss Phelps who concluded her Lowell engagement Saturday night. Miss Jackson is said to be especially pleasing in dramatic presentations. Mr. Stanley Wood is another new member. Both will make their initial appearance this afternoon and this evening.

Billy Ray, the musical Chink, Leslie Laurie and Quinn, singing and talking comedians and May Monahan, soloist, will contribute their share to the excellent program. The photo-plays include the following: "The Mate of the John M., a sea drama, "The Saving Sign" and "The Idle Roast." Remember that something is always going on at this playhouse from 1 until 10.30 o'clock daily. Try the supper hour matinee.

ACADEMY OF MUSIC

Heading the bill for the first three days is the Comedy Italian Trio, the members of which are first class singers and dancers. Mae Blossom, a dainty little miss, is bound to please with her songs and character changes. Stuart and Hall have a way all their own in their comedy and singing. These with four reels of the latest pictures complete the show.

THEATRE VOYONS

There are few plays that have had so wide a popularity among all classes of playgoers as has Kate Claxton's version of "The Two Orphans," and today, tomorrow and Wednesday the Theatre Voyons offers to the lovers of this most excellent dramatic production an opportunity to witness their favorite drama under entirely new conditions. That a standard drama can be presented in motion pictures is a well established fact and that it can be as well done as in the spoken dramatic form is admitted by all who are familiar with modern conditions. This production of "The Two Orphans" has been in preparation for months and was staged under the personal direction of Kate Claxton in the immense Selig studio in Chicago. Every detail which went to make a success of the original production has been reproduced in the pictures, the big cast, the splendid scenic settings, the exquisite costumes, and above all the strong dramatic climaxes which hold and stir the feelings of the onlooker.

COLONIAL THEATRE

At the Colonial for Monday and Tuesday the management is giving a grand production of Faust in two reels with appropriate music. The pictures were obtained at great cost and are said to be one of the finest productions of the photo-play art. Besides Faust other photo-plays will be shown at each performance. The price of admission has not been increased.

ALLEGED GAMBLERS

WERE INJURED DURING A RAID AT HAVERHILL

HAVERHILL, Oct. 9.—John Carpenter is at the Hale hospital suffering from a sprained left wrist and a badly cut face which he sustained, the police say, in jumping from a second story window of Independence Hall on Emerson street early yesterday morning when a gambling raid was made.

Shortly after the raid he called at an all-night restaurant on Merrimac street and, as he was injured, the police ambulance was called and he was removed to the hospital. Another unknown man called after the raid upon a physician on Emerson street to have injuries dressed and the physician advised him to go to the hospital, but he has not since been heard from.

The police say that the two men in leaping from the second-story window to the ground 15 feet below struck an iron fence and thus received their injuries.

The raid was made by Capt. Hill and Patrolman Broderick, eight men being found in one room and being arrested for illegal gaming. They gave their names as Joseph P. Connor, James R. Nevins, Charles S. McDonald, Frank Davis, James W. Kelly, George F. White, Harold E. Baxter and William Hindley.

REV. DR. KELEHER

To Speak on European Trip Before M. T. I.

A very interesting and largely attended meeting of the Mathew Temperance Institute was held yesterday morning in the rooms of the institute in Dutton street with President J. J. Gallagher in the chair. The society made final preparations for the smoke talk and lecture to be held in the institute quarters tomorrow evening, Oct. 10th, for the members and their friends. Among the principal speakers will be Hon. John T. Shea, president of the C. T. A. U. of Boston, and the spiritual director of the society, Rev. Dr. Daniel J. Keleher, who will give an address on his recent trip abroad. An elaborate musical program has been selected for the occasion. Refreshments will be served during the evening.

Rev. Dr. Keleher is an interesting speaker, and his talk on his travels will doubtless be well worth hearing. Since his appointment he has taken a great interest in the workings of the institute, and hence the plans for giving him a cordial reception.

Hon. John T. Shea's theme will be the life and works of Rev. Theobald Mathew, to whose memory October 10th is dedicated. President Shea has always scored a big hit in his addresses before the Mathews, in years gone by.

The society very kindly voted the free use of the hall for a discussion of the proposed new charter, either pro or con.

THE FINAL DAY

FOR FILING ERRORS IN THE MAINE ELECTION

AUGUSTA, Me., Oct. 9.—This is the final day on which may be filed errors in official returns of the special election held last month on teh question of repealing Maine's constitutional prohibition of the manufacture and sale of intoxicating liquors. This is in accordance with an order passed by the governor and council on Sept. 18th at the 20-day period during which applications for corrected returns may be filed shall expire on Oct. 9.

The governor and council will meet in special session this afternoon at 4 o'clock for the purpose of holding a hearing on applications for such corrections. Applications were received for a meeting on Sept. 18 for corrections of the official returns from Limestone, Westfield, Matinacus and Athens which, if allowed, would change the majority of 26 in favor of repeal to one of about 700 against repeal.

The town records of the first three places were offered in evidence at that time in support of the request for corrections. The town clerk of Matinicus plantation was not present but is expected to be here today.

No hint has been given as to the probable time when the governor and council will decide whether to accept the corrected returns but it is well understood there will be no unnecessary delay in declaring the result. The question may be decided by that body tonight or tomorrow or they may take further time to consider it. In any event the result of the official tabulation is likely to be known soon. Whether or not it will determine the "yes-no" problem remains to be seen.

A BOLD BURGLARY

Six Men Stole a Safe and Downed Officer

NEW YORK, Oct. 9.—Six burglars early today carried a small safe from one of the United Cigar Stores Co stands into the basement and attempted to blow it open.

As a result one man is dead. The burglars were preparing to dynamite the safe in the cellar when one of the tenants of the building heard them. Two policemen tried to stalk the safe-blowers through doors at opposite ends of the cellar but one of them dropped his club and the man ran, knocking the policeman over in their wild rush. They were fleeing over the fences when the other patrolmen opened fire and shot one of the fugitives through the heart.

The dead burglar has not been identified and one of his companions who was captured refused to talk. The others got away.

THE SUGAR TRUST

Meriden Citizens Ask Pres. Taft to Order an Investigation

MERIDEN, Conn., Oct. 9.—The high price of sugar is given as the reason why a number of Meriden citizens today addressed an appeal to President Taft to investigate the sugar trust. Among those who signed the letter to the president were Dr. E. W. Smith, a classmate at Yale of President Taft, and William Howes, who has been prominent in local civic reforms. The letter in part follows:

"We wish to call your attention to the fact that since adjournment of congress the price of sugar has nearly doubled. No reports have appeared in the public press of any shortage in the sugar crop and no good reason has been given for the increase in price. But the sugar trust has been to great expense for defense of charges of grafting and for heavy fines for being caught with the goods and we believe the price of sugar has been advanced to cover these expenses.

"The jail is the place to punish the trust pirates. Fines have no more effect than shots blown from a bean-blower."

THE GLIDDEN TOUR

Seventy-Eight Cars to Take Part in the Great Contest

NEW YORK, Oct. 9.—Seventy-eight cars of many makes and patterns, assembled from almost every state along the Atlantic seaboard and as far west as Indiana, will point their noses south next Saturday, and stream out of New York City in a winding file for Jacksonville, 1451 miles away, in the Glidden Tour of 1911. October 2n, twelve days later, is the day set for the finish. During the trip the motors will take the dust of nine states, top the Blue Ridge and follow close to the trail of the storm centre during the days of the Civil war.

The National Highway, whose path they will keep to the land of flowers winds through New Jersey, cuts an arc in southeastern Pennsylvania to Gettysburg and runs in a broad line through Maryland to the Shenandoah valley of Virginia. Through the broad, rich valley it leads past sandstone and marble monuments telling of the days of Stonewall Jackson and Sheridan. In the rolling country, the trail skirts the scenes of a score of battles, to the broad acres of North Carolina tobacco plantations, South Carolina, and the cotton fields of Georgia. The tourists will cross the Empire State of the South from north to south, chugging through Atlanta on their way. Forty miles, or thereabouts, across the Florida line, the journey will end at Jacksonville. Probably no long stretch of road in America, say the officials, can offer greater diversity of scenery and climate and better roadway in its entirety.

P. J. Walker of San Francisco, president of the California State Automobile association, who has been selected referee; S. M. Butler, chairman of the contest board of the American Automobile association, and other officials in charge of the tour will give entrants their final word of instruction on the night before the start. Mr. Walker, an ardent advocate for good roads, will be accompanied on the tour by Mrs. Walker. A. B. Whiting of this city and a 1912 Cunningham will be the pacemaker.

In addition to the massive trophy for which the contestants will strive, the chamber of commerce and citizens of Anderson, S. C., have donated a handsome silver punch bowl to be awarded to the individual owner whose car ends the tour with the least number of penalties. The Glidden trophy goes to the team of three cars finishing with the best team score, but any owner of an automobile had an opportunity to enter his car in the contest for the Anderson cup.

Thirty-nine inches long and fifteen inches high, the Anderson cup—or punch bowl—is chased and engraved in patterns emblematic of the south. The foot is round and the body oval, two modelled figures of victory holding it aloft at each end. Cotton blossoms and palmetto leaves wind in a silver wreath about the sides, while winged automobile wheels stand upright beneath the figures at the bottom and between them at the top. The great seal of the state of South Carolina is stamped in the metal beside an engraving of the Anderson county court house on one side, while upon the reverse is engraved:

"Perpetual-Automobile Touring Trophy, presented to the American Automobile Association by the citizens of Anderson, S. C. 1911." Beneath the inscription there appears the official emblem of the A. A. A.

Six or more non-contesting cars will take the road with the contestants. Three of these represent three-wheeled vehicles. There will be two official cars and a brass car, while the baggage and supplies of the tourists will be carried by motor trucks.

SEVEN YEARS OF MISERY

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl." —Mrs. DENA BETHUNE, Sikeston, Mo.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound.

It is more widely and successfully used than any other remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other

NAVY YARD PLAN

Sec'y Meyers to Introduce English System

WASHINGTON, Oct. 9.—Casting aside all scientific systems of navy yard management advocated in this country, because he believes they involve too much detail and require serious changes in the civil service rules of employment, Sec. of the Navy Meyer will import from England the system of management in use by Vickers, Limited, at the Barrow-in-Furness Ship Engine and Ordnance Works.

This, in substance, was officially announced at the navy department yesterday. The secretary studied this system during his recent inspection of European naval works.

In effect, the new system will provide for the centralization of work, and allows the commandant of a yard to know just what is being done on a particular job without having to seek the information from others having the work under their charge.

"The system includes central planning and routing and the cutting out of waste," it was stated yesterday at the navy department when inquiry was made in regard to the working of the system.

Sec. Meyer states that with the inauguration of the new system he has not in contemplation any changes in organization in the yards.

That the system may be thoroughly instituted, Capts. A. B. Willits and E. Theiss, U. S. N., have been sent to England to study the details of the Vickers system. These officers left last Thursday and will be gone about a month.

Following their return it is believed the work of establishing the new system will be begun in earnest. In the opinion of Sec. Meyer great benefit will be derived by both the government and the workmen from the new system.

MONTARA WAS SLAIN

He Took Leading Part In Insurrection in Lower California

SAN DIEGO, Cal., Oct. 9.—Rumor Montara, who commanded a troop in the insurrection in lower California, was escorted to the international boundary line yesterday and stabbed, then rushed across into Mexico. There, it is reported, he was at once slain. Reports tonight to this city by a former member of Guerrero's band that operated in lower California said that two Mexicans engaged Montara in a knife duel on the border and, taking him off his guard, wounded him and carried him across the line. It is said there was a large reward for Montara because of his connection with the recent revolt.

GIRLS SAVED BY NUNS

They Dragged Children From a Burning Building

WHEELING, W. Va., Oct. 9.—Fire early yesterday destroyed the Home of the Good Shepherd at Edgington Lake, two miles east of this city, and drove 250 scantily clad girls and nuns into the streets. The blaze is supposed to have been caused by a spark of incense used in benediction in the chapel Saturday evening. The loss will exceed $50,000, and is covered by insurance.

The nuns performed many feats of heroism and daring in rushing through the dormitories arousing the girls, and, in many instances, carrying and dragging the young ones to safety. Two of the nuns were seriously ill yesterday from the nervous excitement of their work in rescuing their charges.

The home is a haven for girls ranging in age from five years upward. The structure was of wood and the flames spread with almost incredible rapidity, so that the children, when aroused from their sleep, had barely time to escape.

When the fire was discovered, all the girls were asleep in the dormitories. The only ones awake were the watchmen and the nuns in charge of the dormitories.

As soon as the fire was seen, the signal for the fire drill was given. Under the nuns in charge, the girls in each dormitory formed in line. High on the hill, the building was swept by a strong wind from the west, and it was seen in a few minutes that the structure was doomed.

Water Supply Short

Its position, so far above the rest of the city, made it impossible to get anywhere near an adequate supply of water. So swift was the spread of the flames, fanned by the wind, that the girls had only time to snatch up blankets from their beds, in which to wrap themselves, as the nuns ordered them to file out.

The priests attached to the institution aided in marshaling the girls through the corridors and down the broad main stairway in good order.

Nearly all of them were safely out of the building and standing in line on the lawn when it was found that several of the girls from the upper dormitories had been cut off by flames, beginning to sweep the stairway.

They reached the windows on the second floor in safety. They were told not to jump until the priests and watchmen got some blankets, which they held for the girls to jump into. None of them was seriously hurt by the leap.

For a time it was thought several of the girls had perished, but a search of the ruins and a count of the inmates showed that all had been saved. All were given food and clothing and shelter in homes in the vicinity of the fire.

TWO WERE INJURED

Electric Car Crashed Into an Elm Tree

QUINCY, Oct. 9. Fifty passengers on an East Weymouth bound electric car from this city were badly shaken up yesterday afternoon when the rear trucks of the car jumped the track about 100 feet north of the turnout on Washington street, between River and North streets. Two of the passengers were injured so that they had to have medical treatment. They were Roy Elms of Mattapan and George Guston of 124 Upland road, this city.

Elms had several cuts about the face and forehead, caused by flying glass, which required several stitches. Guston was suffering from nervous shock when brought into the office of Dr. Willis J. Middleton, almost in front of where the car stopped.

The car left Quincy Centre at 3.05 in charge of Conductor John Esson and Motorman Charles Battison. There is a short curve after leaving River street and the first thing the passengers or crew knew the rear truck left the rails from some unknown cause and started across the street, forcing the forward end into an elm tree at the side of the road.

Glass went flying in pieces and passengers were thrown in all directions. Motorman Battison stuck to his post when he suddenly saw the front end of the car making for the tree. He tried to put on the emergency brakes but before he could do much he was covered with a shower of broken glass. When the car came to a stop it was across the street at right angles with the track.

The passengers boarded another car and continued on their way to East Weymouth.

PRINCETON IN LEAD

In the Number of Points Scored

NEW YORK, Oct. 9.—College football teams are getting right down to business as the big games of the season loom up ahead. The football student is already comparing scores for the first few games and the total places Princeton at the head of the "Big Six" in the eastern colleges, with Yale second, Harvard third, Pennsylvania fourth, Dartmouth fifth and Cornell sixth. The first three have so far kept their goal line from being crossed but the last three have each three points against them from field goals.

The big scores that Princeton has run up have been made against teams that are rated somewhat weaker than those that have faced Yale, while Harvard has played only two games to three for her rivals.

The total points of the larger colleges to date are as follows:

Princeton 105 to 0; Yale 69 to 0; Harvard 23 to 0; Pennsylvania 27 to 3, Dartmouth 75 to 3; Cornell 56 to 3.

HENRY M. WHITNEY

Says That He Will Not Vote for Foss

BOSTON, Oct. 9.—Henry M. Whitney, democratic candidate for governor in 1907 and supporter of Gov. Foss in all of the latter's campaigns for public office, announced last night that he would support the republican ticket this year, because of the importance of the tariff issue.

It has been known for weeks by members of the republican state committee and several close friends of Gov. Foss that Mr. Whitney contemplated voting the republican ticket this year. Rumors have been current for some time that Mr. Whitney and the governor were not in harmony on several matters.

Last winter, when the governor began his speaking crusade against the re-election of Senator Henry Cabot Lodge, Mr. Whitney disapproved it and wrote a letter to the senior senator telling him so, expressing the hope also that he would be reelected.

It is believed that the prominence of George Fred Williams as a political adviser of the governor may have had something to do with Mr. Whitney's anti-Foss attitude. Mr. Williams has more than once read Mr. Whitney out of the party and when he was a candidate for the democratic nomination five years ago George Fred jumped into the campaign and lent all his influence to Gen. Bartlett's candidacy.

In the concluding paragraphs of his statement Mr. Whitney takes a parting shot at his old political opponent, George Fred Williams, saying:

"And as to other matters of public policy, such as the initiative, referendum and recall, I am in agreement with Cardinal Gibbons, the distinguished and venerable prelate, rather than with George Fred Williams, the Bryanite."

RESISTED ARREST

Woman Aviator Injured in Fight With Police

NEW YORK, Oct. 9.—Three deputy sheriffs undertook to preserve the peace of the Sabbath by preventing Earle L. Ovington and Miss Mathilde Moisant from making flights at the Nassau Boulevard field yesterday.

The official meet of the Aero Club of New York had been declared off, following a supreme court decision that aviation meets at which admissions were charged were violations of the Sunday law, but the aviators decided to make flights on their own account. Miss Moisant planned to fly from the field to her hangar, at Mineola. Ovington decided to start on his proposed flight to the Pacific coast. He planned to make Governors Island yesterday, and he carried a package of letters, having been delegated by Postmaster-General Hitchcock as the first transcontinental aerial mail carrier.

As Miss Moisant landed on the property of her brother, Alfred Moisant, the sheriffs attempted to arrest her. Mr. Moisant declared that his sister was hurrying to her automobile when the deputies clubbed the chauffeur because he refused to allow them to take the woman from the car. Miss Moisant had a wrist cut and was much bruised and shaken up.

It developed that the deputies had no warrants. When Justice Gittins was appealed to at Hempstead he refused to issue them.

Ovington was forced to come down near Belmont Park when his monoplane nearly capsized in a squall. He affected a safe landing, however, and since the deputies had lost track of him, he escaped the embarrassment which befell Miss Moisant.

Many well-known Long Island residents who followed the course of the young woman in automobiles attempted to assist her in her difficulty with the officers, and received blows from the deputy's clubs for their pains.

Y. M. C. A. WORKERS

EXPECT TO INCREASE THEIR MEMBERSHIP TO 1000 BY OCT. 16.

A meeting of the members of the 20 teams who are actively working to increase the membership roll of the Y. M. C. A. to 1000 will be held tonight in the association's rooms in Hurd street and there is keen interest in the returns which will be made by the various captains.

The big clock used in the building fund campaign indicates the present membership of the association, 637 and it is expected that by Oct. 16, it will have increased to 1000.

The banquet which will be held at 6.30 tonight, will be served by Mrs. Cyrus Barton. There will be a special speaker, and other extra features, but the chief interest will center in the reports from the captains of the teams. The large chart on the wall will record not only the number of new members to the credit of each team, but also the number of points according to the rules of the game.

An attractive circular presenting the activities of the association has been issued, and application blanks for membership and printed instructions regarding the campaign will be given to the workers on the teams tonight, as well as new lists of possible members for the selections of names by the captains of the various teams.

Reports of the teams' doings will be given on Oct. 9, 11, 13 and 16.

SOCIAL FORUM

Interesting Series Opened at Grace Church

At the Grace Universalist church last evening the first of a series of Sunday evening meetings designated as "The Social Forum" was held with a large and interested audience. The speaker of the evening was Rev. Frederick Perkins, D. D., of Lynn and his subject was, "The Church and Socialism." His talk was in the nature of an introduction to the course, which will consider some of the leading problems now before the American public. At each meeting opportunity will be given for questions to be asked and answered.

The speaker next Sunday night will be Mr. Henry Sterling of Boston, on "Trades Unionism." October 23, Mrs. Glendower Evans will speak on "The Working Woman;" and October 29, Professor Charles Zueblin on "Religion of the Common Life." Another series, for November, will be announced later.

In opening his address, Dr. Perkins first expressed his pleasure that the Rev. Mr. Skinner has begun his pastorate in this industrial community, by showing such a clear grasp of one of the real problems that awaits us all in these days of social transition.

Middlesex North Agricultural Society

The annual meeting of the Middlesex North Agricultural Society will be held at 10 o'clock, Tuesday forenoon, October 10, at the Odd Fellows building, Bridge street, Lowell.

1. To hear and act upon the annual report of the treasurer.
2. To elect officers for the ensuing year.
3. To transact any other business that may come before the meeting.

A RECORD RUSH

For Tickets for Coming World Series

NEW YORK, Oct. 9.—Despite the repeated announcements that only applications forwarded by mail would be given attention, hundreds of enthusiasts, bubbling over with a desire to see one or more games of the series for the world's baseball championship besieged the offices of the New York National league club Saturday.

A six-foot special policeman, who stood guard, turned everybody back.

Inside the offices a heavy clerical force kept at work assorting the mail orders which kept pouring in.

"The greatest rush on record for baseball tickets" is what those familiar with the history of world's series advance sales call it.

Many schemes to secure especial attentions to their requests for pasteboards were tried by various applicants. Messenger boys by the score came to the offices with letters enclosing applications and money, but they were all turned away. One enterprising individual enclosed his application in a huge packing box marked "valuable" and sent it to the offices of the club by express. The letter was taken out of the box and tossed into a pile of thousands of applications waiting to be sorted by the small army of clerks.

It was a day of rest for the Giants who will resume active work today, opening their final league series of the year with a game in Brooklyn.

BIG SALE AT PHILADELPHIA

PHILADELPHIA, Oct. 9.—Every reserved seat for the first two games in this city for the world's championship has already been disposed of, and the management at Shibe park was kept busily engaged all day returning checks and money orders to unsuccessful applicants.

All out of town requests for tickets were refused, as there were not enough to supply the demands of local patrons of the club. The seating capacity of Shibe park, grandstand and bleachers, is close to 25,000. It is expected that nearly 35,000 persons will witness the first game, as standing room in the enclosure will accommodate between 5000 and 10,000 spectators.

A BIG SEASON

American League Clubs All Made Money

CHICAGO, Oct. 9.—With final games played on eastern fields Saturday, the closing games of the 1911 American league season were played in the West Sunday, Detroit losing twice to St. Louis and Chicago winning from Cleveland.

As in case of all preceding pennant races, interest never lagged until the final game was played.

President B. B. Johnson of the American league issued the following statement last night: "The close of the American league season marks the best year this organization has ever known. From a financial standpoint the year has been a success for each of the eight clubs.

"The race itself naturally developed a few surprises and disappointments. The victory of the Philadelphia Athletics under Manager Mack was to be expected. Mack built up a team for this race that even exceeded his 1910 champions, but nevertheless, the attack of the Detroit club for the greater part of the season made the race far from a one-club affair. A victory such as I am anticipating for Philadelphia in the world's series will be a crowning achievement for the American league."

GOVERNOR CLARKE

To Have a Conference With President Taft

SEATTLE, Wash., Oct. 9.—Governor Walter E. Clarke of Alaska has arrived from the north to confer with President Taft. The meeting with the president is the sole object of the governor's visit and as soon as the conference is concluded he will return to Alaska.

Gov. Clarke said that Secretary Fisher's visit to the territory must result in great good and that the people of Alaska hoped that in addition to settling the coal land problem the next session of congress would result in the enactment of other legislation needed by the territory. Among the Alaskan matters deserving the attention of congress, Mr. Clarke said, were quarantine regulations and a sanity code, adequate banking laws and road improvements.

TEXTILE BOYS WON

The First Game Resulted in a Victory

The Textile school football team defeated the Middlesex school eleven at Concord Saturday by a score of 6 to 0. At the very start of the game the Textile school boys brought the ball to Concord's 20-yard line, where it was fumbled and recovered by their opponents. After making first down, Middlesex was forced to punt to Textile, who rushed it to the 30-yard line before the period ended.

In the second period, Lowell worked some clever forward passes, two being good for 20 yards each. On an exchange of punts, Lamonte got the ball and made the best run of the game, going 50 yards by clever dodging before being downed. On several end runs by Frost and line plunges by Lamonte, the ball was rushed to the two-yard line but here Middlesex strengthened and Textile was held for downs.

The third period ended with the ball in Lowell's possession on the 25-yard line. In the next period, after two downs and no gain, Lamonte hit the line for 10 yards. Here the ball was fumbled and Textile was also penalized for off-side play. Lamonte, however, recovered the ball on a fumble by Middlesex and Schofield made two yards and Lamonte 10 more, on two downs. Hamilton was good for another three and then Lamonte was sent over the line for a touchdown. Schofield kicked the goal, making the score 6 to 0.

MEMBERS OF THE NY NATIONAL LEAGUE TEAM

PLAYERS OF THE NEW YORK NATIONALS, WHICH MEET ATHLETICS IN WORLD'S CHAMPIONSHIP SERIES

NEW YORK, Oct. 9.—The New York Nationals are tuned up and ready for the world's championship baseball series, in which they meet the Philadelphia Athletics. It is estimated that at least 50,000 persons will be unable to get seats at these matches owing to the great demand for them. The members of the Giants are shown as follows in the photo: Left to right, top row—Snodgrass, Herzog, Doyle, Ames, Devlin, Wilson, Wilhoe, Crandall, McGraw, Devore; bottom row—Matheson, Hartley, Robinson, Paulette, Murray, Fletcher, Dooker, Latham, Merkle, Meyers, Marquard, Faust. The first game of the series will be played Saturday, Oct. 14, at New York.

SERIOUSLY INJURED

McDONALD'S MOTOR CYCLE COLLIDED WITH AN AUTO

FITCHBURG, Oct. 9.—While attempting to pass each other at the corner of Elm and Academy streets yesterday afternoon, Daniel McDonald, a lineman for the New England Telephone and Telegraph company, mounted on a motor cycle, and an automobile driven by Daniel Withington, came together and McDonald was seriously injured.

McDonald was carrying a telephone battery box on his shoulder at the time of the accident and fell from his machine on to the box with great force. Three ribs on his left side was broken and it is feared that the left lung is punctured.

The injured man was picked up and rushed in the automobile to the office of a physician. He was taken to his home on Merris street later, where it was said last night he is in a serious condition. The automobile struck a tree before it could be stopped by the operator and the headlight was bent and one of the mud guards damaged.

METHODIST CONFERENCE

TORONTO, Ontario, Oct. 9.—The Ecumenical Methodist conference continued its work today by considering under numerous sub-divisions the general topic, "The study of the scriptures." The addresses included in the proceedings of the morning session, of which Rev. J. Scott Lidgitt, editor of the Methodist Times, was president, were those on "Permanent results of biblical criticism," by Prof. Speer of the Primitive Methodist church, "Verification of Revelation in Experience;" by V. A. Godby of the Methodist church, south, and "Methodist bible study," by Rev. G. Oliver Park of the Irish Methodists.

TREASURER OGDEN

Pleaded Not Guilty to Embezzlement

PROVIDENCE, R. I., Oct. 9.—Town Treasurer Ogden of North Providence pleaded not guilty to three counts charging embezzlement when arraigned in the superior court today. Ogden was recently indicted by the grand jury and is alleged to have stolen about $4700 of the town's funds. He was held in bail of $15,000, which was furnished, for trial.

200 MILE AUTO RACE

Conditions for Contest Are Ideal

PHILADELPHIA Oct. 9.—Ideal autumn weather prevailed for the 200 mile automobile road race in Fairmont park this afternoon, which was postponed from Saturday because of rain. The original entry list numbered 18 cars, but it was expected that only 15 would start. They were to be piloted by some of the best known drivers in the country. Among the amateurs are Erwin Bergdoll and Fred Betz of this city. The race was scheduled to start at 12 o'clock and to be run over 8 1-6 miles of road in Fairmont park. The cars were to go 25 times around. The expenses for the race will be paid out of the money paid for the reserved grandstand seats and for the renting of automobile parking space. The surplus will go to charitable institutions of the city. The entries, the numbers, car and driver being as follows:

1—Car withdrawn, Len Zengle.
2—National, Len Zengle.
3—Lozier, Ralph Mulford.
4—Cole, Charles Basle.
5—Mercer, Ralph De Palma.
6—National, Donald Herr.
7—Case, Joseph Jagersberger
8—Benz, Erwin Bergdoll.
9—Lozier, Harry Grant.
10—Stutz, G. Anderson.
11—Mercer, Hugh Hughes.
12—Ohio, George Parker.
13—Bergdoll, Grover Bergdoll.
14—Fiat, Fred Betz.
15—National, Louis Disbrow.
17—Mercedes, Spencer Wishart
18—Mercedes, Willie Wallace.

Number one car was withdrawn because Lee Oldfield, its driver, whose car killed 11 persons at Syracuse several weeks ago, took to heart the criticism for entering another race so soon after that accident.

HUSBAND KILLED

GIRL PROBABLY FATALLY INJURED BY GRANDFATHER

WEST HAVEN, Conn., Oct. 9.—Because he did not approve of the marriage of his step-granddaughter, Mary Delfino, to an employe of his, Sodovico Delfasio, Domenico Delfino, owner of the Connecticut Fireworks company, and wealthy, late yesterday shot and killed Delfasio and probably fatally wounded the girl.

Miss Delfino and Delfasio were married in Brooklyn, N. Y., Sept. 23, and returned to the Delfino home, where all was seemingly harmonious.

The entire family was present when Delfino suddenly pulled a revolver and began shooting. Delfino, after the shooting, remained at home until taken into custody by the police. He is 65.

STRIKING SHOPMEN

TO BE PAID OUTSIDE THE SHOP FENCE

CHICAGO, Oct. 9.—Signs notifying striking shopmen that they would be paid their September wages on Wednesday outside the fence surrounding the Burnside shops were posted today by the Illinois Central Railroad Co. This precaution had been taken to avoid the possibility of trouble.

Nearly a thousand men, or about one third of the regular force, reported for duty today and there was no disorder.

PLEADS NOT GUILTY

Man Was Charged With Larceny

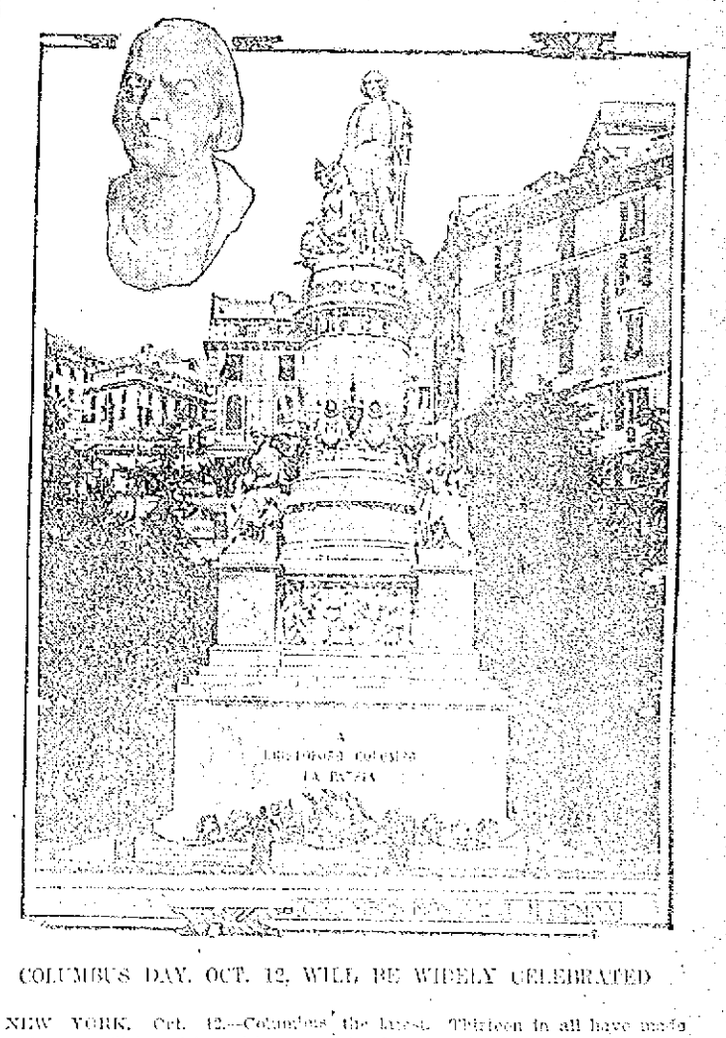

BOSTON, Oct. 9.—Louis F. Gavet of Danvers, a former real estate operator of this city, pleaded not guilty to an indictment charging him with larceny and unlawfully selling collateral upon its arraignment in the superior court today. He furnished bail of $1000 for his trial on Oct. 23.

Gavet was formerly a partner of A. S. Porter, Jr., on State street and was arrested Saturday several weeks after the firm dissolved.

TWO WERE INJURED

By Explosion at Boston Headquarters

BOSTON, Oct. 9.—An explosion in room 16 of police headquarters building resulted in inspector M. J. Morrissey losing the middle finger of his right hand and in Edward Cochran of the police signal service being badly injured. Both men were removed to a hospital. Their condition is not serious. The cause of the explosion is not known. The two men were in the room alone and up to noon were unable to offer any explanation for the accident.

COLUMBUS DAY, OCT. 12, WILL BE WIDELY CELEBRATED

NEW YORK, Oct. 12.—Columbus day, Oct. 12, will be celebrated in many states of the country. Colorado was the first state to recognize the discoverer of the continent and New York's the latest. Thirteen in all have made the day a legal holiday. The illustration shows Columbus and the handsome memorial erected to him in Genoa, where he was born.

Weak Heart

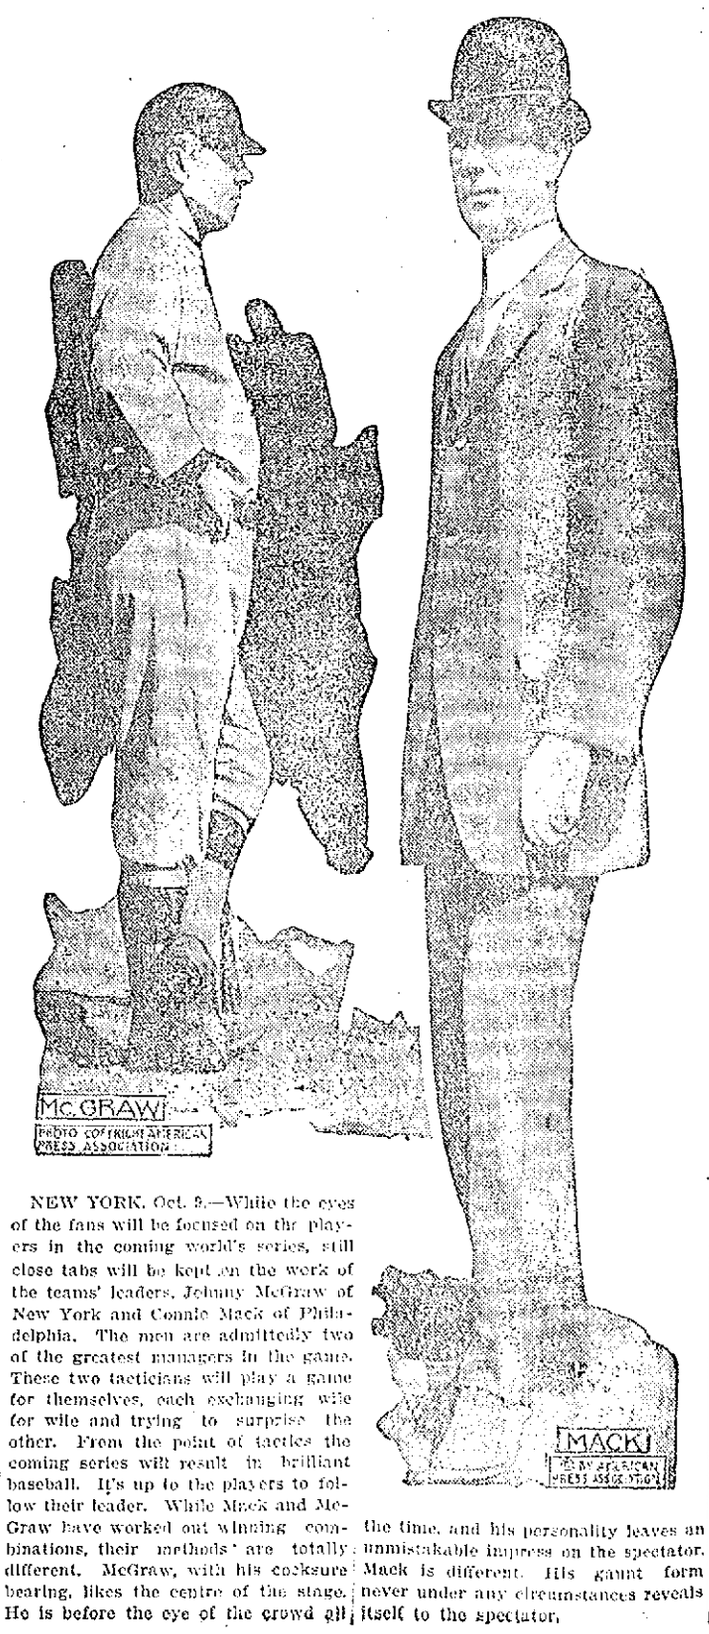

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (*Collinsonia Canadensis*), Bloodroot (*Sanguinaria Canadensis*), Black Cohosh or Black Snakeroot (*Cimicifuga Racemosa*), Queen's root (*Stillingia Sylvatica*), Blue Cohosh or Blue Ginseng (*Caulophyllum Thalictroides*), Mandrake root (*Podophyllum Peltatum*), with triple-refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many unpleasant symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

LEADERS OF TWO TEAMS THAT WILL PLAY FOR WORLD'S TITLE

NEW YORK, Oct. 9.—While the eyes of the fans will be focused on the players in the coming world's series, still close tabs will be kept on the work of the teams' leaders, Johnny McGraw of New York and Connie Mack of Philadelphia. The men are admittedly two of the greatest managers in the game. These two tacticians will play a game for themselves, each exchanging wile for wile and trying to surprise the other. From the point of tactics the coming series will result in brilliant baseball. It's up to the players to follow their leader. While Mack and McGraw have worked out winning combinations, their methods are totally different. McGraw, with his cocksure bearing, likes the centre of the stage. He is before the eye of the crowd all the time, and his personality leaves an unmistakable impress on the spectator. Mack is different. His gaunt form never under any circumstances reveals itself to the spectator.

ROYALISTS DEFEATED

They Are Awaiting Reinforcements Under Captain Coucierre

LISBON, Portugal Oct. 9.—The royalists, after their defeat at Vinhaes, where they lost 50 men, entrenched themselves in the rough country and are awaiting the arrival of another column under Captain Coucierre. It is reported that they have eight field pieces and four Maxim guns. A party of monarchists attacked an express train which was carrying troops to the north, near Montsante. They placed an obstruction on the tracks which was discovered by the engineer, who stopped his train when it was within 50 yards of the pile of stones and railroad ties. As the train halted it was fired upon. The troops responded and drove off the royalists.

The four hundred royalists attacked Macedo De Cavallieros which had been reinforced and withdrew after a fight that continued for two hours. The government is finding difficulty in handling the cavalry and infantry in the mountainous districts.

FUNERALS

COLMAN—The funeral services of the late Mary E. Colman were held Saturday afternoon at the Pelham Congregational church after a short prayer service at the residence. Rev. Joseph L. Hoyle of Haverhill officiated, assisted by Rev. J. J. Allen, the local pastor. Vocal selections "Jesus, Lover of My Soul," "Safe in the Arms of Jesus," and "Good Night," were given by Mrs. Leahey and Mrs. Spaulding of Lowell, Mr. George Spaulding of Lowell presiding at the church organ. Burial was in St. Patrick's cemetery, where Rev. Fr. Shaw read the prayers. The bearers were John Toohey, Thos. Ryan, Peter Toohey, Michael Murphy, Michael Roddy and Peter Curry. Among the floral offerings were the following: large pillow inscribed "Mamie," from the family; pillow inscribed "Mamie," Aunts Margaret and Kate; wreath, Mr. W. F. Galvin; spray, Miss Mary Mullen; spray, Mrs. Annie Sullivan and Miss Fannie Fitzgerald; spray inscribed "Goodbye, Mamie," Mrs. T. J. Harrington; standing cross, friends of No. 2 spinning room, Mass. mills; bouquet, Mrs. John Brady; pillow inscribed "At Rest," the Axminster threading room, Bigelow Carpet Co.; spray, Mr. and Mrs. Herbert Devaney; spray, Miss Kittie Kennedy; spray, Misses Mary and Annie McBride; spray, the Misses Theresa and Mamie McCarthy. C. H. Molloy & Sons were the undertakers in charge.

HILLMAN—At the funeral services of the late Richard B. Hillman, held at the Congregational church, Pelham, Sunday afternoon, the last solemn rites of Masonry were observed by a delegation of his fellow Masons of Knights Templar degree, who had charge of the services. Delegations from Ancient York lodge, A. F. and A. M., of which he was one of the oldest members, and Merrimack lodge, I. O. O. F., were present, also representatives of General Stark Colony, U. O. P. F., and of Pelham grange. The Rev. Melvin J. Allen had previously officiated at a service of prayer at the residence of Mr. Hillman's daughter, Mrs. Henry M. Currier, and at this church service also spoke briefly of the deceased, his life work and character and of his true value as a good citizen, respected by his fellowmen. Many friends and relatives were present in testimony of their high regard for him and although it had been requested that no flowers be contributed, there was a generous offering of them. A quartet consisting of Mrs. F. A. Greeley, Mrs. E. F. Hyde, Mr. Samuel Crowther and Mr. H. H. Chase gave several selections, accompanied by Mrs. E. F. Cutter, organist.

LOYNES—The funeral of James Loynes took place Saturday afternoon at 2 o'clock and was largely attended. The services were conducted by Rev. Allan Conant Ferrin, pastor of the High Street Congregational church. Among the beautiful floral tributes were: Pillow from mother and brother; sprays, Uncle James, Uncle William, Uncle Matthew; wreath, cousins; standing crescent and mound, chums of the deceased; spray, Mrs. David Evans and family; wreath, Mr. and Mrs. Thomas Blair; spray, Yates family; sprays, Mr. and Mrs. Ferris; Mrs. Caddell, Mrs. Walter Booth and Miss Galushia; wreath, Massachusetts bearers; spray, Mr. and Mrs. William R. A business man's Clothes usually tell what kind of a Business Man He Is!

It doesn't necessarily follow that he won't do business or won't succeed if he doesn't dress well, but it's pretty good evidence of his judgment, good taste and business sagacity if he dresses *correctly* and in conformity to prevailing style.

The Clothes we sell—the Clothes we have devoted so much time to selecting and investigating during the past six months, are pretty good evidence of what kind of business men *we* are; we're sure of that because they are made by

THE SUN'S DAILY PICTURE PUZZLE

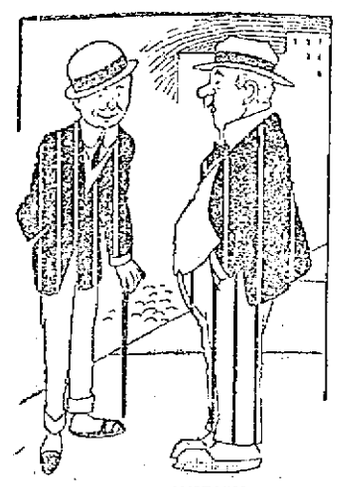

HER ANSWER.

When I asked her
To be my wife
She simply said,
"Youbetcherlife."

Find him.

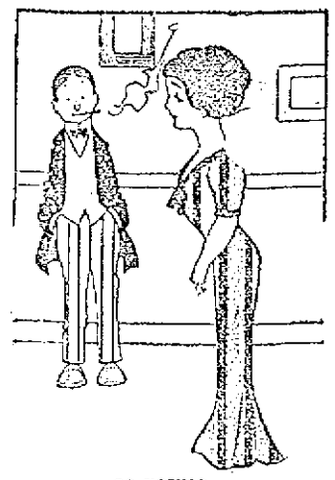

ANSWER TO SATURDAY'S PUZZLE. Upside down in front of girl.

A LITTLE NONSENSE

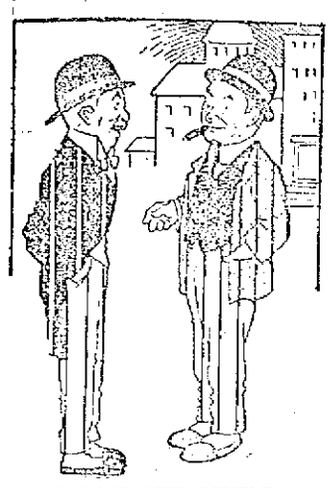

HIS DEFINITION.

First Fan—What is winter?
Second Fan—The intermission between seasons.

SO YOUNG.

Percy—I heard that you said I was a goose. I hope you will deny it.
Kitty—I most assuredly will. I merely called you a gosling.

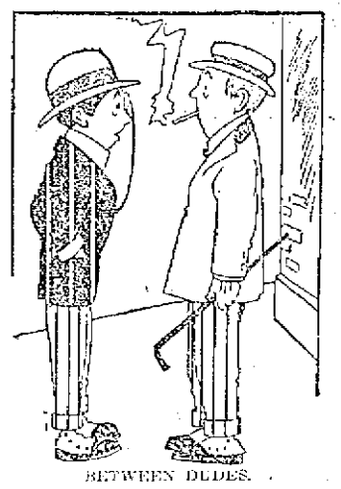

SPELLED DIFFERENTLY.

"Is that your city hall?"
"Yes, but since so many grafters have been found there, it is spelled in a new way, the second word being 'h-a-l-l.'"

REMARKABLE.

"Do you find that this machine eats you less to keep up than your last one?"
"Oh! much less. Why, I almost have enough left to live decently on nowadays."

BETWEEN DUDES.

"I say, old fellow, let's go shooting, eh, what?"
"Nothin' in it, old chap. We shouldn't bag anything but our trousers, y' know."

DISAPPOINTED.

"So you went into the country to get 'atmosphere?' How did you like it?"
"Disappointed. Couldn't find a farmer who had a horse named Pegasus, and never heard one of them say 'By heck!'"

MORTGAGEE'S SALE

By virtue of a power of sale contained in a certain mortgage deed given by Malvina Lagasse of Lowell in the County of Middlesex and Commonwealth of Massachusetts to Hiram Whitney of Westford in said County, dated March tenth, A. D. 1906, and recorded in Middlesex North District Registry of Deeds, Book 387, Page 495, and subsequently assigned to me by an instrument duly recorded in said Registry of Deeds, and for breach of the condition of said mortgage, will be sold at public auction on the premises in said mortgage deed described, on Thursday, the twenty-sixth day of October, A. D. 1911, at 3.30 o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed, viz.:

A certain tract or parcel of land with the buildings thereon containing two thousand three hundred and seventy-four square feet, more or less, situated on the westerly side of Cumberland Road in said Lowell and being part of lots 332 and 333 on a plan of land entitled "Division of tract marked Reserved" on a plan entitled "Crescent Hill, a suburb of Lowell, Mass., owned by Heirs of Fisher A. Hildreth, Thomas Nesmith and others, Ernest W. Bowditch, C. E., compiled December, 1896 by Smith & Brooks, C. E., Lowell, Mass., recorded in Middlesex North District Registry of Deeds in Book of plans 12, Plan 10, and bounded as follows, namely: Beginning at the point on the westerly line of said Cumberland Road which point is distant southerly one hundred and twenty-four and 92-100 feet from a stone bound at the intersection of said westerly line of said Cumberland Road with the easterly line of Alkan avenue which point of beginning being also at the northeasterly corner of the premises, thence southwesterly at a right angle with said westerly line of said Cumberland Road fifty-five and 88-100 feet to a stake, thence southerly at an internal angle of 111 degrees, 6 minutes, with the last described line forty and 53-100 feet to a stake, thence southeasterly at an internal angle of 65 degrees, 54 minutes, with the last described line, seventy-two and 13-100 feet to the said westerly line of said Cumberland Road; thence northwesterly at a right angle with the last described line and on the westerly line of said Cumberland Road thirty-seven feet to the point of beginning. Being the same premises conveyed to said Malvina Lagasse by Hiram Whitney by his deed dated March 10, A. D. 1906, and recorded in said Registry of Deeds Book 387, Pages 475 and 477.

Subject to the following restrictions, namely: (1) that no building shall ever be erected on said premises within ten feet of said Cumberland Road except that doorheads and eaves may further project but not so far as to unreasonably obstruct the view along said road, and (2) that for the term of twenty years next after the year 1902, no spirituous or intoxicating liquors shall be sold or kept for sale on said premises.

Said premises will be sold subject to taxes for the current year 1911 and all unpaid taxes and other municipal assessments if any there be.

Terms, $300 cash at time and place of sale, and the balance within ten days thereafter upon delivery or tender of a deed.

M. ELIZABETH WHITNEY, Assignee of said mortgage.

CO. COMMISSIOMERS

HELD BRIEF MEETING AT COURT HOUSE TODAY

The county commissioners held a brief meeting at the court house this morning and after going over some routine matters held a conference with Selectman Adams of Chelmsford relative to road matters in that town.

O'DONNELL'S OPENING

The grand opening of this establishment which took place Friday and Saturday of this week was certainly a great success. The store is known as the store of fine quality and everything was carried out to the last degree in their beautiful display of pattern hats and bonnets and everything in the millinery line that would bring delight to the heart of a woman who is fond of fashionable millinery. This season's creations are the most beautiful that our people abroad have sent us, and even though the shapes of many look odd when but a mere frame, after passing through the hands of various skilful milliners who are in the establishment there is a transformation scene that makes what looked like a bonny shape a delightful dream as we might say.

Miss Currier, who has charge of the millinery department has always been fortunate in being able to get the best and most skilled milliners to assist her. The salesroom and the display of hats brought out many comments very favorable to the O'Donnell company, and many were the orders taken, which is the most important part. The entire store had on a holiday appearance and each department was thoroughly inspected and most generously patronized. It is pretty hard for anyone to find a more complete assortment of dry goods as well as millinery that will surpass or compare with the O'Donnell Dry Goods Co.

Mr. James H. Kelley, the manager, should be congratulated for his ability in bringing this about. He is the right man in the right place.

Notice, Lowell Owls

A LARGE NUMBER OF SALES MADE AT THE LOWELL HIGHLANDS

By Eugene G. Russell, with offices at 407 Middlesex street, the man who made it possible for people of moderate means to own their own homes in the best residential section of Lowell, namely "The Lowell Highlands.

Eugene G. Russell has taken hold of the property at the Lowell Highlands in real earnest, and he is making things lively in that thriving suburb. When this tract of land was originally opened by Mr. Russell, there were about 70 lots. About half of these have been sold, and now Mr. Russell is busily engaged in disposing of the remainder and building handsome, modern houses. He has the foundation already in for one house and is about to start several more. All the streets in this section have gas, sewers and water; also sidewalks. Deeds were recorded the past week from Mr. Russell to Daniel J. Sullivan, for two lots of land in Stevens street, containing about 11,000 square feet, also a lot of 9000 feet in Highland avenue to Auburn Taylor, who will start a house at once. Mr. Russell has also sold for Richard M. Yarnold the house at 46 Rhodora street, and the house at 378 Parker street to a local party; lot of land in Highland avenue to Emma J. Norris; and lot in Rhodora street to a man who will build at once a modern house; also lot of land in Atlantic street to Mrs. Currier, who will also build a house for her own occupancy this fall. Also lot on Highland avenue, for S. J. Spence to a local party who contemplates building in the near future. And again a valuable lot on Parker street containing 11,408 square feet to a well known business man who will erect a modern grocery and provision store upon the premises at once. Again he has sold a fine house on a corner lot on Chelmsford street. This is a corner lot with an up-to-date house with every modern improvement. Names of the parties will be given upon passing the deeds. Business during the past week has been uncommonly good, and the prospects for the coming week are even better.

Anyone having property to sell will do well to list same with Mr. Russell, 407 Middlesex street, for a quick sale.

Also contracts have been signed for the sale of two lots of land at Wamesit by E. J. Norris to a local party. Last week four permits were taken out to build houses at the Lowell Highlands, and the parties have started to build.

Mr. Russell will open the famous tennis courts at the corner of Parker and Rhodora streets to all comers this week and will give a key to all who purchase a house or house lot at the Lowell Highlands this week, having had made twenty keys to fit the Yale lock now on the gate at the tennis courts.

Walk or take the Highland car up to the Lowell Highlands today or tomorrow and see the great improvements made there the past two weeks, it will surprise you.

A Beautiful Residence

FOR SALE

At a Great Sacrifice at the

"Lowell Highlands"

Seldom, if ever, have you had a chance to buy at so great a sacrifice, a place like this one. This is the only place for sale at a sacrifice at the "LOWELL HIGHLANDS," for the building of new ST. MARGARET'S CHURCH and many other facts too numerous to mention have made desirable houses scarce in this section.

This place has cost Mr. Varney over $6000, including the three lots that go with the place, or the residence will be sold with one lot if the purchaser so desires.

OWNER LEAVING LOWELL to make his residence in the northern part of New England and has placed in my hands to sell to the highest bidder, the beautiful residence, situated at the corner of Parker and Rhodora streets and numbered 378 Parker St., opposite the two so-called tennis lots, and next to the residence of Rev. Arthur P. Wedge.

DESCRIPTION OF THE HOUSE—A nine-room modern built house, up to date in every respect, in fine shape, now being painted two coats of paint on the outside, hardwood floors in every room, large parlor, dandy dining-room, kitchen, pantry and front and back halls, four bed-rooms, bath-room, hot and cold water, steam heat, good attic, cemented cellar, fine lawns, shrubbery, flowers, vegetable garden, fruit trees, etc., etc., concrete sidewalks. The house is situated on the highest land in Lowell in the most beautiful residential section of the city, "THE LOWELL HIGHLANDS," and Mr. Varney tells me that if he was to live in Lowell no place would suit him better as regards to neighborhood, which is the best. Some of his neighbors are Rev. Mr. Wedge., Mr. Walter W. Carr, assistant superintendent of the Merrimack Mfg. Co.; Mr. George S. Drew, the local resident representative of Bradstreet; Police Officer Daniel J. Donovan, Optician Labelle, of Merrimack St.; Joseph R. Hardy, manager of E. Buxton Co.; Charles G. Martin, the well known bookkeeper at the Bon Marche; Edwin Erickson, an employe of the Boston & Northern; Mr. Lofgren, the popular overseer at the U. S. Cartridge Co.; W. S. Woodward, bookkeeper at the Swift Plant at South Lowell; Mr. Martin Flaherty, the well known athlete; Mr. Fred McMaster and Mr. Harry C. McMaster, two popular employes of the U. S. Cartridge Co.; Mr. John W. Cole, the well known manager of the D. L. Page Co. restaurant on Merrimack St., which is second to no restaurant in the city; Mr. Whitson, the popular letter carrier, and last but not least is Mr. Charles H. Bagshaw, the well known and very successful manufacturer, who occupies the magnificent cement mansion on Wedge St., which is the centre of so much attraction and admiration of all who stroll through the "LOWELL HIGHLANDS."

THE LAND

There are 4905 square feet of land in the first lot, which goes with the house and is numbered 2. The second lot is No. 1, and the third lot is No. 5, on plan of land at "LOWELL HIGHLANDS," belonging to Eugene G. Russell.

For full description and lowest cash price, as well as the easiest terms, a reasonable amount down and balance monthly, on which this estate can be secured and how it can be divided, call today.

ITALY MAY GET TRIPOLI

FATAL EXPLOSION

Four Men Dead and Six Others Were Injured

NEW YORK, Oct. 9.—Four men were killed and six injured today by an explosion of dynamite 60 feet under ground in a shaft under Central park, where they were working on the Aqueduct for the Catskill water system.

The dead men were all Italian laborers. Michael Kearney, foreman of the gang, and John Waco, a workman, may die.

Kearney and J. W. Martin, the night superintendent of the work were arrested on charges of criminal negligence.

The shaft where the explosion occurred is being sunk by the Dravo Construction company of Pittsburg at 66th street. It is being drilled and blasted through solid rock and is about 16 feet in diameter.

A new sift of ten men had barely started work this morning when a drill in charge of John Paulino struck some explosives. With a terrific roar tons of rock shot into the air, Paulino and the nearest workmen were blown to pieces and two others were crushed to death by falling stone.

Ten charges were touched off Saturday night and it is believed that some of these failed to explode and caused the disaster when the drill struck it this morning.

TWO INQUESTS HELD

Inquiry Into Death of a Man and a Woman

An inquest on the death of Clarence H. Sprague was held this afternoon at police court, Judge Frederic A. Fisher presiding. Sprague was found on the Boston & Maine railroad tracks near North Chelmsford on Sept. 21, and was removed to the hospital where he died a short while later.

Another inquest was held this afternoon before Judge Fisher, that over the death of Mrs. Mary Watson, who was killed last week by a train on the Boston & Maine railroad tracks at the school street crossing.

An inquest on the death of James Loyne, who was killed last week by an elevator at the plant of the United States Worsted company, in Howe street will be held at 10 o'clock Monday morning.

TURKEY SEEKS PEACE

Is Willing to Cede Tripoli to Italy Under Conditions

BERLIN, Oct. 9.—A circular note from the Turkish government asking the powers whether they consider that the time has arrived to seek a basis for negotiations looking toward peace between Turkey and Italy and under what conditions, was presented to the German foreign office today. The note contemplates the cession of Tripoli to Italy under certain conditions.

It is probable that the communication from Constantinople will be discussed between the other powers before the Italian government is approached. It is thought at the foreign office that Italy may not be ready yet to negotiate. The decision to expel Italians from Turkey, against which the representations of the German ambassador at Constantinople, Baron Marschal Von Bieberstein, have not been effective yet, was designed chiefly, it is thought here, for effect upon the coming negotiations. Turkey hoping that the threat might induce the Italians to make moderate terms.

COMMISSIONER HOWE

Favors a House Physician for Chelmsford Street Hospital

Commissioner Howe of the board of charities has asked the chairman of that board to call a special meeting in order that he may be given an opportunity to speak on matters of public interest, particularly on the office of city physician.

He will make an appeal, he says, for the welfare of the aged sick in the hospital.

He will attack the present system of medical treatment. He avers that the office of city physician as now conducted is but a relic of the middle ages; perpetuated because of political influence, and that it is a ridiculous farce.

He recommends a house physician for the Chelmsford Street hospital and says that a tubercular hospital should be built without delay.

He would stow the irresponsible inmate at the city farm from dispensing medicine in the hospital.

He wants more nurses at the Chelmsford Street hospital. He says that our political system should be changed and says that the new charter or anything else that will effect a change should be welcomed.

These are a few of the things that Mr. Howe will expatiate upon either at a special meeting or at the next regular meeting.

DR. SIMPSON RESIGNS

Gives Up His Position at the Lowell Hospital

The resignation of Dr. Charles E. Simpson as superintendent of the Lowell hospital, and the resignation of Mrs. Simpson, as matron, will be considered at the next meeting of the trustees of the Lowell Hospital association. The trustees will meet next Wednesday.

Dr. Simpson has been connected with

DR. CHARLES E. SIMPSON

the Lowell hospital for twenty-five years. Asked today if he had resigned to accept another position, similar or otherwise, Dr. Simpson said that he had not. He said that his position of state inspector of factories took up a great deal of his time and he decided to devote the rest of his time to general practice. It was stated today that Dr. Forster H. Smith and Mrs. Smith are candidates for the positions to be vacated by Dr. Simpson and Mrs. Simpson.

FOR NEW CHARTER

Two Ward Meetings on Tonight

The voters of ward three who are in favor of the new city charter will hold a meeting this evening at the board of trade rooms to discuss the proposition and make arrangements for a canvass of that ward in its behalf. The voters of ward nine will also meet tonight at Hamilton hall, Odd Fellows building, for a similar purpose. Both meetings will be held at 8 o'clock.

BOARD OF TRADE

Fall Meeting of Directors Wednesday Evening

The directors of the board of trade will meet on Wednesday evening at 6 o'clock at the New American hotel for a supper and business meeting, at which plans for the winter's work will be laid out.

The board of trade year book is out today and will be sent to the members or may be had by them by calling at the secretary's office. The book is one of the best both in appearance and in contents ever produced by the organization and is replete with interesting information regarding Lowell and is profusely illustrated. Copies will be sent to all the leading business and commercial organizations of the country.

A FALLING OFF

OF REGISTRATION IN ELEMENTARY CLASSES

While the registration in the elementary classes of the evening high school shows a falling off of 259 as compared with last year, the entering class is about as large as it was last year because in the advanced classes or courses the registration is greater than it was last year. The manual training department shows a decrease of about 50 pupils and that is supposed to be due to the installation of the industrial school. There has been a falling off in all of the elementary classes, while the number registering for straight high school studies shows a considerable increase over last year.

TWO OPERETTAS

TO BE GIVEN IN ST. JOSEPH'S COLLEGE HALL

The young men who were to take part in the drama, "Michel Strogoff," met yesterday afternoon at St. Joseph's college and unanimously decided to abandon the said drama and instead to play two one-act operettas.

The meeting was presided over by Rev. Charles Denizot, O. M. I., D. D., who is directing the rehearsals, and after discussing the matter carefully, the young men decided to change the plays for the reason that "Michel Strogoff" requires a larger stage than the one at the college hall, and another reason was that the scenery would be too expensive.

"Quand On Conspire," is one of the operettas chosen and another will be selected in a few days. This soiree which is to be given for the benefit of St. Joseph's parish, will be held in the first part of November.

TREASURER OGDEN

Pleaded Not Guilty to Embezzlement

PROVIDENCE, R. I., Oct. 9.—Town Treasurer Ogden of North Providence pleaded not guilty to three counts charging embezzlement when arraigned in the superior court today. Ogden was recently indicted by the grand jury and is alleged to have stolen about $1700 of the town's funds. He was held in bail of $15,000, which was furnished, for trial.

PLEASANT PARTY

FRED PARKE VISITED BY PARTY OF FRIENDS

A party of friends of Mr. Fred B. Parke, the popular employe of Heinze Electrical company, assembled at his home last evening to welcome him home from his honeymoon, which he enjoyed at his former home, Summerside, Prince Edward Island.

On behalf of those present Mr. Horace Ingham presented him with handsome smoking set.

Mr. Mitchell Killeen, president of the Cigarmakers' union, presented him with a Morris chair on behalf of the Washington Social club, after which the following musical program was rendered.

Song, Miss Alice McNulty; reading, Mr. Peter Desjardins; song, Mr. John Crann; piano solo, Eddie Lovett; song, Mr. William Kendall; piano duet, Messrs. Favro and Lovett; whistling solo, Baptiste Champagne; duet, Misses Annie O'Loughlin and May Monihan; imitations of Harry Lauder by John Droney, assisted by Jack Boyle in kilts.

FUNERALS

FUGERE—The funeral of the late Anna Fugere took place this morning from her late home, 28 Hancock avenue, and was largely attended. The cortege left the house at 8 o'clock and wended its way to St. Jean Baptiste church, where at 8.15 o'clock high mass of requiem was celebrated by Rev. Fr. Gratien, O. M. I. The choir under the direction of Dr. George E. Calsse rendered the Gregorian chant, Mr. Arthur J. Martel presiding at the organ. The bearers were Arthur Desloges, Pierre Sylvestre, Wilfrid Moreau, Leo Sylvestre, O. Gauthier and Adelard Bourgeault. The Third Order of St. Francis, of which deceased was a member, was represented as follows: Mesdames Adelard Gauthier, Deline Frechette and the Misses Delia Frechette, Maria Boisvert, Bernadette Bourgeault and Helene Mailhot; the delegation from Notre Dame de Lourdes sodality was the following: Anna Bourgeault, Agnes Frechette, Ernestine Thurber, Emma Duncause, Rosanna Trudel and Dora Boisvert. The delegates from Cercle d'Youville were Mrs. Henri Blanchette, Misses Philomene Demers, Bernadine Desaulniers and Eva Lussier. Burial was in St. Joseph's cemetery, Rev. Fr. Brutlard, O. M. I., reciting the committal prayers at the grave. Funeral arrangements were in charge of Undertaker Amedee Archambault.

POWER!

YOUR CHOICE

It is our experience that people prefer the sort of power which saves trouble rather than causes trouble.

For instance, in recent months, we have been called upon to replace 11 engines with motors.

In most of these cases, the discarded engine represents a considerable financial loss to its owner.

The best way to choose your power is not to experiment, but to investigate.

LIVELY OLD VET

George Hayes Observes His 70th Birthday

There was something doing at the home of the "Two Old Vets" on the Nashua road today for one of them is observing his 70th birthday.

The vets are George Hayes, who is celebrating his birthday, and his brother, Walter Hayes Farwell, with whom he was recently reunited after an absence of 40 years.

The two brothers separated in their early days, both being orphans and Walter Hayes became a member of the Farwell family, taking the family

GEORGE E. HAYES

name. They enlisted in the Civil war in 1861 and from that time until a few years ago never saw or heard from each other. After much corresponding Walter found brother George in Maine and invited him to come and live with him. George came and the reunion was a corker. Since then they have lived together like two peas in a pod and over the door of their modest cottage in Tyngsboro they have the sign "Two Old Vets." The sign fits them right as both have first class war records but if they were looking around for a title, "Two Old Sports" would have been equally appropriate. Walter declines to discuss his age but George is willing to admit that he is 70 years of age today.

He was born Oct. 9th, 1841 in Gorham, Me. He was left an orphan when seven years of age and went to live with an uncle in Cambridge, Mass. When the war broke out in 1861 he enlisted in the Second Mass. Infantry, Company F, at the age of 18 years, and was mustered into the service May 25th, 1861. He took part in the following engagements: Shenandoah valley under General Peterson; and General Banks; the battle of Winchester, Cedar Mountain and Rappahannock station and in numerous skirmishes. His health then gave out and he was mustered out against his wishes July 9th, 1863. After remaining at home a short time he regained his health and re-enlisted in Company G, Third Mass. Heavy Artillery which was stationed in the fortifications around Washington. He took part in some skirmishes and was in the final review of the army which took place in Washington at the close of the war. He was mustered out of the service Sept. 18th, 1865. A birthday dinner was served at the home of "Two Old Vets" presided over by Harry Young and there were songs by Walter Farwell, Wm Rollins and James McCann.

LOOSE BOOK-KEEPING

Is Blamed for Discrepancy of $3,288,271 at Navy Yard

WASHINGTON, Oct. 9.—A discrepancy of $3,288,271 between the material on hand and that called for by the books of the Washington navy yard was shown by the inventory of that yard just completed, according to an announcement by Secretary of the Navy Meyer today. This is the first inventory of record made at the yard within the last 25 years. The discrepancy is attributed to loose book-keeping methods, which Secretary Meyer set out some time ago to correct.

JUSTICE TANNER

Denies Petition of I'U. S. J. Bte. d'Amerique

PROVIDENCE, R. I., Oct. 9.—Presiding Justice Tanner in the superior court today denied the petition of L'Union St. Jean Baptiste D'Amerique for permission to transact the business of the next general congress of the organization at the special meeting to be held Dec. 12 next for receiving the resignations of the present executive officers of the society.

The court bases its decision on the theory that it had no jurisdiction to amend a decree that had been entered by consent, as was the case in this instance. Consequently, a general congress will have to be held next September in addition to the special meeting in December. It costs about $8000 to hold a general congress.

STATE OFFICER CAREY

Lawrence Man Has Been Ordered to Duty in This City

Inspector Arthur F. Roach of the state police has been removed from Lowell by order of Chief Jophanus H. Whitney. Mr. Roach has been here two years and during that time has maintained a residence in Worcester. He will be succeeded by Jeremiah Carey of Lawrence.

JEREMIAH CAREY, State Inspector

Mr. Carey is a native of Lawrence and has been connected with the state police for five years as building inspector. From his experience as inspector of buildings he is well qualified to fill the new position.

He is intimately acquainted with every detail of mill construction and also understands fully the operation of mill machinery, so that when he enters the mill he can tell at a glance just what is going on and if things are just as they should be. The changes in the inspecting force are being made for the purpose of reducing the size of the different districts, in order that the inspectors will not have so much territory to cover. They will therefore be able to do better work than they have done in the past. It is understoodd that Mr. Roach goes to Worcester.

CITY MESSENGER DEAD

Joseph E. Pattee Passed Away After a Long Illness

City Messenger Joseph E. Pattee is dead. He died yesterday at his home in Dutton street after a long and painful illness that he bore with remarkable fortitude. He was aged 58 years, 7 months and 14 days.

Mr. Pattee was one of the most popular city officials in Lowell. His genial, kindly manner won him many friends and a great many people will be pained to hear of his death. He made an ideal city messenger and he has been much missed at city hall.

THE LATE JOSEPH E. PATTEE.

He suffered cancer and the trouble was well developed before he started in to do battle with it. He did not know, of course, that it was cancer, but when he found out what it was he took it as philosophically as possible and, by advice of physicians, underwent an operation.

The operation was performed in Boston and was of such a serious nature that the doctors said Mr. Pattee would not have survived it but for the fact that his was a wonderful constitution. Mr. Pattee came home from the hospital several weeks ago and was a great sufferer up to the time of his death. He went to city hall two or three times after he returned from the hospital, but was unable to remain for any length of time.

Joseph E. Pattee was born at Thornton, N. H., and came to Lowell about 20 years ago. He was a friend to man and if all the cheering encouraging words he spoke to his fellowman could be repaid him now in death, he would have a eulogy unequalled in its eloquence. If the kindly sentiments he expressed in life could be converted into flowers for his grave, he would rest beneath a floral memorial loftier than the tower on city hall. Let us hope that after his day of sorrow and of pain

"The weary sun hath made a golden set,
And, by the bright track of his fiery car,
Gives signal of a goodly day tomorrow."

Mr. Pattee was a republican in politics. He became a candidate for representative in 1896, and was elected for the terms of 1897-98. As a legislator, he made many lasting friendships. About 11 years ago he was elected messenger at city hall. He remained at city hall until the development of his illness compelled him to relinquish his duties, though his successor was not named.

Mr. Pattee was a member of the Master Mechanics, the Martin Luthers and the Owls. He leaves a wife and one son, Lirg Pattee, living in Lowell.

TARIFF BIG ISSUE

Governor Foss Says Their Must be Revision Downward

Governor Eugene N. Foss, in an interview with a representative of the New York World, published in that paper yesterday, stated that the main issue of the campaign this year will be revision of the tariff downward, "so as to reduce the cost of living to our own people and stimulate international trade."

That and his own record as governor, he says, will be the issues. He expects a big fight, but says he is going to win.

Blames Republicans

"Since 1907 there has been a continuous unrest. It has been due entirely to the republican party. Such downward revision as the democrats, with the help of progressive republicans, were able to get through congress the president vetoed. He vetoed the wool bill, which gave partial relief from the extortion of a schedule he himself had declared indefensible. The present unrest and discontent is due solely to the republican party, which is controlled by corporate interests enjoying unrighteous protection.

"Our first duty is to revise the tariff, and if that is done properly there will not be so much occasion to litigate against the trusts. Take off unfair protection and competition will be restored. Force competition. That is the thing to do, better than anything else."

Competition Wanted

"Then, Governor, you do not believe that combinations are necessary to continue development?"

"Not at all; we want competition. It gives every man a fair chance. Competition is essential to progress; combination hampers it. Every time competition is restrained you are helping to create a monopoly, and if you have monopolies they will always control the government because the government can't control monopolies."

"Then you don't believe in the government fixing the prices of any commodities?"

"No; I do not believe in the government controlling prices. I believe in free and open competition, and the best —— to get that is to do away with the unrighteous protection some of the trusts enjoy."

Fair Trader, Not a Free Trader

"What degree of protection do you advocate?"

"I believe in fair protection for American industries, protection based on the difference in cost of production only. I am a fair trader. I don't want anyone to think I am a free trader. I am not. I believe in reasonable and suitable protection which carries with it a large measure of reciprocity. I believe this country ought to recognize that other nations can furnish us some things to better advantage than we can produce them ourselves. It is to our advantage to buy of other nations, and in that way to put them in a position to buy of us rather for us to attempt to manufacture things in this country we are entirely unfitted to do. I believe in protection and in a system of reciprocity carefully adjusted within the lines of protection."

"You were greatly in favor of Canadian reciprocity?"

"Yes, I always have been, but I was not astonished to see Mr. Taft's reciprocity pact fall through. In my message to the legislature I said that the federal government should take steps looking toward better trade relations with our neighbor Canada, and that, as a proof of our earnestness, we should reduce our duties to a level with those of Canada and then seek further reciprocal trade relations not only with her, but with other countries, as the wisest and most efficient methods of securing wider markets for our products, and, of course, a reduction in the cost of living.

Not Handled Right

"One fault with the reciprocity pact that Canada has just turned down was that it was not based on the right lines. It was not found to be a failure. Mr. Taft did not approach the subject rightly, and his speech about Canada having come to the parting of the ways was unfortunate. Canada saw some sinister motive in our reaching out to her alone. She analyzed the proposition. She asked 'Where does England come in in this bill?' Her relations to England we ought to have recognized. Indeed, we cannot get in closer relations to Canada until we do recognize England. England has kept an open market for the states and the English market has been worth more to this country than all the protective tariffs we have ever had.

"The United States have been too selfish in their relations with the world. We are losing our trade with Germany and have lost most of our trade with South America. All our shipping is gone—practically all of it. We are responsible for all the high tariffs all over the world—responsible for every one of them—and other nations are doing to us what we have done to them. We have got to change this policy and revise our tariff downward so as to reduce the cost of living to our own people and stimulate international trade."

The Massachusetts Campaign

"Is that going to be the main issue here this fall?"

"Yes; although, of course, my record as governor will be an issue. It is purely a fight for the governorship; there are no congressmen up for election. The question is whether I am to be re-elected and backed up by a democratic council, democratic administrative officers and a democratic legislature. After all, the one great fundamental question not only in this state but in every state in the Union and the nation itself is whether the special interests or the people shall run the government.

"Of course the republicans are going to give us a big fight. Murray Crane is here to take command of their forces. Of course he will make a gunshoe campaign and try to frighten the people and make them believe everything is going to pieces. They will pour money into Massachusetts till the last ballot is cast. If they are defeated their whole machine—the model stand-pat machine of the country—will go to smash.

"Senator Lodge's re-election to the senate was secured in such a manner that he has lost all influence here. He is a discredited man in his own state. The policies he stands for are just as discredited. It will be a fight without quarter, because if Massachusetts—the stronghold of stand-pat republicanism and high protection—goes democratic this time think what the effect will be on the progressive movement all through the country.

"I am going to the people on my record, and I am going to place the blame for present conditions squarely where it belongs—on the heads of the republicans. I am going to win"

HOW SOCIETY WOMAN WARDS OFF WRINKLES

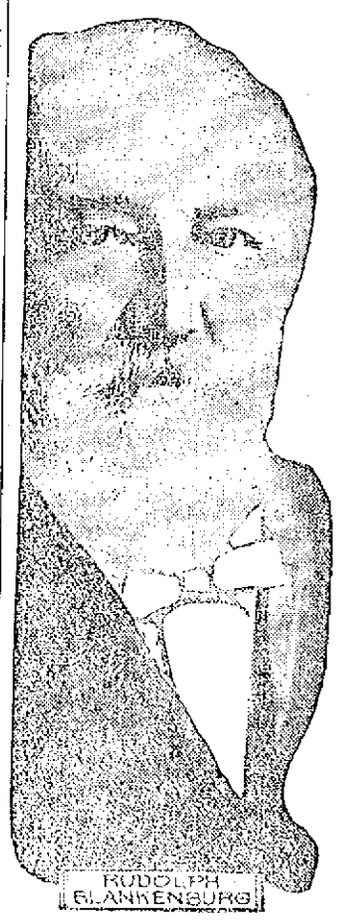

"Wrinkles are not strangers to me, but when I acquire such disfigurements I know how to lose them in a hurry." A well-known society matron confided this to me. I had wondered how she, with her strenuous social duties and late hours, could so completely ward off the usual marks of care and dissipation.

"I don't wear wrinkles in public, nor those horrid rings beneath the eyes," she continued, "since I've learned what plain, ordinary saxolite will do. When any of those hateful marks appear, I send to the drug store for an ounce of powdered saxolite and a half pint of witch hazel. I mix the two, bathe my face in the solution, and—that's the whole secret. I've never tried anything that works so miraculously. My chin is inclined to double; this trouble, too, I keep in check in the same way."—Emily Dean in Town Talk.

FROM THIN TO PLUMP GIRLS

The expressions of happiness and gratitude of several of his young lady patients for whom he prescribed, the recently successful flesh forming product, known as three grain hypo-nuclene tablets, is related by a physician in one of the medical publications and it comes as a surprise to the ordinary layman to learn the heart throbs of distress which seems to affect so many young people who are abnormally thin. Also to know that the weight can be so readily increased by the use, regularly for several months, of this peculiarly named preparation, now obtainable of the best physicians and apothecary shops in sealed packages with complete instructions for self-administration.

A JOLLY SURPRISE

Tendered Popular Belvidere Young Man

About thirty-five friends of Wm. J. Marren, the well known amateur comedian, gathered at the home of George F. O'Meara in Harrison street last night to bid him success on a long journey he is to take on the sea of matrimony. Mr. Wm. C. Harrington on the part of those present, in a few well chosen remarks, presented Mr. Marren a beautiful dining room set. Although wholly taken by surprise, Mr. Marren expressed his thanks and after a few pointed remarks to a few of those present, others will undoubtedly take the journey in the near future. Refreshments were served during the evening and the following musical program given: Piano solo, Henry Curry; songs by Frank McCartin, John Rogers, John Frawley; recitations by John H. Clark and Ed. Leonard; mandolin solos by William King and Walter Flaherty; parodies by William Marren. The feature of the musical program was a recitation by John A. Finnegan, leading man of the John Payne stock company, entitled "All the world is a stage." Henry Curry was the accompanist of the evening.

Quick Action Obtained

NOVEL TEST MADE WITH NEW PRODUCT

Some interesting experiments took place at the Hall & Lyon drug store, Monday morning. At this store specialists are explaining to the public the purpose of the tonic "Tona Vita" now being introduced in Lowell.

The strain of living among modern conditions has produced nervous debility in a big percentage of the population in the larger towns of today. This fact has been recognized by the medical profession, both here and abroad, and some time ago a tonic was introduced in Europe to combat the disease. The medicine proved highly successful and a company has been formed to put a similar preparation in the American market.

The experiments were made to show the immediate effect of "Tona Vita" as the medicine is called, upon cases of nervous debility. The principal symptoms of debility, as explained by the specialists, are as follows: A continual dull, tired feeling, lack of ambition, irregular appetite, poor digestion, nervousness, mental depression and poor memory. One of the chief characteristics of a sufferer from nervous debility is a gloomy mental attitude and extreme timidity. The victim is constantly under the impression that some calamity is about to occur.

From among the callers the specialists selected twenty or so and after questioning them closely as to their symptoms gave them the correct amount of the medicine to be taken at a single dose. About five minutes later these people were questioned as to the effect of the medicine and all stated that relief had been almost immediate.

Some of the replies were remarkable. One elderly woman said: "I have been dead on my feet for ten years past. This is the first drop of medicine I have taken that has helped me at all. I felt like a different person two minutes after taking it."

A man about 30 said: "I am a bank clerk and my health has been poor for about two years. I have not known what is the matter with me exactly, but I have been little good to myself or anybody else as I just dragged myself around.

"I don't know whether this medicine will make me feel like myself for good, but this one dose has helped me more than all the stuff I have taken. It seemed to take right hold and put new life in me."

The specialists will be at the Hall & Lyons Drug Store, from 9 a. m. to 8 p. m. A free trial will be given to those who desire it. The nature of the tonic will be explained to all callers.

A SPECTACULAR FIRE

Destroyed Farm House in Lakeview Gardens

A spectacular fire, which illuminated the skies for miles around, broke out in an unoccupied and partly finished two-story wooden frame house in Lakeview gardens, near Lakeview park, shortly after seven o'clock Saturday night. When the fire was discovered the flames were breaking out through the roof and side of the house and before assistance could arrive the building was practically doomed. Every effort was made to save some portion of the building, but the flames spread faster than the men could work and it was only a short time before the building was reduced to ashes.

The cause of the fire is not known. The first that anyone knew of the blaze, even those residing in the immediate vicinity, was when the shrieks of the siren whistle at the Beaver Brook mills in Collinsville were heard. One of the night employes saw the reflection in the sky and immediately sounded the whistle which attracted hundreds to the scene. A large number of residents of the town were attracted to the scene of the fire and a detachment of the Navy Yard fire company also responded. The fire had gained such headway that no attempt was made to stay the destruction of the building. The firemen with their chemicals kept the blaze from getting to the thickest of underbrush about the place.

The owner of the property is not definitely known other than that a Mr. Hall, living in Gorham street, this city, was the owner of the property.

It was learned that the owner has had the house under construction for the past three months and was attending to its erection himself during his spare time, which was mostly on Saturdays.

HOLY NAME SOCIETY

To Take Part in Columbus Day Parade

St. Michael's Holy Name society at its regular meeting last night voted to parade on Columbus day, Oct. 12. It will be necessary for the members to meet in the basement of the church on Thursday morning at 7 o'clock in order to be able to meet the other Holy Name societies at Monument square and proceed to St. Peter's church. President White announced that mass will be celebrated at St. Peter's church on Columbus day at 8.45. After mass the members will proceed to the South common and take part in the civic parade of the day. The membership committee will get to work in order that St. Michael's Holy Name society will live up to its past record in turning out in large numbers. John J. McCann was elected as aide to the chief marshal, representing St. Michael's Holy Name society.

Close of 30th Anniversary Celebration

The closing exercises commemorative of the 30th anniversary of the Swedish Congregational church took place yesterday with three largely attended services.

Present at these services were four of the 15 original members of the church, Mr. and Mrs. Edward Anderson, Mrs. Alfred Swanson and Mrs. Carl Palm. Rev. Mr. Holmblad, now of Minneapolis, the first pastor of the church, was one of the principal speakers.

At the morning service the music was given by the male quartet of the Swedish M. E. church, the same which sang at the 10th anniversary of the Congregational church, 20 years ago. The quartet was made up of Messrs. Emil Widen, C. F. Pihl, Nels Dellgren and R. H. Anderson. There was preaching by Rev. Mr. Holmblad and Rev. A. P. Nelson, the latter of Wisconsin.

Special services were held at 3.30 o'clock in the afternoon. Rev. N. E. Johnson of Providence, R. I., was the principal speaker while music was furnished by the male quartet. At the conclusion of the services coffee was served in the vestry by the Ladies' Aid society of the church.

The banner crowd attended the evening services which were presided over by Rev. John Elmen, pastor of the church. Several addresses were made by former pastors and the chorus choir gave a musical program.

AUTO IS WRECKED

Railroad Train Cut the Big Car in Two and Women Were Injured

BOSTON, Oct. 9.—Smashing through a wooden fence at the foot of Cumberland street, an automobile containing three women, at 7.15 last night plunged over a 12-foot embankment onto the tracks of the New York, New Haven & Hartford railroad before a moving train.

The women were hurled 10 yards from the wrecked automobile on the outbound express tracks a fraction of a second before a local thundered by on the first track, shearing the rear parts of the tonneau from the machine. Only one of the three women was severely injured.

Mrs. Frank Kenney of 1' Wellington street, wife of the soap manufacturer and proprietor of a Columbus avenue grocery store, was operating the car and escaped with lacerations of the hands and limbs and possibly a broken rib.

Miss Louise Marston was seriously shaken up and her right leg was lacerated and contused. The most seriously injured is Miss Katherine Sutherland of the Opera Chambers. She is at the City hospital in a semi-conscious condition, suffering from concussion of the brain and painful contusions on her hips. The surgeons fear a fracture of the skull.

The Back Bay police had been notified that the lights in the vicinity of Cumberland street were very dim but a few minutes before the accident occurred.

Made Mistake in Street

Mrs. Kenny thought she was turning into West Newton street, and threw on the high speed and cut out the muffler to climb the rise to the bridge across the New York, New Haven & Hartford railroad tracks. She turned her head to address her companions in the tonneau just as the automobile struck the wooden fence and crashed through the rotted boards as easily as if they were of pasteboard.

N. B. Whitcomb of 17 Cumberland street saw the automobile speed up as it swung in from Huntington avenue, and tried to intercept it. He said:

"I noticed the headlights were out just as the roar of the exhaust made me realize how fast the machine was going. I yelled, 'Hey! hey!' but the automobile flashed by me and I ran after it shouting. I was so excited I couldn't think of anything else to say. The street lights were dim, and I knew the lady running the car couldn't possibly see the fence until it would be too late to stop.

Was Fearful Crash

"There was a sound like tearing cloth, only louder, and the machine went through the fence, leaving a big place like a doorway.

"I heard the women shriek and there was a fearful crash. An instant later a train rumbled past, and I heard a second crash. The train stopped and the train crew came running back with lanterns. A crowd was coming down all directions and men were jumping down from the broken place in the fence to the tracks to get the women. The automobile had been carried over the first track by its momentum and landed on the second track from the embankment. The women had been thrown across the next track and lay unconscious. We thought at first they must be dead. If the fence had been stout enough to stop the machine, it was going so fast that the women would have been thrown over or against it and surely killed."

Whitcomb with E. R. Hall and Thomas Lyte of 31 Cumberland street and B. Van Oot of 21 Cumberland street lifted the unconscious women up over the embankment and through the broken fence by means of a step ladder. In the meanwhile Leland Crosby, a traffic manager for the telephone company, had telephoned for police ambulances from Whitcomb's home, and in a few minutes Miss Marston and Miss Sutherland were on the way to the City hospital. Mrs Kenney refused to go to the hospital and called for her husband in a hysterical manner.

Mrs. Kenney Taken Home

Dr. Powers of Massachusetts avenue found she was not dangerously injured and permitted her to be taken home in an automobile brought by Mr. Kenney from the Hotel Plaza.

Mrs. Kenney has been operating an automobile for six years, her husband told a reporter last night, and is considered a careful driver. She had taken her companions for a little spin, and they had gone around by Falmouth street to call for a friend. The friend happened to be out and thus escaped participating in the accident.

"I thought I was turning down West Newton street," said Mrs. Kenney, "and didn't see the fence until I was almost on top of it. I managed to swing around a little, and we seemed to go through the fence sideways. I saw the train coming as we shot through the air in front of it; then there was a crash when the machine struck, and I knew no more until they were picking me up."

Traffic Held Up

Traffic on the New Haven railroad was held up for some time by the wrecked automobile. Pieces of fence and chunks of glass from the windshield were scattered about the landscape near the end of Cumberland street. A wrecking train hoisted the tangled mass left of what had been an automobile onto a flat car and it was hauled away about 9 o'clock.

The railroad men said it was a miracle that the accident had occurred at a moment when one of the fast expresses did not happen to be racing along one of the two middle tracks. If the machine had gone over the embankment a moment later it would have smashed through the roof of one of the passenger coaches of the local train, killing the three automobilists and very likely derailing and wrecking the train.

It is said by residents on Cumberland street that automobiles frequently come down there at high speed, and because of the poor lighting fail to see the fence until almost too late to stop.

It is not alone the convenience, or the freshness, or the crispness, or the unusual food-value, or the digestibility, or the cleanliness, or the price, that has made Uneeda Biscuit the National Soda Cracker.

SAILED 200 MILES

Balloonists Made Trip in Eight Hours

PITTSFIELD, Oct. 9.—Wind-blown through the night under the beams of a full moon, two Massachusetts aeronauts, Jay B. Benton of Boston and William Van Sleet of this city, in the little balloon Boston, sailed down across Massachusetts, over Connecticut into New York, and thence across that state well into New Jersey yesterday morning, landing at Lakewood, N. J., shortly after 8 o'clock, having covered the 200 miles from Pittsfield in eight hours.

The trip was the longest ever made in the balloon Boston, which is of but 30,000 cubic feet capacity, and the most extensive trip made in or from New England the present year.

The aeronauts cut away from the Acro park at just midnight, and, rising to 2000 feet, found a favorable south current and floated away in the moonlight over the frost-tipped peaks of the Berkshires. Down over Lenox and then into Connecticut the balloon was driven before a light breeze which gradually swung the aeronauts to the west and into New York state. Soon the reflected moonlight sent up the gleam of water beneath, and the Hudson was seen stretching away to the south like a silver ribbon.

"Picked Up" by Steamer

Directly over the river an Albany-New York steamer sent its searchlight streaming into the heavens and "picked up" the balloon. For 20 minutes the powerful light was kept focussed on the aeronauts, which enabled them to read their instruments and exchange salutes with the ship pilot below. Yonkers was passed to the south as the Boston crossed the river and soon the lights of upper New York and then the Great White Way broke on the horizon as the balloon drifted farther southward.

Passing directly over Paterson, N. J., and then sailing down the New Jersey side of the Hudson, the airmen were treated to a magnificent panoramic view of the metropolis, the waters of the Hudson, the East river, the sound, and the far-reaching Atlantic gleaming like a silvered mirror, while the sky scrapers of the city cast deep shadows in the glare of the thousands of arc lights.

Climb 6000 Feet in Air

As the dawn broke and the sun came up, the Boston gradually mounted higher into the air until at 6000 feet a new current of wind was found which changed the path of the balloon to the eastward. It was but a short distance to the ocean, and with Long Branch showing up in the near distance the aeronauts valved their craft toward earth and came down easily in the middle of a wide road leading into the village of Sileam, just outside Lakewood.

Throughout the trip the mercury in the thermometer registered from 28 to 46 degrees, but traveling always with the wind and at the same velocity no discomfort was felt by the men in the basket. The balloon was packed up and sent to town in a farmer's wagon, and the Massachusetts men went to New York on their way back to Boston.

CONSPIRACY CHARGED

Pinkerton Detectives Are Accused by a Wealthy Canadian

MONTREAL, Oct. 9.—Because of the prominence of the persons involved and the unusual if not sensational nature of the testimony disclosed the keenest interest has been taken in Canada in the suit for $250,000 which David Russell has been pressing all week with vigor against the Pinkerton Detective Agency, charging that the Pinkertons were in a conspiracy to put him in an American insane asylum, and, this failing, to lodge him in a Canadian sanitarium. According to Russell, the scheme was to get him out of the way because he had threatened to sue the Pinkerton agency, believing that its officials had deceived him while in his employ.

Prominent People Named

In his efforts to prove this conspiracy Russell has produced evidence in which the names of many well known Canadian railroad and financial men and American lawyers and alienists have figured. Sir Donald Mann, president of the Canadian Northern and one of Canada's big railroad builders, has been mentioned by Russell as in some way connected with the case. J. N. Greenshields, well known in Canada, is being sued by Russell for $1,250,000 as the result of a land deal in Northwest Canada, and Russell swore on the stand that it was his belief that the conspiracy was conceived because of the land suit and he suspected that Greenshields was behind the plot. This Mr. Greenshields denied most positively.

In order to get him out of the way, Russell charges that men in his employ deserted him and that an attempt was made to induce members of his family to become parties to the scheme to have him declared insane.

Deputy Supt.

George Dougherty, then superintendent of the Pinkerton agency in New York, and now a deputy police commissioner, has been directly implicated by Russell. Serious charges have been made against Dr. T. R. Roddick, one of the best known of Montreal physicians, former dean of the McGill medical faculty, and ex-member of parliament from the St. Antoine division, Montreal. Two of Russell's witnesses have been Dr. Carlos F. MacDonald and Dr. William B. Pritchard, who were of the group of alienists employed by District Attorney Jerome in the Thaw trial. In substance, their testimony was that they were informed that Russell was insane, but when they were acquainted with the particulars as to the manner in which his examination was to be conducted in a room in the Hotel Manhattan, New York city, they would have nothing to do with it.

There has been a great array of legal talent and the trial has excited much interest here and in England, to which reports of it have been cabled. Russell is represented by Donald Macmaster, who came from England for the trial, and T. Chase Casgrain and George A. Campbell. The Pinkertons have Aime Geoffrion and K. R. Macpherson. W. R. Shaughnessy, son of Sir Thomas Shaughnessy of the Canadian Pacific, also represented the Pinkertons in certain phases of the investigation.

Back of the present litigation there is a story that several years ago Sir Donald Mann and Sir William Mackenzie, Mann's associate in railroad building, were partners with Russell in a Canadian land deal. Greenshields is also said to have had something to do with the deal. Russell fell out with his associates or they with him, and as a result suits were threatened.

The total amount involved is said to have been $1,800,000, and Sir Donald Mann and Sir William Mackenzie, rather than get mixed up in court proceedings, paid Russell about $600,000. As to the participation of Mann and Mackenzie in the land deal there has ben only a hint at the trial, but it is on record that Russell has a land suit for $1,250,000 against Greenshields.

Russell has been one of Canada's picturesque figures. He is now about 42, and 20 years ago he was a shipping clerk at St. John, N. B., at a salary of $15 a week. His fortune is now estimated at between $10,000,000 and $15,000,000. He has been a promoter essentially, but he also has acquired a good deal of his wealth in land and other forms of speculation.

HOW TO TREAT PIMPLES

It is truly remarkable how Cadum, the new remedy, causes pimples to disappear. Bad cases are frequently relieved in a week, and often in even less time. Cadum causes pimples to dry up and fall off, leaving the skin soft and smooth. Pimples are a disease of the skin, and not caused by bad blood, as many people suppose. Cadum acts upon these annoying and disfiguring blemishes, because it can be applied direct to the trouble. Its remarkable soothing, antiseptic and healing powers relieve the itching at once. Cadum is just as efficacious in other skin troubles, such as blackheads, blotches, rash, eruptions, eczema, chafings, etc. 10c and 25c. Sold by all druggists.

MAN SHOT HIMSELF

He Was Found Near His Parents' Graves

HOLYOKE, Oct. 9.—Alphonse Wespieser, aged 40, of 620 South Summer street, shot himself just under the left temple while seated at the graves of his parents in Calvary cemetery shortly after 5 o'clock yesterday afternoon, dying at 9 o'clock at City hospital as the result of his wound. He used a 32 calibre revolver.

The suicide is believed to have been due to despondency. Wespieser was discharged last Friday afternoon from a local mill, where he had been employed for some time. According to persons residing with Wespieser at the boarding house at 620 South Summer street, he apparently slept as usual on Saturday night and showed no indication of suicidal purpose.

He left the boarding house at 3 o'clock yesterday afternoon and evidently went directly to the cemetery, climbed over a railing that surrounds the graves of his parents and seating himself pulled the trigger of a revolver.

Mr. and Mrs. Dennis Damon of 736 High street heard the shot and after a search discovered the body. The police were notified, and Sergeant William Blackmer was sent with the hospital ambulance. Dr. John C. Shine attended the wounded man and said at once that the wound was fatal.

Wespieser was unmarried and leaves two sisters, Catherine of Easthampton and Mrs. A. Grunwald of Springfield, and three brothers, Antone of Willimansett, Alfred of New Bedford and Charles of Lawrence.

OBSERVATORY BURNS

The Blaze Seen for 10 Miles or More

MELROSE, Oct. 9.—The burning of the observatory on Mt. Hood here, between 7 and 8 last evening, made a very spectacular blaze that was seen by residents on elevated ground in towns and cities for 10 or more miles around.

The observatory was a skeleton affair on a stout stone base, built for the benefit of the general public in the midst of a wooded area about seven years ago by John F. C. Slayton, alderman in this city, who owns the territory on which the structure stood. It afforded one of the finest views to be had within many miles of Boston, being about 40 feet in height and standing on an elevation of more than 200 feet above sea level.

The police theory of the cause of the fire is that somebody dropped a lighted match or cigarette during the afternoon somewhere in the vicinity, and that the resulting fire smoldered for hours in the dry leaves and grass and finally reached the observatory itself.

A young man who visited the tower about 4 o'clock says, however, that there was a considerable quantity of hay on the steps and landings of the structure, which several boys were throwing about, and that about 20 feet away a fire was burning on a rock.

Quite a number of persons found their way with lanterns to the top of the hill to watch the fire, and the auto chemical from the house of Hose 3 went up, but was unable to accomplish any good when it reached there. The observatory cost about $1000.

The hill gets its name from Wendell Phillips Hood, a Grand Army veteran, now of Peabody, who formerly owned the property and who had an observatory there, which was replaced by the Slayton structure.

PROPRIETOR GRADY

Entertained Clerks at the Outlet Store

Last week among the business changes in this city was that of the Outlet Dining Parlors. Mr. J. W. Grady, the new proprietor, took possession last week and Saturday evening after its business had been completed the place was turned into a gay and festive quarter and Mr. Grady gave a social hour to his employes and his intimate friends, and one of the best banquets that could be prepared was immediately spread and justice was done to the good things placed

J. W. GRADY.

before them, and if that first banquet is any criterion, Mr. Grady's success may be said to be assured for he certainly did provide a palatable spread. After all had partaken, chairs were pulled back and cigars lighted and an impromptu concert had been arranged and song and story and a social hour was pleasantly spent. Mr. Grady has a very popular and attractive establishment, even in its present condition, but if he carries out his intended changes there will be nothing this side of Boston that will come anywhere near it. He intends to utilize every inch of floor space, and later he intends to build an additional dining-rooms, having already either leased or got consent of the owners of the property, and the results of his efforts may show an additional building of not less than five stories, where there will be a series of private dining rooms which will be beautifully arranged and where meals will be served. Everything is to be under the general supervision of Mr. Grady. He has a very worthy and able assistant manager in the person of Mr. John F. Powers, who hails from Boston and is a top notcher in dispensing carbonated drinks. Cleanliness, comfort and prompt attention are Mr. Grady's stronghold. Everything is kept scrupulously clean at all times. In the manufacture of his ice creams none but pure fruit flavors from the best quality of fruit will be used. With this skilled corp of assistants patrons will be served in the best possible manner. Mr. Grady has no limit of confidence and energy and with his ambition and desire to succeed it seems that he cannot but succeed.

The following people will have charge of this popular restaurant:

Miss Elizabeth Ready, candy table; Miss Mary Curry, first cashier; Miss Anna Donoghue, ice cream parlor; Miss Agnes Walsh, waitress; Miss May McCoy, first candy clerk; Marion G. Ready, bookkeeper for Mr. Grady; Miss Margaret Ready, second cashier; Miss Olie Biscornet, tea room; E. Bedard, first cigar clerk; Edward Coulan, ice cream deliverer; Benjamin Brady, first helper; Walter Crompton, ice cream maker.

PURITY STRENGTH PERFECTION

A STRONG OPPOSITION

To the Reorganization of the American Tobacco Company

NEW YORK, Oct. 9.—Every branch of the tobacco industry will be represented in the opposition which the American Tobacco Co. must face this week in striving to gain the approval of the United States circuit court for its plans of reorganization. After several delays the tobacco trust attorneys expected to submit their plan to the court this afternoon and the position of the independents will not be fully revealed until they find just what they must face.

NEW SKIN ABSORBER IN GREAT DEMAND

(National Drug Review)

Since the discovery that mercolized wax possesses remarkable absorbent powers when applied to the skin, the demand for it as a complexion renewer has been tremendous. Druggists in every section report sales as far exceeding those of anything similar they have ever had on their shelves.

The mercolide in the wax, according to Prof. Heffman, gently absorbs the devitalized cuticle, in minute particles, so that the user gradually loses her old, worn-out complexion, the more youthful under-skin taking its place. Cutaneous eruptions, blotches, moth patches, tan and freckles are of course removed at the same time. As mercolized wax is entirely harmless, and easy to use, women all over the country are purchasing and using it to quickly rejuvenate their complexions. The wax is applied to face, neck or hands the same as cold cream, allowed to remain over night, then washed off with warm water.

The cigarette manufacturers are the latest recruits to the opposition which the independents say includes also the cigar manufacturers, leaf dealers, cigar box manufacturers and the organizations of the union and the non-union cigarmakers. Until the reorganization matter came definitely before the court the independents seemed uncertain of their position. They did not know just how much voice the circuit court judges would allow them in settling the question.

"We realize that it will not be enough merely to attack the plan proposed," said John W. Sturburg, leader of the independent cigarette men. "We must be able to suggest something that is workable in its place. Whatever is done now, I understand, it will be under the protection of the court so that if a mistake is made we shall have legalized monopoly with no chance of relief, which will make matters worse than they are."

WORK RESUMED

IN THE FALL RIVER IRON WORKS MILLS

FALL RIVER, Oct. 9.—After a shut down of nine weeks, caused by a curtailment policy, 5000 employes of the Fall River Iron Works seven mills resumed work today. The works are controlled by M. C. D. Borden of New York, the largest manufacturer of print cloths in the world. Officials of the company state that the plant will run continuously until further notice. Resumption of work is expected to increase the amount of active machinery at the American Printing Co.'s works which are also controlled by Mr. Borden.

THE LOSS IS $8000

Music Hall Building in West Medway Burned

WEST MEDWAY, Oct. 9.—This town met with a serious loss yesterday morning when the Music Hall building, a three-story structure, was gutted by a fire that for a time threatened the whole section of the town. The building contained the postoffice, two stories, the headquarters of the local organizations of the I. O. O. F., the Rebekahs and the Grange, and a large amusement hall.

The sounding of a double alarm at 5.20 yesterday morning woke the entire population. Postmaster Woodman, one of the first to arrive at the scene, opened the postoffice and rescued the mail. The local fire department soon arrived, but seeing that the fire threatened the neighboring buildings, the chief sent in a call for the Medway department.

For nearly an hour seven streams of water were poured into the building, and gradually the progress of the blaze was checked. The loss is estimated at $8000 and is partially covered by insurance.

IN THE CHURCHES

The 91st meeting of the North Middlesex Congregational conference of Unitarian and other Christian churches is to held in Westford on Thursday, Oct. 12. The conference includes societies in Ashby, Ayer, Chelmsford, Dublin, N. H., Francestown, N. H., Groton, Littleton, Lowell, Milford, N. H., Nashua, N. H. Pepperell, Peterboro, N. H., Shirley, Stow, Westford, Tyngsboro, West Townsend, Wilton, N. H., East Wilton, N. H. Rev. George C. Wright of Lowell is the secretary of the conference and Rev. C. T. Billings, also of Lowell, is chairman of the committee on missionary work. The program:

Order of morning services: 10, hymn and prayer; 10.15, reading of the minutes, new business; 10.30, "The Men and Religion Movement," Rev. Albert Lazenby, Lynn; 11.10, discussion; 12 m., devotional service, conducted by Rev. Oliver J. Fairfield, Littleton; 12.30 p. m., dinner. The King's Daughters

The morning service at the First Baptist church yesterday was devoted to the interest of the work of the King's Daughters. A quartet from the church rendered three selections and in the absence of a speaker who was assigned to address the members, Rev. Mr. Cummings spoke about the aims and accomplishments of the society. The pastor also began a series of talks to the children, the plan being each Sunday morning to devote five or ten minutes to the younger people.

The Sunday school is getting into regular swing again, having an attendance of 535.

Miss Ida Wilson has been engaged as contralto in the choir and will begin service next Sunday.

BEER WAS SEIZED

RAIDERS MET OPPOSITION AT A CHRISTENING PARTY

BALDWINSVILLE, Oct. 9.—Constables Robert M. Auringer of Baldwinsville and Thomas F. Sullivan of Otter River, assisted by Elisha Brown and George T. Lovewell of the liquor committee and William E. Keeper, raided the home and meat market of Ignacy Micklewicz on Fisher street yesterday afternoon, where a christening with about 50 people in attendance was in progress.

After removing two kegs of beer and two quarts of whisky from the house, one of the women in the party appeared outside with a meat cleaver and attempted to knock the bung out of one keg, while another woman, armed with an ax, started to knock the head out of the other, it is claimed.

The officers decided to get more aid in order to properly handle the situation, and secured Alanson B. Paine, Geo. A. Carkin and Arthur Bickford of Baldwinsville and also telephoned Chief Shay of Gardner, who responded with Officers Moran, Burns and Waxlax.

When the Gardner officers arrived the raiders all entered the building together and after a scrimmage, in which the furniture was broken, a stove knocked over and dishes broken, what was left of the wet goods was seized and two members of the christening party, whom the officers say took a leading part in the mixup, were arrested and taken to the Gardner lockup.

STRUCK BY CAR

BOSTON MAN IS NOT EXPECTED TO LIVE

HOLYOKE, Oct. 10.—William Joyce, said to be a Boston magazine employe, is at City hospital with a fractured skull and other injuries, from which he may not recover, as the result of being struck by an electric car on Dwighe street at midnight.

Joyce boarded a car, an open one, from the wrong side and before he could climb under the bar a car on the other track struck him and knocked him to the ground.

Joyce was visiting in Holyoke and the authorities have been able to learn but little about him.

HEAD-ON COLLISION

One Engineer Reported to be Missing

ROCHESTER, N. H., Oct. 9.—A head-on collision between two freight trains on the Worcester, Nashua & Portland division of the Boston & Maine railroad took place between this city and Epping today. No one was injured but it was reported after the wreck that the engineer of one of the trains was missing.

Both locomotives were practically demolished in the crash and both trains were doubled up. The cause of the accident will be determined by an official investigation.

BIG CARNIVAL

WAS OPENED IN CAMBRIDGE THIS MORNING

CAMBRIDGE, Oct. 9.—This city today began the most eventful industrial and commercial week in its history. The Cambridge Industrial carnival was ushered in with clear weather and a smiling sun and indications point to a successful affair. The city is gayly decorated in honor of the occasion and among the attractions arranged are band concerts, vaudeville and an old time fair.

When Nerves Need Fixing

"THERE'S A REASON"

LOOK BACK TO THE CAUSE, for one can never get well until the cause of sickness is removed.

Perhaps it's the drug, caffeine, grown in coffee.

That thing which makes the heart of the coffee drinker flutter and fail; also slowly breaks down the nerves in many people (not all).

If you are one of the many affected by coffee, and really want to get well, suppose you leave off the drink which has caused the trouble, and take on well-made

POSTUM

for the morning beverage. In a few days you may discover why—

"THERE'S A REASON"

WORRY

A Sure Starter for Ill Health

Useless worrying (a form of nervousness) is indirectly the result (through the nerves) of improper feeding. A furniture man of Memphis says:

"About a year ago I was afflicted with nervous spells, would worry so over trivial things.

"I went to consult one of the best physicians in Memphis and he asked, among many questions, if I drank coffee.

"His advice was: 'Go to some provision store and get a box of Postum, drink it in place of coffee and as you are confined to your desk to a great extent try and get out in the open air as much as possible.' I followed his instructions regarding the Postum.

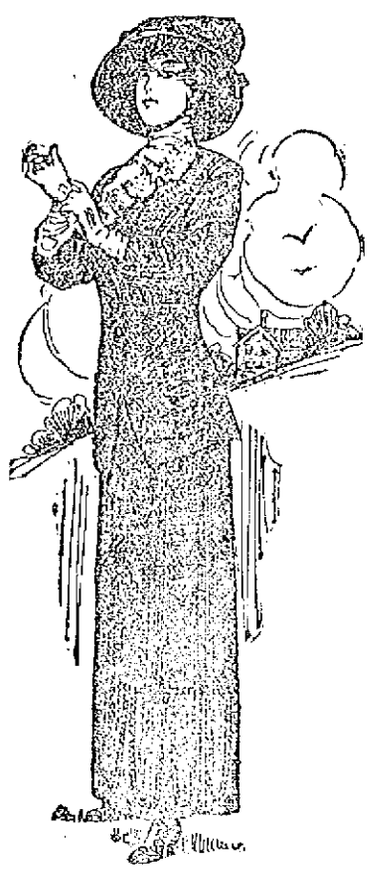

"At that time my weight was 142 and I was taking all kinds of drugs and medicines to brace me up but all failed. Today I weigh 165 and all of my old troubles are gone, and all the credit is due to having followed this wise physician's advice and cut off the coffee and using Postum in its place.

"I now consider my health perfect and that it is all due to my having used Postum in place of coffee." Name given by Postum Co., Battle Creek, Mich.

There's a reason for quitting the drug-drink coffee, and there's a reason for drinking Postum. Trial ten days proves them all.

NUMBER OF OFFENDERS

Made Their Appearance in Police Court Today

Lowell is fast losing its reputation as a spotless town for there was a large attendance of offenders in police court this morning. Besides persons who were in for more serious offenses there were 17 drunken offenders. There were 33 arrested for drunkenness from Saturday afternoon up to early this morning, but of that number Probation Officer Slattery released 16.

Stole Pair of Shoes

Joseph Rancour pleaded guilty to a complaint charging him with the larceny of a pair of shoes and one dollar in money, the property of Elzear Vezina, and was sentenced to four months in jail. According to the testimony offered Vezina was under the influence of liquor on the 27th of September and while lying on his door steps in Lakeview avenue, Rancour stole the shoes which were on his feet and a dollar bill out of his pocket.

He reported the matter to the police and stated that he suspected Rancour. Yesterday Rancour was arrested for drunkenness by Patrolman Breault and Vezina was called to the police station to see if he could identify the shoes. When Vezina saw the shoes he claimed they were his and when asked why he was so positive he mentioned a peculiar number which was on the lining inside and when the shoes were examined the number he mentioned was there.

Threatened His Wife

Mrs. Alice Boisvert, a pretty young woman, the bride of but five weeks, had her husband, George, before the court this morning on a complaint charging him with having threatened her. She told a very pitiful story and after Judge Hadley had listened to her he found the husband guilty and ordered him to furnish bonds in the sum of $100 to keep the peace for six months.

Mrs. Boisvert said she was married five weeks ago and that a week ago Saturday she found her husband going to Providence with another woman. She followed him to the depot and just as he was about to board the train she grabbed him by the coat and pleaded with him not to leave her. He told her to take her hands off his clothing or he would strike her and when she refused to do so he struck her and said he would kill her, she testified.

Continued For a Month

The case of Peter Frazer, charged with neglecting three of his minor children, was continued for a month in order to see if he would do better.

Disturbing the Peace

Joseph Picanso and Frank Silva were charged with drunkenness and disturbing the peace and after being found guilty each was ordered to pay a fine of $10. Patrolman Garrity testified that while he was passing through Elm street about 9 o'clock last night his attention was attracted to a crowd which had gathered in the street and, upon making an investigation he found the defendants striking blows at each other. He placed them under arrest and sent them to the police station.

Denied Being Drunk

Jacob Smith was charged with being drunk, but he denied the allegation, claiming that he had had but one drink of whiskey and that quantity would not make him drunk. Patrolman O'Brien testified to having arrested the defendant in Williams street about 4 o'clock yesterday afternoon. The arresting officer said that Smith was staggering drunk and Inspector Grady of the liquor squad corroborated his testimony.

Had Many Names

When James Rooney was arrested for drunkenness yesterday he gave the name of Sweeney. This morning before the opening of court he said his true name is Rooney. He pleaded guilty to having been drunk and a fine of $6 was imposed.

Raised a Rumpus

Maurice O'Connell was raising a rumpus at his home yesterday and his wife sent for Patrolman Considine and the latter placed the man under arrest. In court this morning O'Connell was charged with being drunk and after he had entered a plea of guilty he was sentenced to three months in jail.

Sunday Drunks

John A. Sullivan, Alexander Morin, Joseph Thibodeau and Eugene Flaherty, Sunday drunks, were found guilty and each ordered to pay a fine of $5.

Other Drunks

John J. Mahoney, Michael F. O'Neil, Henry L. Noyes and Edward Clark, second offenders, were fined $6 each.

Joseph Buckley's condition was such that Judge Hadley decided a little vacation would benefit him and accordingly he sentenced Buckley to ten days in jail.

John Joseph and Maxziani pleaded guilty to being drunk. Fines of $3 were imposed in each case.

CATHOLIC CHURCHES

An Addition to be Made to Grotto on Orphanage Grounds

The Catholic people of this city will soon have what is seen in many cities in Canada, and what is seldom seen in this country, and that is a calvary, which is soon to be erected on top of the grotto of Our Lady of Lourdes on the grounds of the French-American orphanage in Pawtucket street.

The work on this special piece will be started in a couple of weeks and it is expected will be finished by the early part of spring. It will be constructed of cement and according to plans will be an artistic monument.

The cement to be used in the entire construction of this calvary was donated by a parishioner as a token to the Blessed Virgin for a favor obtained recently through her intercession.

The grotto is now about 40 feet high and the calvary will be built over it and will be 15 feet in height. A cement stair will run from the ground to the top, where statues of Christ on a cross, the Virgin, Mary Magdelene and St. John will be placed. At each step of the stair will be placed a station of the cross, these stations to be of a very artistic design. The first station has been given by a parishioner, and many others have signified their intention of donating the other stations.

The shrine is the scene of many large gatherings, for every afternoon of the week as well as Sundays, hundreds of people may be seen kneeling in prayer in the pews opposite the grotto.

This calvary will be a great improvement to the place and there is no doubt that the news of its construction will be well received by all the Catholics of the city, as the place is opened to all.

Sacred Heart Holy Name

Yesterday was quarterly communion day for the men's Holy Name society of the Sacred Heart church. At a mass celebrated at 7.30. Fully 300 men assisted and received holy communion. After their thanksgiving they repaired to their quarters in the new school where a plentiful and appetizing breakfast was served. Cigars were afterwards enjoyed while several members of the society were called upon to display their entertaining talent in the form of a musical and literary program. The principal feature of this was a carefully prepared and thought-provoking paper on the "History of the Textile Industry" by Mr. James Maguire. While the lecturer dealt chiefly with the past progress of this industry he also outlined the advances which the near future must bring and pointed out the grand opportunities which await those who are equipped with a scientific knowledge of textile work. He counselled the younger element among his audience, to consider this excellent field of endeavor when choosing their life's work. Throughout the program Broderick's orchestra interspersed sweet music.

At the executive meeting over which the vice president, Mr. Thomas Green, presided, reports were received and accepted from the various standing committees. That in charge of the Holy Name reunion table reported great progress and announced a minstrel show and sociable for Hallowe'en. It was unanimously voted to accept the invitation of the Knights of Columbus to participate in the Columbus day parade and a committee was appointed to make all necessary arrangements.

The meeting was adjourned until Tuesday evening, October 10th at 7.30. The same evening the Holy Rosary, the Children of Mary, and the Holy Angels sodalities will also meet in the new school to further plans for the parish reunion to be held Thanksgiving week. On Friday evening next the members of the Sacred Heart table will assemble for the same purpose.

St. Peter's Church

Rev. W. George Mullin was the celebrant of the parish mass at St. Peter's church and Rev. Daniel J. Heffernan preached a most instructive sermon on the gospel of the day. Before the sermon, Rev. Fr. Heffernan in announcing the solemn high mass for Columbus day, spoke briefly on the significance of the occasion, and what it meant to Catholics. He wanted to see every Catholic man in the parish Holy Name society in line on that day, for mankind in general even at this late day, he said, should honor the memory of the great Columbus, for his daring exploits in discovering this western world. The reverend gentleman referred to the fact of the day being set apart as a legal holiday in Massachusetts and exhorted the members of the Knights of Columbus and the Holy Name society to turn out to a man and assist in making the day's celebration a creditable one.

The Holy Name society met last evening and discussed the plans for the parade. It is confidently expected that the representation from the organization will be very large. Rev. John F. Burns, spiritual director is in charge of the arrangements, assisted by President Lyons and the other officers.

The special sermon at St. Peter's Columbus day will be very impressive and a feature will be the musical program. The regular choir will be augmented, while the vested choir will also assist. Rev. James H. Quinn, O. M. I., who is to deliver the sermon, is an eloquent pulpit orator, who is well known in Lowell. He is a brother of Justice Joseph F. Quinn of the superior court.

Immaculate Conception Church

At the Immaculate Conception church next Sunday, the full arrangements for the opening of the church will be announced from the pulpit. The church which is now a beautiful temple will be reopened on Sunday, Oct. 29, and a distinguished clergyman has been engaged to preach the sermon on this special occasion.

A great deal of satisfaction is being felt by the parishioners of the Immaculate Conception church over the recent changes of the Sunday school. Now the children who attend the public schools are being taught by the sisters, and this change was very much approved by the mothers of these little ones.

STATE INSPECTOR

Came Here to Measure Flow of Sewage

An inspector from the state board of health, a Mr. Brown, came to Lowell today to measure the flow of sewage emptying into the Merrimack and Concord rivers in this city. This information, it is understood, is being gathered for the purpose of completing a report to be made by the state board.

City Hall Meetings

Meetings at city hall tonight will include special meetings of both branches of the city council, street lighting and fire department committees and committee on arrangements for Columbus day. The water board is scheduled to meet, too.

Board of Health

The board of health has asked the opinion of the city solicitor as to the board's right to seize land by the eminent domain process for the purpose of establishing public sanitaries.

Board of Registrars

The office of the board of registrars will be closed on Thursday, Columbus day, and there will be registration at the regular hours on Friday and Saturday.

CROWD OF 40,000

Expected at New York-Athletics Game

NEW YORK, Oct. 9.—Special policemen are standing guard today at the offices of the National League baseball club and turned away thousands of seekers of tickets for the championship series beginning next Saturday. Within the offices, Secretary Gray and half a dozen assistants waded feverishly through the flood of orders. The tickets, it is said, will be distributed tomorrow and Wednesday. Five thousand persons, it is estimated, have been turned away from the office. In each case the ticket-seeker was told to mail his order with a certified check or money order accompanying it. No money has been taken in at the headquarters, nor will there be until Thursday when the advance sale of remaining seats begins. Secretary Gray said today that he thought about 40,000 persons would squeeze into the new stadium at the Polo grounds next Saturday. The men are in tip top condition, he said.

MILK LAW VIOLATION

Is the Charge Against a Dracut Milk Dealer

The case of Frank L. Peabody, a milk dealer of Dracut, charged with having violated the milk laws by adding water to milk, which was opened Saturday morning in police court was resumed before Judge Hadley this morning at the conclusion of the disposition of routine matters.

The case is one of the most important relative to alleged violations of the milk law that has been brought to the attention of the local court for a long time. The government's contention appears to be that Mr. Peabody, after receiving the samples of milk from the collector of the milk inspection department forced the corks and seals out of the bottles and substituted a higher grade of milk and that he had Chemist Dennett of the high school analyze it and that the samples were different from those analyzed by Milk Inspector Master. In order to prove its contention the government brought an apparatus into court and showed that it was possible to remove the cork and seal and recork and reseal the bottle.

Fred Stowell, a driver for Mr. Peabody, who was on the stand when court adjourned Saturday, was recalled when the case was resumed shortly after 11 o'clock this morning.

In answer to questions asked by counsel for the defense the witness said that the samples of milk were taken from his wagon between 4 and 4.30 o'clock. It was dark at the time, he said, and he placed the samples in a little box in the cart. When he got back to Mr. Peabody's barn he put the samples in an ice chest.

"I have not touched the samples since then," said witness, "neither have I seen them. I was present when the milk was put in the cooler in the barn in the morning." The witness then explained the method of mixing the milk in the cooler.

On the morning in question witness said twenty-three cans of milk were put in the cooler and he took five cans out of the bottom and put them through the top. He said that the milk remained in the cooler about 15 minutes.

In conclusion the witness said he never saw any water added to the milk.

Thomas Lagasse

Thomas Lagasse, a milkman, said he filled and washed his bottles in Mr. Peabody's place. Witness purchases his milk from another dealer and takes it to Mr. Peabody's place and uses the latter's mixer. He pays Mr. Peabody for the use of the stable and apparatus. He never saw Mr. Stowell add water to the milk.

Oscar Bouneau, who works for Mr. Lagasse said that his work consists of going into the country to get the milk for his employer. Never saw any water put in the milk at Mr. Peabody's.

Rosario Vezina, who was in the employ of Mr. Peabody, said his duties consisted of collecting milk in Pelham and taking it to Peabody's barn. Witness never saw any water added to the milk.

Mr. Dennett Testifies

William W. Dennett, teacher of chemistry at the Lowell high school was called. Witness took a four years' course at Harvard university and made a specialty of chemistry. He said that Mr. Peabody called on him with samples of milk and he analyzed three of the samples on September 23. He analyzed three other samples on Oct. 2. Two samples he did not analyze because he said Inspector Master had told him that the chemical standing was all right.

Mr. Dennett then went on to testify as to his method of making the analysis. He used the refractory test for the purpose of finding presence or absence of water.

He then told the result of the analyses.

He said he found no water in the milk and thought it was a good average milk.

He said that he found traces of sodium carbonate in all the samples, and when questioned said that sodium carbonate might be used for washing bottles.

On cross examination witness was questioned relative to the state of the corks in the bottles and the manner in which they were seated and said he could not swear that if a sealed bottle was placed in boiling water that it would be possible to blow the cork out of the head of the bottle.

With the permission of the court Inspector Master brought forth a tripod iron stand on which he placed a can containing water. Then by using a gasoline torch to get the water to a certain high temperature a sealed bottle was placed in the water and the flame again directed against the can and in a short time the wax around the edge of the bottle started to melt and the cork started to leave the bottle. Two experiments were made and then the bottles were recorked and sealed by a slight pressure of the thumbs.

John A. Osgood testified that he is a member of the board of health and that at a certain recent meeting said he had not been in the milk room five or six times in a year.

Agent Bates and Inspector O'Hare of the board of health were to be called as witnesses but when it was admitted that they would testify to substantially the same as did Mr. Osgood, they were excused.

The testimony was concluded shortly before one o'clock and arguments started. In the afternoon session the defendant was found guilty and a fine of $50 was imposed. He appealed.

Barbour Prefers Jail to Paying a Fine

BOSTON, Oct. 9.—"I will go to jail before I will pay a fine," said William Barbour of New York, one of the directors of the United Shoe Machinery Co, shortly after pleading not guilty in the circuit court today to an indictment similar to that returned against his co-directors charging violations of the anti-trust law. Mr. Barbour furnished the $10,000 bail.

MATRIMONIAL

The marriage of Mr. Henri Boissonneault and Miss Eva Goulet was performed this morning at St. Jean Baptiste church. The ceremony took place at a nuptial mass celebrated at 7 o'clock by Rev. Fr. Amyot, O. M. I., and the attendance in church was very large. The young couple were attended by Messrs. Moise Boissonneault and Joseph Goulet.

GEOFFROY—GAGNON

Mr. Maxime Geoffroy and Miss Flora Gagnon were united in the bonds of matrimony this morning, the ceremony being performed at St. Joseph's church. The officiating clergyman was Rev. Fr. Paquette, O. M. I., and the knot was tied at a nuptial mass celebrated at 7 o'clock. The witnesses were Messrs. Maxime Geoffroy and Francois Gagnon.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1910 was

15,976

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before me, January 2, 1911. J. JOSEPH HENNESSY, Notary Public.

Considerable interest centers in the visit to this city of the son of the great novelist, Charles Dickens, who visited our city in 1841. Lowell has grown rapidly since then, and we assume the son will be more favorably impressed with the Lowell of today than was his father with the younger city.

If Senator Stephenson were a democrat we should hear a great hullabaloo from the republican press over the fact that he spent $107,973 for campaign expenses, mostly for beer and whiskey. After all, if United States senators debauch the electorate in this way we do not see where the advantage of their popular election would come.

GREAT FEAT OF WIRELESS

A great victory for wireless telegraphy was scored when a message was sent from San Francisco to Japan, a distance of 6000 miles. This exceeds the wildest assumption ever dreamed of for the possibilities of Marconi's discovery. In the near future we shall be able not only to send an electric message around the world but through the world. It was considered a wonderful feat when America spoke to Europe without wires, but this wireless conversation between Frisco and Japan doubles the distance and is the greatest victory yet for the wireless.

UNDERTAKER, MORTICIAN OR MORTUIST

The annual convention of Embalmers at Syracuse, N. Y., recently started a movement to call the undertakers "morticians" instead of their present title. What has happened to bring the "undertakers" into disrepute, or we may ask when did it become necessary to have anybody "mortice" the dead? This is the meaning the word, judging from its form, would convey just as "optician" means one skilled in the science of optics. Surely it would not be correct to speak of a "mortician" as one skilled in the science of death or of dying. If the learned professors who favored the change considered the derivative customs of the English language, they would suggest "mortuist" or "mortuary" instead of "mortician."

GIVE US PURE DRINKING WATER

The people of Lowell have had their patience sorely tried by the quality of the city water during the last four or five months. The city water supply had been reputed as of first class quality until something happened to make it the worst water we have ever had. What that something is there has been no satisfactory explanation, and it seems that there is no attempt to provide a remedy. The water board, it seems, is depending upon the winter weather to purify the supply, although what this result will be there is no certainty. The people of Lowell have had a great deal of damage done to their laundered clothes, many garments having been spoiled completely by the muddy and rusty water. What effect the drinking of this rust and mud will have upon the public health can never be really known, but it certainly must be very injurious.

Those who have meters in their homes will find their water bills very much higher this season on account of the large amount that must be run off to get rid of even a part of the rust and mud. That is, however, one of the least important impositions upon the public. In view of the millions of dollars that have been invested in the water works is it not fair to ask why the department does not make some effort to give the city better water than is supplied at the present time? It is reported that the wells run short on account of the drought. How long will it take to meet this emergency assuming that it is true? Does the water board suppose the people of Lowell are satisfied to go on drinking this impure stuff indefinitely, or does it imagine that the people want to wait until the new reservoir be built? The situation calls for prompt and definite action with a view to giving the city pure water. There has been enough money expended to provide a thoroughly pure and abundant supply that will be permanent, not periodical. We want a water supply that will be good in summer as well as in winter, and it is about time the water board set about giving it to us without further delay.

THE WAR

The Italian flag now floats over Tripoli, and the province hereafter will be governed by Italy instead of by the unspeakable Turk. There is reason to believe that in conquering Tripoli, Italy did not seek any wanton destruction of life and poverty. No friend of humanity will sympathize with Turkey in the blow thus inflicted upon her by Italy. She has long deserved a castigation even worse than this. When she massacred the Armenians and the Albanians and many defenceless peoples the appeals of the civilized world were in vain. It is only a just retribution now that her appeals to England and other powers for intervention are in vain.

Italy did not enter into the war without provocation. For years the Italians in Tripoli have been abused and even persecuted by the Mohammedans in control. It would be a good thing if some of the other powers now proceeded to capture additional territory, and thus drive Turkey out of Europe for all time. Turkey has been the stumbling block of European civilization for centuries, and it is time that she were driven back into Asia.

It is quite likely that in the near future the European powers will redistribute the territory in the north of Africa so that each may have a more liberal portion than at present. The colonization and development of northern Africa will receive greater attention from the European powers in the near future than it has done in the immediate past. The present war between Italy and Turkey has created fresh interest in Africa, and the powers will eagerly watch every opportunity for taking a slice of Turkey's territory after the example set by Italy.

Austria and Germany are not pleased with the manner in which Italy has set out to grab territory in North Africa. Germany wanted to do a little grabbing in that region quite recently but was promptly estopped by France. If Germany interferes there will be others. England will have something to say also, and hence it is not likely that any intervention will come except from a concert of the great powers.

It is strange to see the number of gray squirrels that roam around the Lowell cemetery in Lawrence street. Yesterday I was walking by the burying ground, when down a tree came a gray squirrel of the finest specimen. The little creature placed itself right opposite me on the other side of the fence and, looking me straight in the eyes, seemed to dare me with its looks. I stood there for some time watching the cute little animal, thinking how cruel it must be to injure it, and during my thoughts the squirrel kept nibbling at acorns found here and there on the lawn. After a while the squirrel hopped away to a nearby pool of water and after quenching its thrist, it climbed up a tree and disappeared with a chirp as though bidding me goodby.

CITY RESTAURANTS

The restaurants are run all wrong.
They all are, everywhere!
Where'er you go, you're sure to find
The same old bill of fare.
While, heaven knows, the wretch who must
Each day his meals repeat
At restaurants forever yearns
For something new to eat!

That bill of fare! How well we know
Its steaks, its chops, its fish!
To casual diners, it might seem,
It's all that man could wish;
But seen, alas! day after day,
How soon its offerings pall,
Until—poor wretch!—you find you have
No appetite at all.

The table-girl, resignedly,
Stands at your side, and waits
For you to choose, where all repels
And naught desire creates.
In all the columns you run through,
There's nothing to awake
Your interest, and so you say:
"Oh, bring a fat-edge steak!"

Some day I'LL start a restaurant,
And run it just my way.
I'll have six novelties put on
The bill of fare each day;
And people then will only have
To tell the waiter which—
Which they will do with joy and glee,
And I shall soon be rich!

It only makes you worry and keeps you in a flurry.
What's the use? There's no excuse.

"Don't talk about your wrong. It makes it last too long.
What's the use?
It only gives you pain and suffering again.
What's the use? There's no excuse.

What's the use?
It opens an old sore and worries you the more.
What's the use? There's no excuse.

What's the use?
It only makes you sad, and sore, and glum and mad.
What's the use? There's no excuse."

EDITORIAL COMMENT

Brockton Enterprise: Newspapermen of the New England states have promised, at a banquet held by the committee on publicity of the Boston chamber of commerce, to co-operate in the development of New England. It was interesting to have them take this ground, even though in most cases it would scarcely seem necessary. If there is any body of men who can be trusted to work for the development of their town or city or state or country it is the men who make the newspapers. They know perfectly well that with the growth of the place in which they may be interested their own business is pretty sure to grow, so they have a selfish as well as sentimental interest in booming their parts of the world. Sometimes some experts at the game can direct newspaper publicity towards a channel in which it may have greater effectiveness than might otherwise be the case, but it is hard to improve upon the enthusiasm for and honest desire to help his own locality which is ever present with any newspaper man worth his salt.

THE CARDINAL AND THE RECALL

Springfield Republican: The utterances of the venerable Cardinal Gibbons in regard to the popular election of senators, the referendum and the recall of judges, were only what might be expected. No one questions his staunch Americanism, but it is inevitable that on issues where there is room for an honest difference of opinion among serious students of our national affairs, the weight of his influence should cast on the conservative side. The great church of which he is an honored prelate represents authority imposed upon the masses by a wonderfully compact and well-organized hierarchy. There is no place in the Roman Catholic church for the popular election or the recall of cardinals, or for the referendum of papal bulls to a popular vote. It would be extraordinary indeed if one who so long made part of this superb organization should be in sympathy with such radical measures.

THE MAYORS IN CONFERENCE

Atlanta Georgian: Atlanta is entertaining this week an organization that is second to none as a constructive force in American life.

The meeting of the American League of Municipalities, bringing together as it does the heads of the principal cities of the United States, is indeed a notable gathering to which Atlanta takes pride in extending the offices of hospitality.

It has been said that the one conspicuous failure of our government has been in the conduct of our cities. Whatever degree of truth this statement contained in the past, it is fast vanishing now and the "House of Mayors" is in the front rank of the influences that are bringing about the change.

STEPHENSON'S BOODLE

Johnstown Democrat: Senator Isaac Stephenson and all his former campaign managers, in their testimony before the senatorial committee investigating the charge that a large part of the $107,793 which Stephenson spent to secure his election was corruptly used, assert that every time Stephenson put money out it was always with the caution, "Keep within the law." All of which may be true. But isn't the fact that Stephenson paid out $107,793 to secure a senatorial job worth much less than half that amount in itself a serious indictment against the man? For why should he willingly part with such a large sum of money unless he had some ulterior motive? And since Senator Stephenson's record shows that he has served none but the System since his election is it not a reasonable assumption that in spending a good-sized fortune to secure his election he had in view lending aid to a legislative program that would insure special favors for business interests, in which he was vitally concerned?

MR. I. L. SHOWEM GOES SHOPPING WITH HIS WIFE

SCENE FROM "OVER NIGHT AT THE LOWELL OPERA HOUSE

LOWELL OPERA HOUSE

"Over Night," the reigning comedy success which has just finished a two months' run at the Shubert, will be the attraction at the Opera House, tonight, Tuesday and Wednesday. From first to last, "Over Night" is brimful and running over with fun. It is fun of the natural, easy, simple and laughable kind, and it comes at the most unexpected moment. Running all through the piece are ludicrous situations, which appeal at once to an audience while the company is so strong both in individual work and "team work" as to make the most of every bit of comedy and of every situation.

"A GIRL OF THE MOUNTAINS"

At the Opera House on Thursday, Oct. 12, O. E. Wee, offers Lem B. Parker's new version of his four act society drama, "A Girl of The Mountains," a play with plenty of thrills and a good love story. "A Girl of the Mountains," his best play, has a good acting company presenting it, and is well staged. Popular prices will prevail for both matinee and night.

"NAUGHTY MARIETTA"

The new comic opera entitled "Naughty Marietta" which will be seen here at the Opera House for an engagement of two performances, Saturday, Oct. 14, direct from its six months' run at the New York Theatre, New York, was declared by critics to be the best light opera on the New York stage last season. The opera will be presented by Oscar Hammerstein whose name is a guarantee of the best that money and brains can provide.

"THE SPENDTHRIFT"

Among the recommendations made for souvenirs during the long run of "The Spendthrift" in New York were handkerchiefs. Frederic Thompson, the producer of this big drama received a number of letters on this subject and in each the writer pointed out that dainty bits of lace would be very acceptable to the fair patrons of the theatre. "The Spendthrift" is just full of thrills and tears.

KEITH'S LOWELL THEATRE

And the mystery that reigned over Babylon is the mystery that is reigning yet, for thanks to the unlimited possibilities of vaudeville the public of Lowell this week is enabled to witness a stage delusion quite as mystifying as was the original Babylonian mystery of the handwriting on the wall at Belshazzar's feast. This great act which is the headliner at Keith's this week is called "Meneteke!" which gives the Babylonian suggestion and consists of a little ink covered tennis ball that writes all over a perpendicular blackboard at the behest of the audience with no visible propelling power. Cook and Lorenz, the millionaire tramps present and act that bubbles over with wit and humor. Les Marquardes are just from the Follies-Bergeres with their sensational dance act that has been the New York hit. Bud and Nellie Heim are two of the cleverest kiddos in comedy playlet. Dare Brothers are well vaudeville. Carolyn Franklyn-William Wilson and Co. present a delightful comedy playlet. Dare Brothers are well named, for they are the most daring of all latter day acrobats. Radient Rodie Furman is a most sprightly talking and singing comedienne. The box office is open every day from 9.30 a. m. to 9.30 p. m. and seats may be ordered in advance by telephone, 28.

HATHAWAY THEATRE

The many friends and admirers of popular Jack Chagnon, the well known actor, will turn out in large numbers at the Hathaway this week to welcome him back, for he makes his reappearance today in the leading role in "Texas," a most interesting comedy drama of western life. Mr. Chagnon played here some few years ago with the original Huntington-DeDeyn stock company at the Academy with such favorites as Messrs. Huntington and DeDeyn, Frederick Burt, Isabelle Fletcher, Mabelle Estelle and Dan Sullivan. He comes here from St. Louis, where he recently closed a most successful season in summer stock. Mr. Chagnon is an educated and talented actor, possessed of a most agreeable stage presence. "Texas" is being presented under the personal direction of Mr. Donald Meek, who will also be seen in a good comedy role, while the other members of the company will be seen to good advantage. "Texas" is quite similar in theme to that great novel, "The Virginian." It will be adequately costumed and elaborately staged, great attention and care having been given to the scenery and accessories. The public is reminded that on account of Thursday being a holiday the advance demand for seats for the performances on that day has opened briskly and those who intend to witness a holiday performance should secure their seats at once. Seats are now on sale for all of this week's performances and may be ordered by telephone, 811.

Next week the Donald Meek stock company will present that great story of the battle of capital and labor, "The Lost Paradise."

MERRIMACK SQUARE THEATRE

Once more the management of the Merrimack Square theatre displays rare judgment in selecting the bill for the coming week. It is well balanced in every particular, the principal asset a program, more especially a vaudeville program, must possess to give general satisfaction. There will be sufficient comedy to meet the demands of those who are partial to it, there will be an intensely interesting dramatic offering and the musical repertoire for the week should win favor. Then there's the photo-plays that contribute their share to the success of the presentation.

The Wilton brothers, who are to be featured this week, are said to be in a class by themselves as comedy bar artists. One of the brothers goes through some of the funniest stunts on the bars ever seen, while the other brother accomplishes feats that are not duplicated by anyone. The fact that these performers have played at all of the biggest and best vaudeville houses in the country, should be assurance enough that their act is first class. And while you are pondering on this particular fact don't fail to remember the very reasonable prices asked at the Merrimack Square theatre.

In the "Watches of the Night," a one-act play that has had much success in various parts of the east, will be given by Our Stock Company Mr. Kendal Weston, whose endeavors in all of his offerings of the past have been those of a finished artist, will receive the assistance of two new members this week. Miss Constance Jackson, who has played with several well-known actresses and actors in this country, will take the place of Miss Phelps who concluded her Lowell engagement Saturday night. Miss Jackson is said to be especially pleasing in dramatic presentations. Mr. Stanley Wood is another new member. Both will make their initial appearance this afternoon and this evening.

Billy Ray, the musical Chink, Leslie Laurie and Quinn, singing and talking comedians and May Monahan, soloist, will contribute their share to the excellent program. The photo-plays include the following: "The Mate of the John M., a sea drama, "The Saving Sign" and "The Idle Boast." Remember that something is always going on at this playhouse from 1 until 10.30 o'clock daily. Try the supper hour matinee.

ACADEMY OF MUSIC

Heading the bill for the first three days is the Comedy Italian Trio, the members of which are first class singers and dancers. Mae Blossom, a dainty little miss, is bound to please with her songs and character changes. Stuart and Hall have a way all their own in their comedy and singing. These with four reels of the latest pictures complete the show.

THEATRE VOYONS

There are few plays that have had so wide a popularity among all classes of playgoers as has Kate Claxton's version of "The Two Orphans," and today, tomorrow and Wednesday the Theatre Voyons offers to the lovers of this most excellent dramatic production an opportunity to witness their favorite drama under entirely new conditions. That a standard drama can be presented in motion pictures is a well established fact and that it can be as well done as in the spoken dramatic form is admitted by all who are familiar with modern conditions. This production of "The Two Orphans" has been in preparation for months and was staged under the personal direction of Kate Claxton in the immense Selig studio in Chicago. Every detail which went to make a success of the original production has been reproduced in the pictures, the big cast, the splendid scenic settings, the exquisite costumes, and above all the strong dramatic climaxes which hold and stir the feelings of the onlooker.

COLONIAL THEATRE

At the Colonial for Monday and Tuesday the management is giving a grand production of Faust in two reels with appropriate music. The pictures were obtained at great cost and are said to be one of the finest productions of the photo-play art. Besides Faust other photo-plays will be shown at each performance. The price of admission has not been increased.

ALLEGED GAMBLERS

WERE INJURED DURING A RAID AT HAVERHILL

HAVERHILL, Oct. 9.—John Carpenter is at the Hale hospital suffering from a sprained left wrist and a badly cut face which he sustained, the police say, in jumping from a second story window of Independence Hall on Emerson street early yesterday morning when a gambling raid was made.

Shortly after the raid he called at an all-night restaurant on Merrimac street and, as he was injured, the police ambulance was called and he was removed to the hospital. Another unknown man called after the raid upon a physician on Emerson street to have injuries dressed and the physician advised him to go to the hospital, but he has not since been heard from.

The police say that the two men in leaping from the second-story window to the ground 15 feet below struck an iron fence and thus received their injuries.

The raid was made by Capt. Hill and Patrolman Broderick, eight men being found in one room and being arrested for illegal gaming. They gave their names as Joseph P. Connor, James R. Nevins, Charles S. McDonald, Frank Davis, James W. Kelly, George F. White, Harold E. Baxter and William Hindley.

REV. DR. KELEHER

To Speak on European Trip Before M. T. I.

A very interesting and largely attended meeting of the Mathew Temperance Institute was held yesterday morning in the rooms of the institute in Dutton street with President J. J. Gallagher in the chair. The society made final preparations for the smoke talk and lecture to be held in the institute quarters tomorrow evening, Oct. 10th, for the members and their friends. Among the principal speakers will be Hon. John T. Shea, president of the C. T. A. U. of Boston, and the spiritual director of the society, Rev. Dr. Daniel J. Keleher, who will give an address on his recent trip abroad. An elaborate musical program has been selected for the occasion. Refreshments will be served during the evening.

Rev. Dr. Keleher is an interesting speaker, and his talk on his travels will doubtless be well worth hearing. Since his appointment he has taken a great interest in the workings of the institute, and hence the plans for giving him a cordial reception.

Hon. John T. Shea's theme will be the life and works of Rev. Theobald Mathew, to whose memory October 10th is dedicated. President Shea has always scored a big hit in his addresses before the Mathews, in years gone by.

The society very kindly voted the free use of the hall for a discussion of the proposed new charter, either pro or con.

THE FINAL DAY

FOR FILING ERRORS IN THE MAINE ELECTION

AUGUSTA, Me., Oct. 9.—This is the final day on which may be filed errors in official returns of the special election held last month on teh question of repealing Maine's constitutional prohibition of the manufacture and sale of intoxicating liquors. This is in accordance with an order passed by the governor and council on Sept. 18th at the 20-day period during which applications for corrected returns may be filed shall expire on Oct. 9.

The governor and council will meet in special session this afternoon at 4 o'clock for the purpose of holding a hearing on applications for such corrections. Applications were received for a meeting on Sept. 18 for corrections of the official returns from Limestone, Westfield, Matinicus and Athens which, if allowed, would change the majority of 26 in favor of repeal to one of about 700 against repeal.

The town records of the first three places were offered in evidence at that time in support of the request for corrections. The town clerk of Matinicus plantation was not present but is expected to be here today.

No hint has been given as to the probable time when the governor and council will decide whether to accept the corrected returns but it is well understood there will be no unnecessary delay in declaring the result. The question may be decided by that body tonight or tomorrow or they may take further time to consider it. In any event the result of the official tabulation is likely to be known soon. Whether or not it will determine the "yes-no" problem remains to be seen.

A BOLD BURGLARY

Six Men Stole a Safe and Downed Officer

NEW YORK, Oct. 9.—Six burglars early today carried a small safe from one of the United Cigar Stores Co. stands into the basement and attempted to blow it open.

As a result one man is dead. The burglars were preparing to dynamite the safe in the cellar when one of the tenants of the building heard them. Two policemen tried to stalk the safe-blowers through doors at opposite ends of the cellar but one of them dropped his club and the men ran, knocking the policeman over in their wild rush. They were fleeing over the fences when the other patrolmen opened fire and shot one of the fugitives through the heart.

The dead burglar has not been identified and one of his companions who was captured refused to talk. The others got away.

THE SUGAR TRUST

Meriden Citizens Ask Pres. Taft to Order an Investigation

MERIDEN, Conn., Oct. 9.—The high price of sugar is given as the reason why a number of Meriden citizens today addressed an appeal to President Taft to investigate the sugar trust. Among those who signed the letter to the president were Dr. E. W. Smith, a classmate at Yale of President Taft, and William Howes, who has been prominent in local civic reforms. The letter in part follows:

"We wish to call your attention to the fact that since adjournment of congress the price of sugar has nearly doubled. No reports have appeared in the public press of any shortage in the sugar crop and no good reason has been given for the increase in price. But the sugar trust has been to great expense for defense of charges of grafting and for heavy fines for being caught with the goods and we believe the price of sugar has been advanced to cover these expenses.

"The jail is the place to punish the trust pirates. Fines have no more effect than shots blown from a bean blower."

THE GLIDDEN TOUR

Seventy-Eight Cars to Take Part in the Great Contest

NEW YORK, Oct. 9.—Seventy-eight cars of many makes and patterns, assembled from almost every state along the Atlantic seaboard and as far west as Indiana, will point their noses south next Saturday, and stream out of New York City in a winding file for Jacksonville, 1451 miles away, in the Glidden Tour of 1911. October 26, twelve days later, is the day set for the finish. During the trip the motors will take the dust of nine states, top the Blue Ridge and follow close to the trail of the storm centre during the days of the Civil war.

The National Highway, whose path they will keep to the land of flowers winds through New Jersey, cuts an arc in southeastern Pennsylvania to Gettysburg and runs in a broad line through Maryland to the Shenandoah valley of Virginia. Through the broad, rich valley it leads past sandstone and marble monuments telling of the days of Stonewall Jackson and Sheridan. In the rolling country, the trail skirts the scenes of a score of battles, to the broad acres of North Carolina tobacco plantations, South Carolina, and the cotton fields of Georgia. The tourists will cross the Empire State of the South from north to south, chugging through Atlanta on their way. Forty miles, or thereabouts, across the Florida line, the journey will end at Jacksonville. Probably no long stretch of road in America, say the officials, can offer greater diversity of scenery and climate and better roadway in its entirety.

P. J. Walker of San Francisco, president of the California State Automobile association, who has been selected referee; S. M. Butler, chairman of the contest board of the American Automobile association, and other officials in charge of the tour will give entrants their final word of instruction on the night before the start. Mr. Walker, an ardent advocate for good roads, will be accompanied on the tour by Mrs. Walker. A. H. Whiting of this city in a 1912 Cunningham will be the pacemaker.

In addition to the massive trophy for which the contestants will strive, the chamber of commerce and citizens of Anderson, S. C., have donated a handsome silver punch bowl to be awarded to the individual owner whose car ends the tour with the least number of penalties. The Glidden trophy goes to the team of three cars finishing with the best team score, but any owner of an automobile had an opportunity to enter his car in the contest for the Anderson cup.

Thirty-nine inches long and fifteen inches high, the Anderson cup—or punch bowl—is chased and engraved in patterns emblematic of the south. The foot is round and the body oval, two modelled figures of victory holding it aloft at each end. Cotton blossoms and palmetto leaves wind in a silver wreath about the sides, while winged automobile wheels stand upright beneath the figures at the bottom and between them at the top. The great seal of the state of South Carolina is stamped in the metal beside an engraving of the Anderson county court house on one side, while upon the reverse is engraved:

"Perpetual-Automobile Touring Trophy, presented to the American Automobile Association by the citizens of Anderson, S. C. 1911." Beneath the inscription there appears the official emblem of the A. A. A.

Six or more non-contesting cars will take the road with the contestants. Three of these represent three-wheeled vehicles. There will be two official cars and a brass car, while the baggage and supplies of the tourists will be carried by motor trucks.

SEVEN YEARS OF MISERY

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. — "For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl." —Mrs. DEMA BETHUNE, Sikeston, Mo.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound.

It is more widely and successfully used than any other remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means had failed.

NAVY YARD PLAN

Sec'y Meyers to Introduce English System

WASHINGTON, Oct. 9.—Casting aside all scientific systems of navy yard management advocated in this country, because he believes they involve too much detail and require serious changes in the civil service rules of employment, Sec. of the Navy Meyer will import from England the system of management in use by Vickers, Limited, at the Barrow-in-Furness Ship Engine and Ordnance Works.

This, in substance, was officially announced at the navy department yesterday. The secretary studied this system during his recent inspection of European naval works.

In effect, the new system will provide for the centralization of work, and allows the commandant of a yard to know just what is being done on a particular job without having to seek the information from others having the work under their charge.

"The system includes central planning and routing and the cutting out of waste," it was stated yesterday at the navy department when inquiry was made in regard to the working of the system.

Sec. Meyer states that with the inauguration of the new system he has not in contemplation any changes in organization in the yards.

That the system may be thoroughly instituted, Capts. A. B. Willits and E. Theiss, U. S. N., have been sent to England to study the details of the Vickers system. These officers left last Thursday and will be gone about a month.

Following their return it is believed the work of establishing the new system will be begun in earnest. In the opinion of Sec. Meyer great benefit will be derived by both the government and the workmen from the new system.

MONTARA WAS SLAIN

He Took Leading Part In Insurrection in Lower California

SAN DIEGO, Cal., Oct. 9.—Ramos Montara, who commanded a troop in the insurrection in lower California, was escorted to the international boundary line yesterday and stabbed, then rushed across into Mexico. There, it is reported, he was at once slain. Reports brought to this city by a former member of Guerrero's band that operated in lower California said that two Mexicans engaged Montara in a knife duel on the border and, taking him off his guard, wounded him and carried him across the line. It is said there was a large reward for Montara because of his connection with the recent revolt.

GIRLS SAVED BY NUNS

They Dragged Children From a Burning Building

WHEELING, W. Va., Oct. 9.—Fire early yesterday destroyed the Home of the Good Shepherd at Edgington Lake, two miles east of this city, and drove 250 scantily clad girls and nuns into the streets. The blaze is supposed to have been caused by a spark of incense used in benediction in the chapel Saturday evening. The loss will exceed $50,000, and is covered by insurance.

The nuns performed many feats of heroism and daring in rushing through the dormitories arousing the girls, and, in many instances, carrying and dragging the young ones to safety. Two of the nuns were seriously ill yesterday from the nervous excitement of their work in rescuing their charges.

The home is a haven for girls ranging in age from five years upward. The structure was of wood and the flames spread with almost incredible rapidity, so that the children, when aroused from their sleep, had barely time to escape.

When the fire was discovered, all the girls were asleep in the dormitories. The only ones awake were the watchmen and the nuns in charge of the dormitories.

As soon as the fire was seen, the signal for the fire drill was given. Under the nuns in charge, the girls in each dormitory formed in line. High on the hill, the building was swept by a strong wind from the west, and it was seen in a few minutes that the structure was doomed.

Water Supply Short

Its position, so far above the rest of the city, made it impossible to get anywhere near an adequate supply of water. So swift was the spread of the flames, fanned by the wind, that the girls had only time to snatch up blankets from their beds, in which to wrap themselves, as the nuns ordered them to file out.

The priests attached to the institution aided in marshaling the girls through the corridors and down the broad main stairway in good order.

Nearly all of them were safely out of the building and standing in line on the lawn when it was found that several of the girls from the upper dormitories had been cut off by flames, beginning to sweep the stairway.

They reached the windows on the second floor in safety. They were told not to jump until the priests and watchmen got some blankets, which they held for the girls to jump into. None of them was seriously hurt by the leap.

For a time it was thought several of the girls had perished, but a search of the ruins and a count of the inmates showed that all had been saved. All were given food and clothing and shelter in homes in the vicinity of the fire.

TWO WERE INJURED

Electric Car Crashed Into an Elm Tree

QUINCY, Oct. 9.—Fifty passengers on an East Weymouth bound electric car from this city were badly shaken up yesterday afternoon when the rear trucks of the car jumped the track about 100 feet north of the turnout on Washington street, between River and North streets. Two of the passengers were injured so that they had to have medical treatment. They were Roy Elms of Mattapan and George Guston of 124 Upland road, this city.

Elms had several cuts about the face and forehead, caused by flying glass, which required several stitches. Guston was suffering from nervous shock when brought into the office of Dr. Willis J. Middleton, almost in front of where the car stopped.

The car left Quincy Centre at 2.05 in charge of Conductor John Esson and Motorman Charles Battison. There is a short curve after leaving River street and the first thing the passengers or crew knew the rear truck left the rails from some unknown cause and started across the street, forcing the forward end into an elm tree at the side of the road.

Glass went flying in pieces and passengers were thrown in all directions. Motorman Battison stuck to his post when he suddenly saw the front end of the car making for the tree. He tried to put on the emergency brakes but before he could do much he was covered with a shower of broken glass. When the car came to a stop it was across the street at right angles with the track.

The passengers boarded another car and continued on their way to East Weymouth.

PRINCETON IN LEAD

In the Number of Points Scored

NEW YORK, Oct. 9.—College football teams are getting right down to business as the big games of the season loom up ahead. The football student is already comparing scores for the first few games and the total places Princeton at the head of the "Big Six" in the eastern colleges, with Yale second, Harvard third, Pennsylvania fourth, Dartmouth fifth and Cornell sixth. The first three have so far kept their goal line from being crossed but the last three have each three points against them from field goals.

The big scores that Princeton has run up have been made against teams that are rated somewhat weaker than those that have faced Yale, while Harvard has played only two games to three for her rivals.

The total points of the larger colleges to date are as follows:

Princeton 105 to 0; Yale 63 to 0; Harvard 23 to 0; Pennsylvania 27 to 3, Dartmouth 75 to 3; Cornell 56 to 3.

HENRY M. WHITNEY

Says That He Will Not Vote for Foss

BOSTON, Oct. 9.—Henry M. Whitney, democratic candidate for governor in 1907 and supporter of Gov. Foss in all of the latter's campaigns for public office, announced last night that he would support the republican ticket this year, because of the importance of the tariff issue.

It has been known for weeks by members of the republican state committee and several close friends of Gov. Foss that Mr. Whitney contemplated voting the republican ticket this year. Rumors have been current for some time that Mr. Whitney and the governor were not in harmony on several matters.

Last winter, when the governor began his speaking crusade against the re-election of Senator Henry Cabot Lodge, Mr. Whitney disapproved it and wrote a letter to the senior senator telling him so, expressing the hope also that he would be reelected.

It is believed that the prominence of George Fred Williams as a political adviser of the governor may have had something to do with Mr. Whitney's anti-Foss attitude. Mr. Williams has more than once read Mr. Whitney out of the party and when he was a candidate for the democratic nomination five years ago George Fred jumped into the campaign and lent all his influence to Gen. Bartlett's candidacy.

In the concluding paragraphs of his statement Mr. Whitney takes a parting shot at his old political opponent, George Fred Williams, saying:

"And as to other matters of public policy, such as the initiative, referendum and recall, I am in agreement with Cardinal Gibbons, the distinguished and venerable prelate, rather than with George Fred Williams, the Bryanite."

RESISTED ARREST

Woman Aviator Injured in Fight With Police

NEW YORK, Oct. 9.—Three deputy sheriffs undertook to preserve the peace of the Sabbath by preventing Earle L. Ovington and Miss Mathilde Moisant from making flights at the Nassau Boulevard field yesterday.

The official meet of the Aero Club of New York had been declared off, following a supreme court decision that aviation meets at which admissions were charged were violations of the Sunday law, but the aviators decided to make flights on their own account. Miss Moisant planned to fly from the field to her hangar, at Mineola. Ovington decided to start on his proposed flight to the Pacific coast. He planned to make Governors Island yesterday, and he carried a package of letters, having been delegated by Postmaster-General Hitchcock as the first transcontinental aerial mail carrier.

As Miss Moisant landed on the property of her brother, Alfred Moisant, the sheriffs attempted to arrest her. Mr. Moisant declared that his sister was hurrying to her automobile when the deputies clubbed the chauffeur because he refused to allow them to take the woman from the car. Miss Moisant had a wrist cut and was much bruised and shaken up.

It developed that the deputies had no warrants. When Justice Gittins was appealed to at Hempstead he refused to issue them.

Ovington was forced to come down near Belmont Park when his monoplane nearly capsized in a squall. He affected a safe landing, however, and since the deputies had lost track of him, he escaped the embarrassment which befell Miss Moisant.

Many well-known Long Island residents who followed the course of the young woman in automobiles attempted to assist her in her difficulty with the officers, and received blows from the deputy's clubs for their pains.

Y. M. C. A. WORKERS

EXPECT TO INCREASE THEIR MEMBERSHIP TO 1000 BY OCT. 16.

A meeting of the members of the 20 teams who are actively working to increase the membership roll of the Y. M. C. A. to 1000 will be held tonight in the association's rooms in Hurd street and there is keen interest in the returns which will be made by the various captains.

The big clock used in the building fund campaign indicates the present membership of the association, 637 and it is expected that by Oct. 16, it will have increased to 1000.

The banquet which will be held at 6.30 tonight, will be served by Mrs. Cyrus Barton. There will be a special speaker, and other extra features, but the chief interest will center in the reports from the captains of the teams. The large chart on the wall will record not only the number of new members to the credit of each team, but also the number of points according to the rules of the game.

An attractive circular presenting the activities of the association has been issued, and application blanks for membership and printed instructions regarding the campaign will be given to the workers on the teams tonight, as well as new lists of possible members for the selections of names by the captains of the various teams.

Reports of the teams' doings will be given on Oct. 9, 11, 13 and 16.

SOCIAL FORUM

Interesting Series Opened at Grace Church

At the Grace Universalist church last evening the first of a series of Sunday evening meetings designated as "The Social Forum" was held with a large and interested audience. The speaker of the evening was Rev. Frederick Perkins, D. D., of Lynn and his subject was, "The Church and Socialism." His talk was in the nature of an introduction to the course, which will consider some of the leading problems now before the American public. At each meeting opportunity will be given for questions to be asked and answered.

The speaker next Sunday night will be Mr. Henry Sterling of Boston, on "Trades Unionism." October 22, Mrs. Glendower Evans will speak on "The Working Woman;" and October 29, Professor Charles Zueblin on "Religion of the Common Life." Another series, for November, will be announced later.

In opening his address, Dr. Perkins first expressed his pleasure that the Rev. Mr. Skinner has begun his pastorate in this industrial community, by showing such a clear grasp of one of the real problems that awaits us all in these days of social transition.

Middlesex North Agricultural Society

The annual meeting of the Middlesex North Agricultural Society will be held at 10 o'clock, Tuesday forenoon, October 10, at the Odd Fellows building, Bridge street, Lowell.

1. To hear and act upon the annual report of the treasurer.
2. To elect officers for the ensuing year.
3. To transact any other business that may come before the meeting.

McNAMARA CASE

125 Men Called, From Whom a Jury Will be Selected

LOS ANGELES, Cal., Oct. 9.—One hundred and twenty-five citizens of Los Angeles, from whom 12 may be called upon to pass on the guilt or innocence of John J. and James E. McNamara on the Los Angeles Times dynamiting case, gathered today in the new courtroom of Judge Walter Bordwell.

The men constituted the first venire to be summoned as jurors in the McNamara trial, which is set to begin Wednesday. They were called to enable the court to excuse those who for ordinary reasons may be unable to act.

The names of the veniremen were kept secret when drawn and the calling of each juror was attended by a hasty scratching of pencils as representatives of opposing counsel in the coming trial jotted the names down for reference.

THE McNAMARAS

SKETCH OF THE TWO MEN UNDER TRIAL

LOS ANGELES, Cal., Oct. 9.—Sitting in a corridor just outside his cell in the county jail, John J. McNamara, secretary-treasurer of the International Association of Bridge and Structural Iron Workers, briefly sketched what he termed the uneventful lives of himself and his brother, James B. McNamara.

"I was born in Cincinnati, December 25, 1876," he said, "and I am the oldest of six children living, although there were ten children originally. I attended the common schools in Cincinnati until I was twelve years old and then took a three-year-course in a business college.

"Nothing of any importance happened to me until the panic began in 1892, when I turned my hand to anything and everything to keep the pot boiling, as they say.

"I did my first bridgework at Cincinnati in 1898, joining the union the next year. Between 1899 and 1904, I visited various sections of the middle west, following my trade and working on steel bridges, viaducts and similar structures.

"I have held all of the offices in local unions, particularly in those of Cleveland, and have attended all the conventions of the International association since 1902. I was elected second vice-president at the convention at Kansas City in 1903 and was chosen secretary-treasurer at Toronto in 1904. I have held that office ever since.

"The last building I worked on was the Rockefeller structure in Cleveland. I left that job to go to Toronto, and it was held open for me if I wanted to go back, but I didn't, as I had been made secretary-treasurer and had my time fully taken up with the duties of that office.

"The offices of the international association were in New York when I was first elected. Later, for sentimental reasons, I was instrumental in having them moved to Cleveland. Two years after the offices were removed there, another change was made to Indianapolis, for the reason that so many labor organizations had their international headquarters there.

"I never planned my life far ahead. The work of an ironworker probably precludes such planning, for such a man does not know when he leaves home in the morning that he will return at night. It probably tends towards fatalism.

"I wanted to learn of the organization in which I held office, particularly the legal end of it, and so I attended the Indianapolis College of Law and was admitted to practice in 1909.

"There is little else about my life except my arrest. I am an inveterate reader, and always have been, of books treating with economics and industrial matters."

James B. McNamara, who sat quietly by while his brother talked, also was born in Cincinnati. His birthday was June 2, 1882. He attended the common schools and then learned the printer's trade, which he has followed almost continuously ever since, working in job offices in Chicago, Cleveland, Cincinnati and other cities.

"Unlike me," said John J. McNamara, "my brother has never been especially active in trades union affairs."

TO REFORMATORY

Young Man Charged With Larceny

Arthur Marchildon, a young man who resides in South Lowell, was arrested yesterday by Capt. Brosnan, Inspector Laflamme and Inspector McClaughry on a warrant charging him with the larceny of a horse, carriage and harness, the property of Joseph Tessier, who conducts a livery stable in Hall street. The horse, it is alleged, is worth $110, the carriage is valued at $90 and the harness at $10.

When the young man was arraigned before Judge Hadley in police court he entered a plea of guilty and after being found guilty was sentenced to the Massachusetts reformatory at Concord.

Marchildon is 19 years of age and a hosier by trade. Friday afternoon he called at Mr. Tessier's stable and said he was anxious to secure a horse and carriage. He said he might be able to return with the rig that night but that if he didn't he would bring it around early Saturday morning.

When Saturday morning came Marchildon failed to put in an appearance. Tessier thinking that the young man might have been unavoidably detained thought little of the matter until Saturday night and still the boy did not put in an appearance. Sunday morning the matter was reported to the police and they succeeded in clearing up the mystery but not until they had gone to considerable trouble.

It was learned that Marchildon went to Wilmington Saturday morning and swapped the good horse for an old nag which was worth about $6 and then went to North Woburn where they exchanged Mr. Tessier's good carriage for an old caravan. The horseness which was on the horse had blinders on it but the young man evidently thinking that he could better the looks of the harness, cut the blinders off the bridle.

Tessier Again a Victim

Friday was certainly Mr. Tessier's unlucky day for a man called at his stable for a horse and carryall. The outfit was turned over to the man, but the stranger like in the case of the boy failed to put in an appearance at the time he said he would and Saturday the matter was reported to the police.

This morning the police received information to the effect that an unknown person had put up a horse at Peabody's stable in Warren street Friday night and had not yet called for it.

Mr. Tessier was notified and he went to Peabody's stable where he recognized the outfit as belonging to him. The man who "borrowed" the horse and carriage has not yet been located.

STOCK MARKET

QUIET AT THE CLOSE THIS AFTERNOON

Publication Of Monthly Crop Report Had No Influence—U. S. Steel Fell Back Slightly—Reading Closed With a Net Loss

NEW YORK, October 9.—Modest gains were made by most of the active stocks at the opening of the market today, March Pa 1st pref and Pa R R each advancing 1 on the opening transactions, Cal & Pacific gaining ¾ and Anaconda ½.

The bulls did not maintain their ascendancy in the market, their control of active issues selling orders and the sellers, U. P. and U. S. Steel forcing prices down sharply. Reading fell back 2¼, points, Union Pacific 1½, Lehigh Valley 1¾ and Atchison and U. S. Steel 1. Prices generally were well under Saturday's close, aside from the southern group of railroads, which were conspicuously buoyant, Louisville & Nashville rising 1½, American Beet Sugar, which had risen a point, rose 1¼ again and there was further Republic for in Allis-Chalmers pfd., which cost it 2¼.

Following a brief period of fairly active movements of stocks changes were unimportant. After a moderate rise at the opening and a subsequent decline, the market gradually recovered its losses and established itself at almost even terms with Saturday's close. Reading did not recover with the general market. Its weakness was associated with the approach of the supreme court hearing of the anthracite case. U. S. Steel was sold on the strength of a report that the department of justice was to file a suit at once for dissolution of the corporation. But the stock received effective support and made a full recovery. Bonds were easy. The usual issues were slightly lower and there was a fall of 1¼ in Allis Chalmers 5's.

Another spasm of weakness in Reading which sent it down to 138¾, influenced selling elsewhere and the whole list returned to about the low figures of the forenoon. The copper producers' monthly statement showed an increase of 7,153,535 pounds in stocks on hand, but a decrease in foreign consumption of over 18,000,000 pounds.

Stocks of the southern railroads continued to move up in response to the outlook for increased tonnage by reason of the expected bumper cotton crop report. Louisville & Nashville was buoyant, the rise causing talk of an extra dividend on the stock. This stock jumped 4¾. Atlantic Coast line 1 and Illinois Central 1¾. The strength in this quarter had a sustaining influence on the general market and prices elsewhere rallied slightly.

The market closed quiet. Publication of the monthly crop report was of no influence as it was in line with expectations. United States Steel encountered large blocks of stocks after crossing 59 and fell back slightly. Reading continued its sluggish movement and closed with a substantial net loss.

NEW PRESIDENT

HAS BEEN APPOINTED FOR HOLY CROSS COLLEGE

WORCESTER, Oct. 9.—Holy Cross college is to have a new president. An order received today from Rev. Joseph Hanselman, a former president of the college and at present the provincial of the Society of Jesus, announced that Rev. Joseph Dinand, superior of the Jesuit novitiate at Poughkeepsie, N. Y., had been appointed president of Holy Cross, succeeding Rev. Fr. Thomas F. Murphy, head of the institution for the past six years. Fr. Murphy has been transferred to St. Mary's parish, Boston, where he will become a member of the missionary band.

THE SUPREME COURT

Met Today After Four Months' Recess

WASHINGTON, Oct. 9.—A deluge of motions from 60 odd attorneys met the supreme court of the United States when it convened today after a four months recess. The court then adjourned until tomorrow when it will begin hearing cases. Prominent among the many motions for early consideration were those involving the so-called Louisiana & Missouri rate cases, the leasing of public coal lands, consolidation of Presbyterian churches throughout the country and constitutionality of the naturalization law of 1906.

TEN MEN KILLED

Others Were Injured in a Cave-in

VICTORIA, B. C., Oct. 9.—Ten men were killed and others injured in a cave-in at a Canadian Northwestern construction camp near Colewood southeast of Vancouver today.

WOMEN'S GOLF CHAMPIONSHIP

SHORT HILLS, N. J., Oct. 9.—The 17th annual women's golf championship began on the links of the Baltusrol Golf club today. A start was made at 10 o'clock when Mrs. C. G. Frazer of Canford and Miss Louise Wells of Brookline, Mass., drove off. There were three extra entries, Miss Katie Harley of Fall River, Mrs. Charles Holeman of Wykagyl and Miss Eleanor Whitney of Morris county. Miss Dorothy Campbell of Hamilton, Ontario, champion of Great Britain, the United States and Canada, got away at 10.10 in company with Miss Georgiana Bishop of Bridgeport, Conn. The Hamilton champion is playing in rare form.

AN AUTOMATIC ALARM

An automatic alarm at 5 o'clock Saturday afternoon summoned the members of Engine 4 in High street to the Lowell Shoe Co.'s factory in Stackpole street. When they arrived, however, there was no fire, the alarm having been caused by an overheated thermostat.

THE ALPINE CLUB

HAD A GREAT TIME AT THE ANNUAL CLAMBAKE

The annual outing of the Alpine club was held at the club's magnificent summer quarters at Long-Sought-For pond yesterday. There were about 40 members present and everybody had a good time. There was a ball game with the married men on one side and the single men on the other. The married men beat the "single fellows." The score was 11 to 12 and when the old codgers saw that they had the young fellows on the stab, they cried quits in the seventh inning. The clambake, lobsters and roast chicken were the best ever and the whole thing was a success from start to finish.

KILLED BY FREIGHT

Suit Against Boston & Maine in Superior Court

The case of Adda P. Upson, administratrix of the estate of the late Louis M. Upson of East Pepperell vs. the Boston & Maine railroad, which was opened in the superior court before Judge King on Friday and which took the entire session today, was resumed, the plaintiff's side presenting several witnesses. Louis M. Upson was assistant station agent at East Pepperell at the time of his death and among his duties was the work of taking the numbers of the freight cars in the East Pepperell yard. The plaintiff alleges that on the ninth day of February, 1909, while engaged in the work of taking the numbers of the cars, her husband was struck and killed by a freight running along a side track, through the negligence of the defendant company. Roland H. Sherman of Coakley & Sherman appears for the plaintiff, and Messrs. Trull & Wier of this city for the defendant.

COLUMBUS DAY PARADE

Plans Are Completed for the Great Celebration

There will be a special meeting of Lowell Council, No. 72, Knights of Columbus, at their council chamber, Tuesday, Oct. 10, 1911, at 8 p. m. The meeting is called for the purpose of developing enthusiasm for the celebration of Columbus day.

Rev. W. George Muilin, who has recently been appointed chaplain of the council, will deliver an address after the business meeting.

It is expected that a large attendance of members will be present.

The Columbus day committee held a special meeting Sunday afternoon and encouraging reports were heard from the various sub-committees.

The parade will be the feature of the morning's celebration and it is expected that there will be four divisions, comprising a military, a civic and a Holy Name society division, with the Knights of Columbus making the fourth.

The route of parade is as follows: Formation on South common at 10 a. m. sharp; march from Highland to Locke street, to Gorham, to Central, to Merrimack square, to Bridge, countermarch at Sixth street, to Merrimack to Moody, to Aiken, to Merrimack, to be reviewed at city hall by the chief marshal and staff.

The chief marshal and staff will be mounted and they request each organization to detail at least one mounted aide to serve on his staff. The uniform will consist of frock coats, silk hat, gauntlets and leggings. Each aide will be furnished a sash.

The Holy Name societies of the different churches are requested to form in a preliminary parade with the Knights of Columbus and march from city hall square to St. Peter's church, Holy Name societies and members of the Knights of Columbus should be at city hall by 8 o'clock. The American band will escort the societies to the church. A solemn high mass will be celebrated at St. Peter's church at 8.45 and Rev. James Quinn of San Antonio, Texas, a former Lowell man, will deliver the sermon. In connection with the celebration of mass, Rev. Fr. Burns will conduct the singing of the sanctuary choir.

The singing of school children will be a pleasant feature. At least 1000 school children will participate. The grounds at city hall will be wired off and the children will be admitted by ticket through the Moody street entrance. Frederick O. Blunt and Wm. F. Thornton have this arrangement in charge.

Plans for the banquet which will be held at Associate hall at 7 o'clock p. m. were discussed and from present indications it promises to be a memorable event. The speakers include Gov. Foss, Congressman Ames, Mayor Meehan, Joseph Smith and Rev. Matthew C. Gleason, chaplain of the U. S. navy. James E. O'Donnell, esq., was chosen chairman of the reception committee.

Chief Marshal Thomas B. Delaney will announce later his staff and list of aides.

Any information which may be decided by societies participating in the parade will be cheerfully furnished by calling the K. of C. quarters. Communications were received from all the mills and factories notifying the officers that they would suspend operations on that day. The committee appointed to interview the merchants in regard to closing and decorating reported that the stores would close and most of them would decorate their buildings.

JOHN H. MURPHY

TO BE TOASTMASTER AT K. OF C. BANQUET

At the banquet which will be the crowning feature of the local Columbus day celebration Thursday evening, the toastmaster will be Mr. John H. Murphy, the well known secretary of the Lowell board of trade, and a capable young man. Mr. Murphy for several years has filled the office of lecturer of the local council of the Knights of Columbus with great credit, and is at present secretary of the council's Columbus day committee.

The banquet promises to be a brilliant affair in every particular, and the attendance will be very large of knights and their ladies. The principal speaker, Rev. Fr. Gleeson, is famed far and wide for his eloquence, for at the state council, K. of C., banquet he brought his auditors to their feet after a most eloquent address.

WAR VETERAN DEAD

His Wife is Not Expected to Live

NORTH ADAMS, Oct. 9.—Escaping gas today caused the death of Levi White, a Civil war veteran and his wife is in a dying condition. The couple retired Friday night and Saturday afternoon a married daughter found them unconscious. They were removed to a hospital, where Mr. White died today. How the gas happened to escape is not known. White was 64 years old and is survived by ten children.

GOVERNOR FOSS

Says That the People Are With Him

BOSTON, Oct. 9.—"Everybody is against me except the people. I have not lost my confidence in them." This was the reply made today by Gov. Foss when asked if he had anything to say in reply to the published letter of Henry M. Whitney, relative to the present state campaign. Mr. Whitney, who was the democratic candidate for governor in 1907, said last night he would vote the republican ticket this year.

ALL HANDS LOST

Unknown British Barkentine Went Down

BOSTON, Oct. 9.—The sinking of an unknown British barkentine, said to have hailed from Bridgeton, N. F., off the entrance to the bay of Fundy on Sept. 30 with all on board, was reported today by Captain Goodwin of the fishing schooner Good Luck.

PROHIBITION LAWS CONDEMNED

WASHINGTON, Oct. 9.—Condemning prohibition laws and urging the restoration of the canteen to military posts and soldiers' homes, the National German Alliance, in session here today, adopted a number of resolutions offered by the committee on personal liberty. These declared that "blue laws," prohibitory enactments and legislation which dictates what the individual shall eat, drink and wear, and how and when he shall enjoy himself, "are being fostered and promoted by mercenary agitators, who, in a movement of organized hypocrisy, disguised in the cloak of the church and the mantle of patriotism, are hurting true temperance by causing the clandestine and surreptitious use of strong drinks."

He Was Found Lying on Steps of House

Aldis L. Gilman, aged 49 years, died this morning. Mr. Gilman was found on the door steps of the Windsor House, 1ft Middlesex street. The body was removed to the morgue of Undertaker William H. Saunders, in Hurd street. Heart disease is believed to be the cause of death.

JOHN J. MAHONEY

To Be Clerk at Charity Board Office

John J. Mahoney, clerk at the Chelmsford Street hospital, will succeed William H. Gallagher as clerk in the office of the board of charities at city hall, Mr. Gallagher having accepted a position in a state institution for consumptives in Boston. Mr. Gallagher tackled his new job today and his place is being filled, temporarily, by Louis N. Faneuf. Supt. Conley of the Chelmsford Street hospital said today that he would name Mr. Mahoney to succeed Mr. Gallagher.

THE CITY COUNCIL

To Act on Death of Messenger Pattee

Mayor Meehan has called special meetings of both branches of the city council for tonight to take action on the death of City Messenger Pattee. The mayor has addressed the following communication to the city council:

Lowell, Mass., Oct. 9, 1911.

To the City Council of the City of Lowell.

Gentlemen—I desire to call your attention to the death of Joseph E. Pattee, which occurred Sunday, Oct. 8th, 1911. Mr. Pattee has been city messenger for many years and has proved himself to be an honest, capable and courteous public servant.

Trusting you will take suitable action upon his death, I remain respectfully yours,

John F. Meehan, Mayor.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (*Collinsonia Canadensis*), Bloodroot (*Sanguinaria Canadensis*), Golden Seal root (*Hydrastis Canadensis*), Queen's root (*Stillingia Sylvatica*), Black Cherry-bark (*Prunus Virginiana*), Mandrake root (*Podophyllum Peltatum*), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anæmic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

LOWELL MAN PRESIDED

At Meeting of Stockholders of Credit Foncier Canadien

Arthur Laberge was voted out of the vice presidency at a meeting of the stockholders of the Credit Foncier Canadien, held in Arcanum hall, Providence, R. I., Saturday afternoon. The meeting was presided over by Franco Rivet of this city. Mr. Laberge was present at the meeting and talked for nearly two hours in an attempt to vindicate himself of the charge that he had worked against the interests of the influential organization, in which he was an officer, during the reciprocity campaign in Canada. But when the votes were counted it was found that

FRANCO RIVET

stockholders controlling over 208,000 shares of stock had voted for his removal, while stockholders controlling but about 21,000 shares favored his retention. The victory of the officers of the organization, who promoted the agitation for the removal of Mr. Laberge, was complete, but the latter states that there may be something more doing before he is through with the case.

According to information given out by President Joseph Brochu, after the meeting, Mr. Laberge openly admitted that he was against Premier Lemieux and Prime Minister Gouin in the recent Canadian fight. He also stated that he would work against Gov. Pothier, according to President Brochu, in the coming state election.

Action against Mr. Laberge was started by the officers of the company some time ago. It was claimed that he was sent to Canada to work in the interests of the organization, which controls vast lumber lands in Canada and does an extensive real estate business. The Credit Foncier Canadian is one of the biggest business organizations controlled by French Canadian people. In order to cause his removal letters were sent out to stockholders informing them of the charges against Mr. Laberge and asking that their proxies be sent to the secretary to be used at a meeting called for the purpose of affecting his removal. Mr. Laberge, finding out that this movement was on foot, engaged Percy W. Gardiner as counsel and went to court for a restraining order to prevent the use of these proxies at the meeting until he could send out letters to the stockholders explaining his side of the question. The restraining order was granted by the court and the use of proxies at the meeting was prohibited. No action was taken.

Mr. Laberge prepared letters to send out to the stockholders, but he did not send them. Instead he decided to appear before the meeting and explain to the stockholders present what he had done in Canada.

A quorum of stockholders was present when the meeting was called Saturday. It is understood that many proxies were used in the voting, however.

Mr. Laberge denied emphatically that he had worked against the interests of the organization any way, but, judging from the size of the vote in favor of his removal from office, his contention did not carry great weight with the voters.

The Credit Foncier Canadien was organized under the laws of Rhode Island in 1906, and about $350,000 were subscribed in shares from the different states of New England, among them being over 50 people from this city, their shares representing over $20,000.

The officers of the organization are: J. P. Brochu, president, Attleboro, Mass.; J. W. Trinque, secretary, Uxbridge, Mass.; Arthur C. J. Roy, treasurer, Providence, R. I.; Jean Baptiste Dion, New Bedford; J. B. Dardelin, Fall River; Arthur Samsoucy, Troy, N. Y.; Senator P. A. Choquette, Quebec, and Arthur Lavoie, Lowell.

The Lowell stockholders were represented at the meeting by Messrs. Arthur Lavoie and Franco Rivet. It was stated this morning that Mr. Laberge left last night with his family for Montreal, Que., where he will make his home.

A daughter was born yesterday to Mr. and Mrs. Emile Lachance of 2 Phoebe avenue.

Mrs. Blais of Marieville, Que., is the guest of her son, Mr. R. Blais of Aiken street.

ROYALISTS DEFEATED

They Are Awaiting Reinforcements Under Captain Coucierre

LISBON, Portugal, Oct. 9.—The royalists, after their defeat at Vinhaes, where they lost 50 men, entrenched themselves in the rough country and are awaiting the arrival of another column under Captain Coucierre. It is reported that they have eight field pieces and four Maxim guns. A party of monarchists attacked an express train which was carrying troops to the north, near Monsanto. They placed an obstruction on the tracks which was discovered by the engineer, who stopped his train when it was within 50 yards of the pile of stones and railroad ties. As the train halted it was fired upon. The troops responded and drove off the royalists.

The four hundred royalists attacked Macedo De Cavallieros which had been reinforced and withdrew after a fight that continued for two hours. The government is finding difficulty in handling the cavalry and infantry in the mountainous districts.

A business man's Clothes usually tell what kind of a Business Man He Is!

It doesn't necessarily follow that he won't do business or won't succeed if he doesn't dress well, but it's pretty good evidence of his judgment, good taste and business sagacity if he dresses *correctly* and in conformity to prevailing style.

The Clothes we sell—the Clothes we have devoted so much time to selecting and investigating during the past six months, are pretty good evidence of what kind of business men we are; we're sure of that because they are made by

The House of Kuppenheimer

—probably the greatest and most exacting organization in the production of fine clothes anywhere.

You business men who want your appearance to reflect your good judgment in business can't do yourselves a better turn than to inspect these Kuppenheimer Business Suits now displayed in such abundance.

THE SUN'S DAILY PICTURE PUZZLE

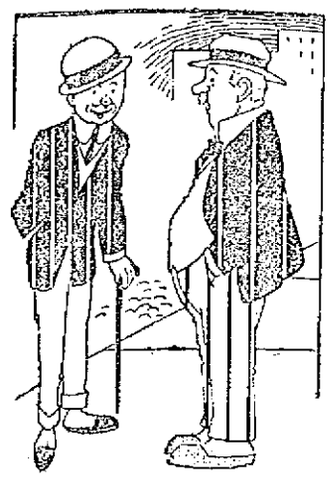

HER ANSWER.

When I asked her
To be my wife
She simply said,
"Yo'betcherlife."

Find him.

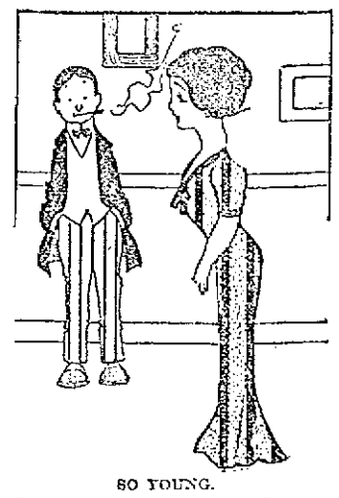

ANSWER TO SATURDAY'S PUZZLE. Upside down in front of girl.

A LITTLE NONSENSE

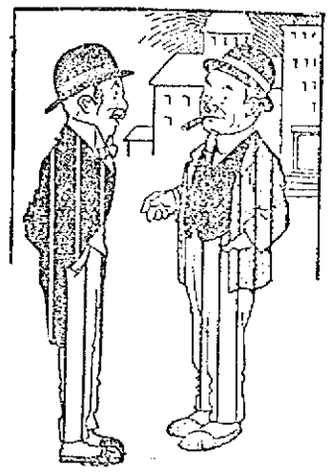

HIS DEFINITION.

First Fan—What is winter?
Second Fan—The intermission between seasons.

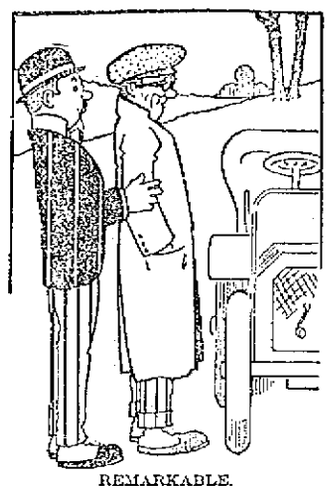

SO YOUNG.

Percy—I heard that you said I was a goose. I hope you will deny it.
Kitty—I most assuredly will. I merely called you a gosling.

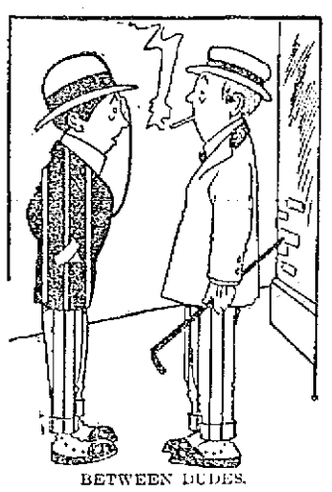

SPELLED DIFFERENTLY.

"Is that your city hall?"
"Yes, but since so many grafters have been found there, it is spelled in a new way, the second word being 'h-a-u-l.'"

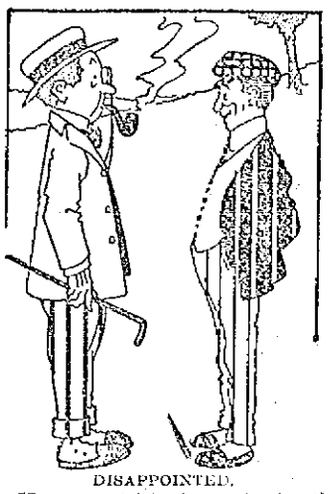

REMARKABLE.

"Do you find that this machine costs you less to keep up than your last one?"
"Oh! much less. Why, I almost have enough left to live decently on nowadays."

BETWEEN DUDES.

"I say, old fellow, let's go shooting, eh, what?"
"Nothin' in it, old chap. We shouldn't bag anything but our trousers, y' know."

DISAPPOINTED.

"So you went into the country to get 'atmosphere?' How did you like it?"
"Disappointed. Couldn't find a farmer who had a horse named Dobbin, and never heard one of them say 'By heck!'"

MORTGAGEE'S SALE

By virtue of a power of sale contained in a certain mortgage deed given by Malvina Lagasse of Lowell to the County of Middlesex and Commonwealth of Massachusetts to Hiram Whitney of Westford in said County, dated March tenth, A. D. 1906, and recorded in Middlesex North District Registry of Deeds, Book 387, Page 495, and subsequently assigned to me by an instrument duly recorded in said Registry of Deeds, and for breach of the condition of said mortgage, will be sold at public auction on the premises in said mortgage deed described, on Thursday, the twenty-sixth day of October, A. D. 1911, at 3.30 o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed, viz.:

A certain tract or parcel of land with the buildings thereon containing two thousand three hundred and seventy-four square feet, more or less, situated on the westerly side of Cumberland Road in said Lowell and being part of lots 332 and 333 on a plan of land entitled "Division of tract marked Reserved" on a plan entitled "Crescent Hill, a suburb of Lowell, Mass., owned by Heirs of Fisher A. Hildreth, Thomas Nesmith and others, Ernest W. Bowditch, C. E., computed December, 1896 by Smith & Brooks, C. E., Lowell, Mass., recorded in Middlesex North District Registry of Deeds in Book of Plans 12, Plan 40, and bounded as follows, namely: Beginning at the point on the westerly line of said Cumberland Road which point is distant southerly one hundred and twenty-four and 92-100 feet from a stone bound at the intersection of said westerly line of said Cumberland Road with the easterly line of Aiken avenue which point of beginning being also at the northeasterly corner of the premises, thence southwesterly at a right angle with said westerly line of said Cumberland Road fifty-five and 88-100 feet to a stake, thence southerly at an internal angle of 111 degrees, 6 minutes, with the last described line forty and 53-100 feet to a stake, thence southeasterly at an internal angle of 65 degrees, 54 minutes, with the last described line, seventy-two and 43-100 feet to the said westerly line of said Cumberland Road; thence northwesterly at a right angle with the last described line and on the westerly line of said Cumberland Road thirty-seven feet to the point of beginning. Being the same premises conveyed to said Malvina Lagasse by Hiram Whitney by his deed dated March 10, A. D. 1906, and recorded in said Registry of Deeds Book 387, Pages 175 and 177.

Subject to the following restrictions, namely: (1) that no building shall ever be erected on said premises within ten feet of said Cumberland Road except that doorheads and eaves may further project but not so far as to unreasonably obstruct the view along said road, and (2) that for the term of twenty years next after the year 1902, no spirituous or intoxicating liquors shall be sold or kept for sale on said premises.

Said premises will be sold subject to taxes for the current year 1911 and all unpaid taxes and other municipal assessments if any there be.

Terms, $300 cash at time and place of sale, and the balance within ten days thereafter upon delivery or tender of a deed.

M. ELIZABETH WHITNEY, Assignee of said mortgage.

HELD BRIEF MEETING AT COURT HOUSE TODAY

The county commissioners held a brief meeting at the court house this morning and after going over some routine matters held a conference with Selectman Adams of Chelmsford relative to road matters in that town.

O'DONNELL'S OPENING

The grand opening of this establishment which took place Friday and Saturday of this week was certainly a great success. This store is known as the store of fine quality and everything was carried out to the last degree in their beautiful display of pattern hats and bonnets and everything in the millinery line that would bring delight to the heart of a woman who is fond of fashionable millinery. This season's creations are the most beautiful that our people abroad have sent us, and even thought the shapes of many look odd when but a mere frame, after passing through the hands of various skilful milliners who are in the establishment there is a transformation scene that makes what looked like a homely shape a delightful dream as we might say.

Miss Curran, who has charge of the millinery department has always been fortunate in being able to get the best and most skilled milliners to assist her. The salesroom and the display of hats brought out many comments very favorable to the O'Donnell company, and many were the orders taken, which is the most important part. The entire store had on a holiday appearance and each department was thoroughly inspected and most generously patronized. It is pretty hard for anyone to find a more complete assortment of dry goods as well as millinery that will surpass or compare with the O'Donnell Dry Goods Co.

Mr. James H. Kelley, the manager, should be congratulated for his ability in bringing this about. He is the right man in the right place.

A LARGE NUMBER OF SALES MADE AT THE LOWELL HIGHLANDS

By Eugene G. Russell, with offices at 407 Middlesex street, the man who made it possible for people of moderate means to own their own homes in the best residential section of Lowell, namely "The Lowell Highlands.

Eugene G. Russell has taken hold of the property at the Lowell Highlands in real earnest, and he is making things lively in that thriving suburb. When this tract of land was originally opened by Mr. Russell, there were about 70 lots. About half of these have been sold, and now Mr. Russell is busily engaged in disposing of the remainder and building handsome, modern houses. He has the foundation already in for one house and is about to start several more. All the streets in this section have gas, sewers and water; also sidewalks. Deeds were recorded the past week from Mr. Russell to Daniel J. Sullivan, for two lots of land in Stevens street, containing about 11,000 square feet, also a lot of 9000 feet in Highland avenue to Auburn Taylor, who will start a house at once. Mr. Russell has also sold for Richard M. Yarnold the house at 46 Rhodora street, and the house at 378 Parker street to a local party; lot of land in Highland avenue to Emma J. Norris; and lot in Rhodora street to a man who will build at once a modern house; also lot of land in Atlantic street to Mrs. Currier, who will also build a house for her own occupancy this fall. Also lot on Highland avenue, for S. J. Spence to a local party who contemplates building in the near future. And again a valuable lot on Parker street containing 11,408 square feet to a well known business man who will erect a modern grocery and provision store upon the premises at once. Again he has sold a fine house on a corner lot on Chelmsford street. This is a corner lot with an up-to-date house with every modern improvement. Names of the parties will be given upon passing the deeds. Business during the past week has been uncommonly good, and the prospects for the coming week are even better.

Anyone having property to sell will do well to list same with Mr. Russell, 407 Middlesex street, for a quick sale.

Also contracts have been signed for the sale of two lots of land at Wamesit by E. J. Norris to a local party. Last week four permits were taken out to build houses at the Lowell Highlands, and the parties have started to build.

Mr. Russell will open the famous tennis courts at the corner of Parker and Rhodora streets to all some time this week and will give a key to all who purchase a house or house lot at the Lowell Highlands this week, having had made twenty keys to fit the Yale lock now on the gate at the tennis courts.

Walk or take the Highland car up to the Lowell Highlands today or tomorrow and see the great improvements made there the past two weeks. It will surprise you.

A Beautiful Residence

FOR SALE

At a Great Sacrifice at the

"Lowell Highlands"

Seldom, if ever, have you had a chance to buy at so great a sacrifice, a place like this one. This is the only place for sale at a sacrifice at the "LOWELL HIGHLANDS," for the building of new ST. MARGARET'S CHURCH aud many other facts too numerous to mention have made desirable houses scarce in this section.

This place has cost Mr. Varney over $6000, including the three lots that go with the place, or the residence will be sold with one lot if the purchaser so desires.

OWNER LEAVING LOWELL to make his residence in the northern part of New England and has placed in my hands to sell to the highest bidder, the beautiful residence, situated at the corner of Parker and Rhodora streets and numbered 378 Parker St., opposite the two so-called tennis lots, and next to the residence of Rev. Arthur P. Wedge.

DESCRIPTION OF THE HOUSE—A nine-room modern built house, up to date in every respect, in fine shape, now being painted two coats of paint on the outside, hardwood floors in every room, large parlor, dandy dining-room, kitchen, pantry and front and back halls, four bed-rooms, bath-room, hot and cold water, steam heat, good attic, cemented cellar, fine lawns, shrubbery, flowers, vegetable garden, fruit trees, etc., etc., concrete sidewalks. The house is situated on the highest land in Lowell in the most beautiful residential section of the city, "THE LOWELL HIGHLANDS," and Mr. Varney tells me that if he was to live in Lowell no place would suit him better as regards to neighborhood, which is the best. Some of his neighbors are Rev. Mr. Wedge,, Mr. Walter W. Carr, assistant superintendent of the Merrimack Mfg. Co.; Mr. George S. Drew, the local resident representative of Bradstreet: Police Officer Daniel J. Donovan, Optician Labelle, of Merrimack St.; Joseph R. Hardy, manager of E. Buxton Co.; Charles G. Martin, the well known bookkeeper at the Bon Marche; Edwin Erickson, an employe of the Boston & Northern; Mr. Lofgren, the popular overseer at the U. S. Cartridge Co.; W. S. Woodward, bookkeeper at the Swift Plant at South Lowell; Mr. Martin Flaherty, the well known athlete; Mr. Fred McMaster and Mr. Harry C. McMaster, two popular employes of the U. S. Cartridge Co.; Mr. John W. Cole, the well known manager of the D. L. Page Co. restaurant on Merrimack St., which is second to no restaurant in the city; Mr. Whitson, the popular letter carrier, and last but not least is Mr. Charles H. Bagshaw, the well known and very successful manufacturer, who occupies the magnificent cement mansion on Wedge St., which is the centre of so much attraction and admiration of all who stroll through the "LOWELL HIGHLANDS."

THE LAND

There are 4995 square feet of land in the first lot, which goes with the house and is numbered 2. The second lot is No. 1, and the third lot is No. 5, on plan of land at "LOWELL HIGHLANDS," belonging to Eugene G. Russell.

For full description and lowest cash price, as well as the easiest terms, a reasonable amount down and balance monthly, on which this estate can be secured and how it can be divided, call today.
